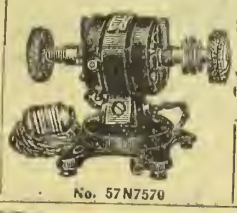
Either of these two motors will buff up silver, grind knives, buff automobile parts, grind tools, run a watchmaker's lathe and can be made to operate a small coffee mill, an egg beater, fans and other machines. Each motor complete with base, mounting screws, double groove pulley, 2-inch grinding wheel, 2-inch buffing wheel, buffing compound and 5 feet of connecting cord with plug. Operate on either direct current or alternating current of 60 cycles, if voltage is between 105 and 115 volts (ordinary city current). No. 57N7570 has three-speed rheostat in base. Motor frames 3 inches in diameter, length of shaft, about 8¼ inches. Height of No. 57N7569, about 4⅞ and of No. 57N7570 about 5⅝ inches. These motors are for light work only and not built to operate washing machines or other heavy loads. The power motors at the left are for the heavier duty and there are many places around the home where both Utility and Power motors may be installed, saving time and labor.



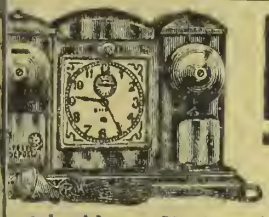
No. 57N7570

No. 57N7569 High Speed Utility Motor. Shipping weight, about 6 pounds. Price $9.80

No. 57N7570 High Speed Utility Motor with three-speed rheostat. Shipping weight, about 6½ pounds. Price $11.65

Flexible Cord With Terminals and Plug.

No. 57N7590 To use with Power Motors. Cord of standard quality. Length, 15 feet. Shipping weight, about 1½ pounds. Price, complete $1.20

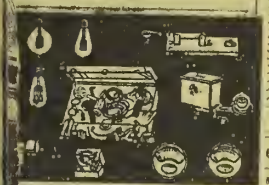


ectric Alarm Clock.

57N6078 Compartment ht contains battery. Left s savings bank with com- on lock. Push button for Polished nickel plated 12½ inches wide by 7¾ high. Shipping weight, nds.

, complete with $6.00

batteries and lamps, see N6085 on page 1032 and N6910 on page 1029.



ers, Hair Dryers, Violet Professional Vibrators, amps, Switches, Meters, and Generators are il- l and described in our l Goods Catalog. This ee on request. A postal l bring it to you.

An Electric Plant

Picture your home with electric light installed, and all the modern conveniences an Electric Lighting Plant brings: A bright, clean, safe, economical light, ready at the turn of a switch in every room, closet and bin. Clean power for grindstone, lathe and other small machines. Extra help for the wife in the shape of an electric vacuum cleaner, sewing machine, iron, fan, washing machine, cream separator and churn.

Write for our Electric Lighting Plant Catalog, sent free on request. Read about our high grade, guaranteed electric plants. Lots of interesting information in the catalog. And prepare for a pleasant surprise when you see the price of the plant to fit your needs. Write for Catalog No. E60.

More Light With Same Current.

The Mazda "C" lamp, owing to its especial construction, gives an unusually brilliant white light—considerably more light for a given amount of current than the regular Mazda lamp. Try one in your home. Cannot be used on usual city current of 105 to 115 volts. For 32-volt current only. Shipping wt., each, about 12 ounces.

No. 57N6125 50-Watt 32-Volt Mazda "C" Lamp. Price, each.. 70c
No. 57N6126 75-Watt 32-Volt Mazda "C" Lamp. Price, each.. 80c
No. 57N6127 100-Watt 32-Volt Mazda "C" Lamp. Price, each $1.20

Mazda "C" Frosted Lamps.

No. 57N6128 50-Watt 32-Volt Mazda "C" Frosted Lamps. Ea. 75c
No. 57N6129 75-Watt 32-Volt Mazda "C" Frosted Lamps. Ea. 85c
No. 57N6130 100-Watt 32-Volt Mazda "C" Frosted Lamps. Price, each $1.25

Mazda Tungsten Lamps.

LOW VOLTAGE, drawn wire filament lamps, high quality. Not for city current of 105 to 115 volts. **Be sure to order lamps of the correct voltage for your plant.** Shipping weight, package of five, about 2½ pounds.

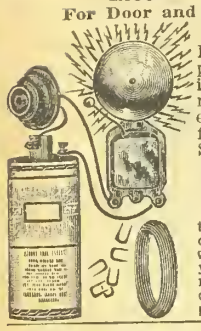
No. 57N6323 Low Volt Vibrator, same as above, except for 32-volt current. Price $10.85

If you are installing a lighting plant and want to check up the recommendations of your builder about the distribution of lights, you can get dependable advice. Page 537 of this catalog tells where to find the required information.

Bells, Spark Coils, Transformers and Batteries

Electric Bell Outfit.

For Door and Call Bell Service.



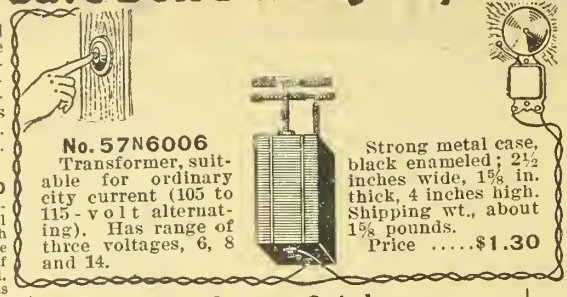
Consists of one Red Label dry battery, one push button, one 2½-inch bell, 75 feet of annunciator wire and necessary staples. Directions for installing furnished. Shipping weight, 4¼ lbs.

No. 57N6022

Price $1.00

Picture shows that push button, battery and bell are all connected by wire. How much wire you need depends on where you place the three parts. If more than 75 feet is needed, order wire No. 57N7900 on this page.

Save Bell Battery Expense



No. 57N6006 Transformer, suitable for ordinary city current (105 to 115-volt alternating). Has range of three voltages, 6, 8 and 14.

Strong metal case, black enameled; 2½ inches wide, 1⅝ in. thick, 4 inches high. Shipping wt., about 1⅝ pounds.

Price $1.30

Miniature Electric Lamp Outfit.

No. 57N6730

An interesting toy which is also useful for lighting dark closets, etc. Consists of three cells of Red Label dry battery, a 1½-candle power miniature Mazda tungsten electric lamp, a receptacle, switch and 30 feet of insulated wire. Shipping wt., 8⅛ pounds.

Price $1.30

Electric Door Bells.

No. 57N6001 High grade bell, 2½-inch gong; cover, stamped sheet steel, black enameled. Guaranteed to ring clearly through 200 feet of No. 18 annunciator wire (100 feet from bell to battery) on one battery cell. To get maximum sound, two batteries should be used. Add one cell for each additional 50 feet of wire. Suitable for use with transformer. Shipping weight, 1⅛ lbs. Price, each...40c

No. 57N6000 Same as above, but with 3-inch gong. Shipping wt., 1⅛ lbs. Price, each 45c

No. 57N6002 Same as above, but with 4-inch gong. Not suitable to use with transformer. Shpg. wt., 1⅝ lbs. Each..55c

NOTE—These bells cannot be used with telephones. Send for our Electrical Goods Catalog for Telephone Bells and for Large Bells up to 12 inches.

Buzzer.

No. 57N6007 High grade construction. Makes a comparatively low buzzing sound and is used in place of bell where the loud ringing is not desirable. Directions for installing furnished. Shipping wt., 12 oz. Price, each....38c

Push Buttons.

Our Special Wet Battery.

No. 57N6050 Gives excellent service for telephones, door bells, etc. A sal ammoniac cell, easily and cheaply recharged when exhausted. Consists of a glass jar, a large circular carbon electrode, stick zinc electrode and one charge of sal ammoniac. Shipping weight, 5⅝ pounds.
Price, complete.....68c

No. 57N6051 Rectangular Stick Zinc, ¼x⅜x6½ inches.
Price, 3 zincs (shipping weight, about 12 ounces) 35c
Price, per dozen (shipping weight, about 3 pounds)..$1.20

No. 57N6053 Carbon for our Special Wet Battery. Shipping weight, about 2⅜ pounds. Price.....30c

No. 57N6054 Sal Ammoniac. Price, per pound (shipping weight, about 1½ pounds).....31c

No. 57N6055 Sal Ammoniac. Price, per package, sufficient for one charge (shipping weight, about 7 ounces)...14c

Red Label Dry Battery.

Our Red Label Dry Battery is suitable for telephone use, door bells, annunciators, burglar alarms, medical batteries, small motors or other similar work. It is made with high internal resistance and low amperage, averaging from 10 to 13 amperes. Owing to its high iuternal resistance it has unusual lasting qualities. Size, 2½ inches diameter by 6 inches high.

No. 57N6085

Price, each....(Shipping wt., 2⅝ lbs.)...$ 0.29
Per dozen.....(Shipping wt., 30 lbs.)... 3.36
Per barrel (125 batteries). (Shipping weight, 280 pounds)..... 33.75

Stand-By "Special" Dry Batteries.

The Stand-By "Special" is a dry battery of low internal resistance and is designed especially for ignition work. It is suitable for use with stationary gasoline engines, automobiles and launches. It may also be used for operating toy motors, lighting miniature incandescent lamps, etc. Each cell is guaranteed to test from 20 to 25 amperes.

No. 57N6095 Size, 2½x6 inches. Shipping weight, 2¾ pounds. Price, each.....35c

Special Prices in Barrel Lots.

No. 57N6095 Size, 2½x6 inches. 125 in barrel. Shipping weight, 295 pounds.
Price, per barrel.....$42.50

Stand-By Multiple Batteries.

For Automobile or Stationary Engine Ignition.

The Stand-By Multiple Batteries consist of a number of 2½x6-inch Stand-By "Special" cells connected in series and multiple. The cells, all connected up, are placed in a wooden case, which is then completely filled with a paraffin-like wax, thus hermetically sealing the batteries, which greatly prolongs their life.

No. 57N6087 Stand-By Multiple Battery, consisting of ten cells, connected five in series, two multiples. This battery is suitable for all ignition systems using standard coils and timers, or using five or six cells to a set. Dimensions over all: 6⅝ in. wide, 14¾ in. long, 8¾ in. high. Net weight, 27 pounds. Price.....$5.30

Make and Break Coil.

No. 57N6519

No. 57N6518 For use with any engine of make and break ignition. Mounted in a strong steel case, 2¼ x 2¼ x 6½ inches. Takes up about same space as a dry battery. Easily inserted in battery box. Shipping wt., 3 pounds.
Price, without switch.75c

No. 57N6519 Make and Break Coil, same as above, but equipped with switch for making and breaking circuit.
Price 90c

Jump Spark Co

No. 57N

Made with brass contacts and plain brass handle. Shipping weight, 3 oz.

No. 57N6041 Single Throw Switch. Price....

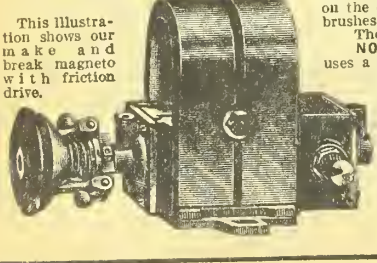
No. 57N6042 Double Throw Switch, for use with of batteries or one set of batteries and magneto. Pri

GASOLINE ENGINE MAGNETOS.

Made with two large powerful magnets and completely enclosed armature, affording protection from dirt and moisture. Bearings lubricated with wick oilers with removable caps over oil holes. Equipped with ball bearing governor, which regulates the speed of the magneto, preventing burning out the spark coil or contact points. A uniform spark at all times, insuring full engine efficiency. Once mounted on the engine, they require practically no attention aside from oiling about once in two months and renewal of brushes about once in from twelve to eighteen months.

These magnetos are not suitable for use on automobiles.

NOTE—Make and break ignition is also known as "wiper" or "hammerbreak" ignition. If your engine uses a spark plug it is jump ignition. If it does not use a spark plug it is make and break ignition.



This Illustration shows our make and break magneto with friction drive.

No. 57N6551 Friction Drive Magneto, for make and break ignition, without coil.
Price $11.00

No. 57N6552 Friction Drive Magneto, for make and break ignition, with coil mounted in magnets Price $12.00

No. 57N6553 Belt Drive Magneto, for make and break ignition, without coil. Price....$12.00

No. 57N6554 Belt Drive Magneto, for make and break ignition, with coil mounted in the magnets. Price.....$12.00

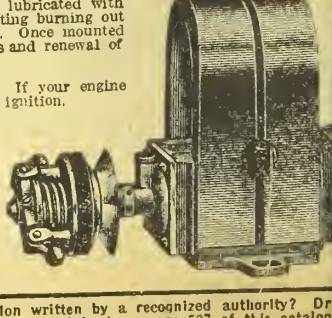
Shipping weight of all make and break magnetos, 17 pounds.

No. 57N6555 Friction Drive Magneto, for jump spark ignition. Price.....$12.00

No. 57N6556 Belt Drive Magneto, for jump spark ignition. Price.....$12.00

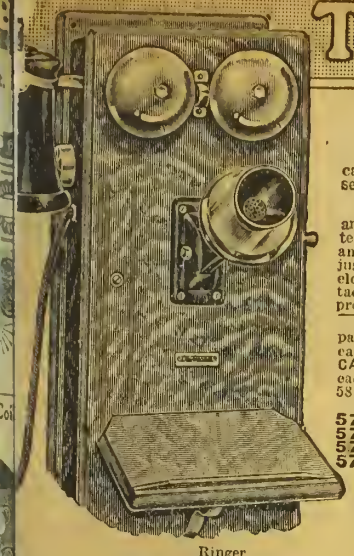
Shipping weight, jump spark magnetos, 20 pounds.

NOTE—We do not furnish jump spark magnetos with coil mounted in the magnets.



Do you want to study an interesting article on electric power transmission written by a recognized authority? Dr. Louis Bell, of the General Electric Co., competently talks on this subject, as explained on page 537 of this catalog.

Telephones and Accessories



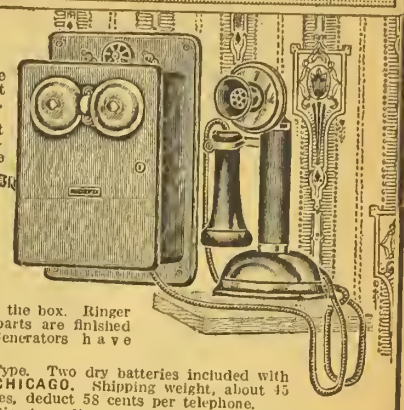
Description of Our Telephones.

What Kind to Order.

Bridging telephones are the standard for party lines and we recommend their use. We carry the series type for private line and city exchange work, where they give excellent service. Series and bridging telephones cannot be operated successfully on the same line.

All telephones on one line should be of the same ohms resistance.

Each of our telephones is made in one factory and repair parts can be furnished at any time. We equip all with our very latest solid black granular carbon button transmitter—a loud, clear speaking, long distance transmitter. Receivers are of the bi-polar type and have concealed connections and heavy durable cord. Ringers are made with adjustable armatures and durable frames and the coils are wound with modern enameled magnet wire. The switch hook frame and the hook are separated from the contact springs by proper insulation. Two-patch carbon arrestor offers a maximum of protection from lightning discharges.



Six-Magnet Bridging Telephone with compact cabinet. Two dry batteries included with each phone. **Shipped from factory near CHICAGO.** Shipping weight, about 43 pounds each. If you do not want batteries, deduct 58 cents per telephone.

No.	Ringer	Price, Each	Price, Six
57N5550	1,000-ohm	$13.25	$78.50
57N5551	1,600-ohm	13.50	80.00
57N5552	2,000-ohm	13.75	81.50
57N5553	2,500-ohm	14.00	83.00

Five-Magnet Bridging Telephone with compact cabinet. Two dry batteries included with each phone. **Shipped from factory near CHICAGO.** Shipping weight, about 43 lbs. each. If you do not want batteries, deduct 58 cents per telephone.

No.	Ringer	Price, Each	Price, Six
57N5500	1,000-ohm	$12.75	$75.50
57N5501	1,600-ohm	13.00	77.00
57N5502	2,000-ohm	13.25	78.50
57N5503	2,500-ohm	13.50	80.00

Bridging Type Desk Telephones. Are of excellent quality. May be used on any magneto telephone line with bridging phones. Price includes a complete desk telephone and generator and ringer box with a lightning arrester mounted on the box. Ringer box is polished oak and exposed metal parts are finished in black enamel and nickel plate. Generators have ¾-inch laminated magnets.

Six-Magnet Bridging Telephone, Desk Type. Two dry batteries included with each phone. **Shipped from factory near CHICAGO.** Shipping weight, about 45 pounds each. If you do not want batteries, deduct 58 cents per telephone.

No.	Ringer	Price, Each	Price, Six
57N5540	1,000-ohm	$14.35	$85.10

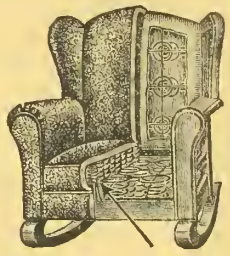
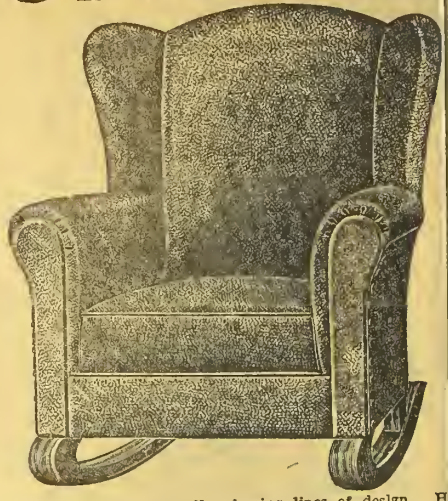
Price, genuine brown Spanish leather..... 32.65

In the back of each of these two rockers there are special pillow springs, double cone type, giving a high degree of resiliency. Filling over springs is tow, fine quality moss and layer of cotton on top, making a soft, pliable back cushion which will always keep its shape. The seat is made with the most comfortable type of upholstery construction known. Over the regular seat springs, giving a soft, luxurious seat, is a built-in cushion. This is made of 90 springs, each 2¼ inches in diameter, made of steel wire and encased individually in cloth pockets. (Arrow in small illustration points to these springs.)



As a foundation for this special spring cushion there are nine double cone type furniture springs. These springs are covered with burlap and have a firm, even filling for the support of the special cushion.



A rocker of exceptionally pleasing lines of design. H comfortable rolling arms, a big, roomy seat, and side wir on back typical of all fireside designs. Framework made seasoned hardwood, exposed parts finished in imitation m hogany, dull rubbed finish. Seat has the special spri construction described in detail at the left, and in size about 21x21½ inches. Height of back from seat, about inches. Six pillow springs in back. Shipped set up wood crate. Shipped from factory in WESTERN NE YORK or CHICAGO store. Shipping wt., about 95 l

Guaranteed for 12 Years

We positively guarantee the mechanism and construction of every Davis Morris Chair or Rocker for TWELVE YEARS.

The back and seat move to fit the body in any position without any troublesome adjustments. You simply lean back, the seat slides forward and the back reclines. When you sit up the seat and back resume their original position; automatic and easy, nothing to adjust or get out of order. Each chair has a concealed foot rest, which is entirely out of sight when not in use. It slides out as shown in No. 1N799. The deep cushioned seat and back are exceedingly soft, springy and comfortable. The springs used are specially tempered and tied by hand eight ways. This makes for the greatest possible comfort in spring construction and over the springs is used fine quality flax fiber and layers of high grade felted cotton. There are ten springs in the seat and twelve in the back and the seat is spring edge. The seat is 20x20½ inches and the form fitting back is 28 inches high from the seat.

A Rocker You Will Enjoy

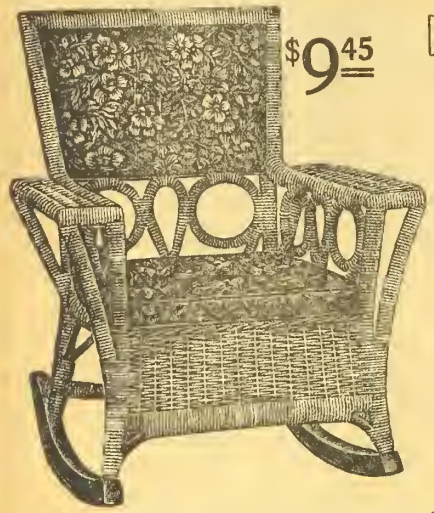
FIBRE-CRAFT ROCKERS

Fibre-Craft Rockers are made from a tough wood fibre, treated by a patented process which gives it great strength, renders it impervious to moisture and extremes of climate and gives it such wearing qualities as to withstand all sorts of hard usage. After this treatment it is made into long, pliable strands or braids and these are woven by hand over the frames with stakes of strong, tough reeds. The braids are all of uniform size and strength with a smooth surface that will not injure the most delicate fabrics. It will not sliver, crumble or break, and is not affected by extreme changes of temperature or the salt air of the ocean.

Fibre-Craft combines, to a degree reached by few types of furniture, the qualities of strength, utility, durability and lightness in weight. The strands of fibre are soft and supple, but of such tensile strength they are practically unbreakable. We furnish these rockers finished in **light golden brown color.**



$9.45

"The Wellington." A Most Comfortable Fibre-Craft Rocker with wide arms and broad, padded back. Has spring seat, 19x19 inches, with **nine** steel coil springs securely fastened to framework. Coverings Used on Our Upholstered Furniture

Genuine Leather is one of the most satisfactory and popular of all upholstery coverings, not only because of its superior wearing qualities, but also because it is soft and pliable and always presents an attractive appearance. We list practically every number of our upholstered furniture in genuine leather and we advise our customers to buy it in preference to artificial leather. The grain of the surface of the Genuine Brown Spanish Leather produces a rich mottled effect which greatly enhances the beauty of the piece of furniture on which it is used.

Artificial Spanish Leather. The body of the material is made of heavy sateen fabric, on the upper side of which is a coating of leatheroid beautifully grained in imitation of Spanish leather. It is soft, pliable and very durable. We furnish it in **brown color.**

Artificial Black Leather. The body of the material is made of heavy sateen fabric, coated, finished and grained in imitation of hand buffed black leather. It makes a strong and attractive furniture covering and will give lasting good service.

Crushed Plush is made of selected high grade cloth with extra long nap of mohair, very closely woven and the entire piece put through a crushing process which produces rich shaded effects. It will not fade. Furnished in **myrtle green or medium dark red colors. State choice.**

Tapestry. The tapestry which we furnish on No. 1N1684½ Living Room Set, shown on page 1062, is of especially attractive design. The predominating color is dark green with tan, red, brown and all richly blended, making one of the prettiest of this grade we have ever seen. It is heavy, close and will give splendid wear.

Mercerized Velour is a stylish and very s cloth covering. It has of mercerized cotton dyed with fast single tone colors **Mulberry or Holland blue,** which are the most popul now in vogue. A floral figure is put into this co clipping the top of the nap which also produces a self effect. **State choice of color.**

Car Plush is possibly the best wearing soft coveri We use an extra good grade, whic soft, deep pile of mohair that will not fade, and is tensile strength as to give splendid wear. Furnished **deep red, myrtle green or medium dark brown colors.** Sta

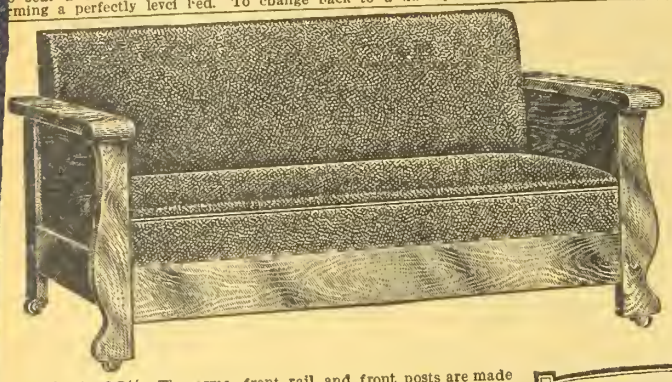
DAVENPORT BED SOFAS

Upholstery Cover-
ings Described
on Page 1056.

Seat and back are built on a hardwood frame and are connected with a ratchet ge which holds the back in position as a davenport. The ratchet hinge has an tomatic release attachment which allows the back to be lowered for use as a bed. lower the back for bed, raise the seat and the back will lower automatically. Raise seat a trifle higher and the ratchets will release and allow the seat to lower, rming a perfectly level bed. To change back to a davenport raise the seat until the ratchet clicks, then bear down on seat and the back will rise, and the seat lower, automatically. Simple and easy, not likely to get out of order. Below the seat of each davenport is a roomy box the full length and width of the seat, that will hold the necessary bed clothing. Shipped knocked down from the factory near CHICAGO or from CENTRAL NEW YORK.



No. IN1702⅓ The arms, front rail and front posts are made of seasoned solid oak; plain oak end panels. High gloss golden or fumed finish, 71½ inches long inside the arms. When made into a bed it is 72x42 inches. Spring seat and back; seat contains eighteen and back twelve steel coil springs. Between springs and covering is a soft, even filling. Good quality casters. Shipping weight, about 145 pounds.

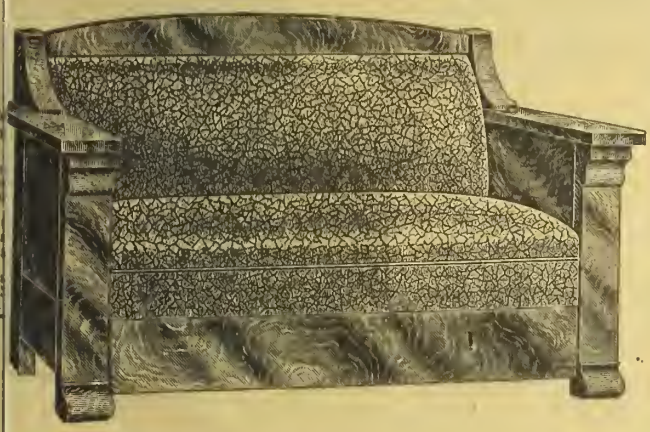
THE NEW IMPROVED DE LUXE AND EASIFOLD BED DAVENPORTS

The De Luxe is a short davenport for small rooms and the Easifold is a long davenport for large rooms. They provide both a comfortable divan or davenport by day and a serviceable bed by night. Each contains concealed under the seat a full size comfortable bed, the spring of which is made of strong steel fabric fastened to the all steel bed frame with steel coil helical springs. Over the spring a removable mattress fits. (A selection of these mattresses is shown on page 1139.)

The bed section folds or unfolds instantly with very slight effort. The bed frame and springs are entirely independent of the upholstering and, when in use as a bed, there is room for free circulation of air underneath and all around.



De Luxe Bed Davenport

Plain modern design in Arts and Crafts effect; very attractive and popular. Frame made of seasoned oak with the top rails, arms, front legs and front rail faced with quarter sawed oak veneer. Plain oak end panels. Choice of golden rubbed or fumed finish. (Fumed finish is a dull nut brown color.) Length outside, 61½ inches; length between arms, 52½ inches. Height of back from seat, 21 inches. Entire height, 38 inches. Size, opened as a bed, 48x72 inches. The seat is fitted with eighteen deep, heavy wire springs, firmly fastened to the frame-work. Over springs is a soft even filling with layer of felted cotton on top. This forms a smooth, firm foundation for the outer covering. Shipped from factory near CHICAGO or in CENTRAL NEW YORK. Shipping weight, about 250 pounds.

For Mattress to fit see page 1139.

These Davenports Are Unusually Easy and Convenient to Operate

The tension springs furnish all the effort—only the slightest pull is necessary to release them. The closing up is equally easy and simple. The leverage arrangement of the bed frames together with the aid of tension springs eliminate the necessity of lifting by the person operating it. These are the easiest working davenports of which we know.

First—A slight lifting pull on the lower edge of the back releases tension spring which raises the back into position shown in the illustration above.

Second—Now by lightly pulling on the small hand strap at the back edge of the seat another set of tension springs raise seat into position shown here.

Third—A slight pressure downward brings the bed entirely open, as shown here. The pillow rail can then be opened out as shown.

Easifold Bed Davenport

. massive Colonial design, a cozy, inviting style, comfort-, graceful and clean cut. Frame made of seasoned oak top rail, arms, front legs and front rail faced with quar-sawed oak veneer; plain oak end panels. Comes either oldon rubbed or fumed finish. You Ca Buy the Se Complete o the Separat Piece

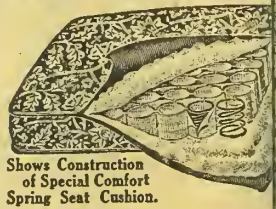
Thorough Comfort Is the Dominant Idea in This Richly Upholstered Overstuffed Set

A Bed Davenport Set for the living room is not only a positive economy, but a source of comfort, convenience and constant satisfaction. You will find this fine set ideal furnishing for your living room. To the prideful housewife it makes an instant, special appeal—not only for its lines of graceful beauty, but the satisfaction in knowing that it will afford her guests and her own home circle the thorough comfort that adds so much to the hospitable, entertaining atmosphere of the home. Equipped with the Special Comfort Spring, described below, it is unexcelled for comfort. You sink deeply into the soft, yielding, springy seats, enjoying a delightful comfort that brings real rest and relaxation. At night the davenport can be made into a full size, sanitary, restful bed. This bed is concealed underneath the seat when davenport is closed and in no way interferes with the usefulness and beauty of the davenport itself. The bed has space for a good size mattress and bedding.

The Special Comfort Seat Cushions, shown in the small illustration, are built over the regular furniture springs and add a degree of comfort not provided by any other style of upholstery. It is the same construction used in making the seats of the finest automobiles. The seats in this construction are made up of small soft spiral springs, each individually encased in cloth pockets and securely tied to hold in place. Over these springs is placed a soft, even filling, with layer of felted cotton, and then over this the outer upholstery covering is drawn. These seats are built in, not removable.



Shows Construction of Special Comfort Spring Seat Cushion.

The Construction.

Frames made of seasoned birch with exposed parts finished in imitation mahogany, dull rubbed finish. The springs in seats are securely anchored to the frames with steel cross bands. Over springs is a soft, even filling with a layer of felted cotton on top.

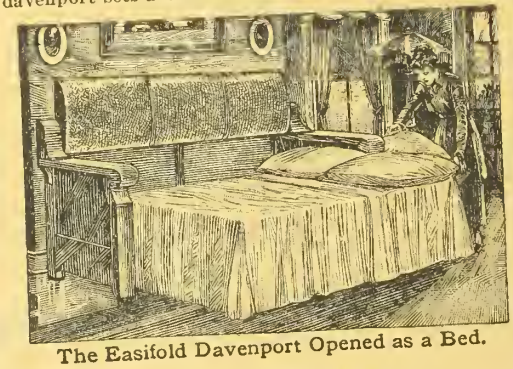
Simple, Graceful Lines of Design Combined With Comfortable Upholstery Make This Set Very Popular

There's a simple grace and charm to this pretty design. The long, graceful sweep of the panel top rails, the pleasing curves of the arms and corner blocks all lend character and dignity of appearance. A finely made set in every particular of a quality to please the most critical and yet moderate in cost. The construction, upholstery and finish of this fine set is of that same high degree of quality that has gained the confidence of thousands of De Luxe and Easifold owners throughout the country. These bed davenport sets are really economical. They save space by housing two practical pieces of furniture, a bed and a comfortable lounge, in one piece of furniture. The bed affords real restful comfort and is sanitary. The mattress rests upon a spring fabric fastened to the steel bed frame with steel coil helical springs. The bed is entirely independent of the upholstery and has plenty of space for bedding. The patented folding mechanism works very easily, requiring but the slightest effort. There are no complicated parts to cause trouble.

The Construction. Frames are made of seasoned oak with top, arms, front legs, front rails and end panels faced with quarter sawed oak veneer. Dull rubbed golden or brown fumed finish. Also made in birch with top rail, arms, front legs and front rail veneered with genuine mahogany; dull rubbed finish. The seats on all pieces have an all steel spring construction, very soft and comfortable. The springs are covered on top with a soft filling of tow, with a layer of felted cotton on top, forming a smooth, firm foundation for the upholstery covering.

Easifold Bed Davenport. Length outside, 84½ inches. Length between arms, 75½ inches. Height of back from seat, 21 inches. Entire height, 39 inches. Size open as a bed, 48x72 inches. Seat contains twenty-four steel coil cone shape springs supported on cables which are securely fastened to the frame. **Be sure to order mattress for davenport.** (See page 1139.)



The Easifold Davenport Opened as a Bed.

William and Mary – One of the Most Pleasing and Popular of the Period Styles

This is an old Early English Style, very sturdy and handsome. You will like this furniture in your home because of the sentiment associated with it, because of its historic value as an authentic period style, because it is built for permanence. While it is a fine piece of workmanship from selected materials, the prices are low; they afford substantial savings.

Material and Finish. Each piece is made of seasoned quarter sawed oak. Furnished in polished golden finish or in fumed finish, which is a dull nut brown color. The turnings throughout are carefully executed. We call special attention to the old brass finish swinging pulls used on the buffet, serving table and china cabinet.

Slip Seat Chairs. Made with removable slip seats upholstered with genuine brown Spanish leather. Extra high back (known as the Washingtonian style), 24½ inches high from seat. Entire height, 41½ inches.

China Cabinet. Glass panels with fancy wood lattice on each side of door. Inside fitted with three adjustable shelves, grooved near back edge for plates. Size of top, 17x38 inches. Height, 70 inches. Steel sliding casters.

Five-Leg Table. Top is 48 inches in diameter. Full box rim. The legs are securely anchored to the top and strongly braced at the bottom. This construction forms a firm, rigid foundation for the table when extended to any length.

Buffet. Height, 52 inches. Base, 21x48 inches. One small drawer lined for silverware. Bevel plate mirror, 10x40 inches.

Pedestal Table. Has a 45-inch top. Heavy box rim. Large octagon shape pedestal is 9 inches thick, not including turnings. Pedestal is non-dividing. The 8-foot, 10-foot and 12-foot sizes have drop legs as shown in small illustration on page 1083.

Serving Table. Size of top, 18x34 inches. Has one roomy, full length drawer.

We quote the pieces separately so you can make up a set according to your own desires.

Choice of Five-Leg or Pedestal Table.

Grace and Daintiness of Design Together With Substantial Construction Make This a Very Fine Set

This is an Adam Period Design Set, the style that is now so much in vogue throughout the country. Light, dainty and graceful in appearance yet built strong to bear day by day usage. You can easily imagine what a pretty dining room such furnishing will make. Up to date, attractive, stylish, yet at prices that are very reasonable.

Material and Finish. Each piece made of seasoned quarter sawed oak, in choice of dull golden or brown fumed finish; in seasoned birch, veneered with genuine mahogany, in the antique finish, which is a warm brown color. Also in American walnut in the dull satin finish. Drawers and buffet doors fitted with old brass finish swinging pulls. China cabinet has pull and lock.

Buffet. Base, 24x48 inches. One top drawer lined for silverware. Bevel plate mirror, 10x42 inches.

China Cabinet. Glass panel ends and front. Height, 60 inches; width, 42 inches; depth, 13 inches. Three adjustable shelves, grooved for plates. Steel sliding casters.

Serving Table. Size of top, 18x40 inches. Has one roomy full length drawer.

Five-Leg Table. Top, 48 inches in diameter. Box rim is strongly framed and when the top and legs are extended in all lengths, the center leg remains stationary to support center of table.

Pedestal Table. Top, 48 inches in diameter. Square shaped pedestal, slightly tapered and with flat moldings, 10 inches thick. Pedestal in all lengths is non-dividing; 8-foot, 10-foot and 12-foot lengths have drop legs, as shown in small illustration on page 1083. The 6-foot length does not have drop legs.

Slip Seat Chairs. Removable slip seats upholstered with genuine brown Spanish leather. Height of back from seat, 22 inches. Entire height, 38 inches.

We Quote the Separate Pieces So That You May Make Up the Set According to Your Own Desires.

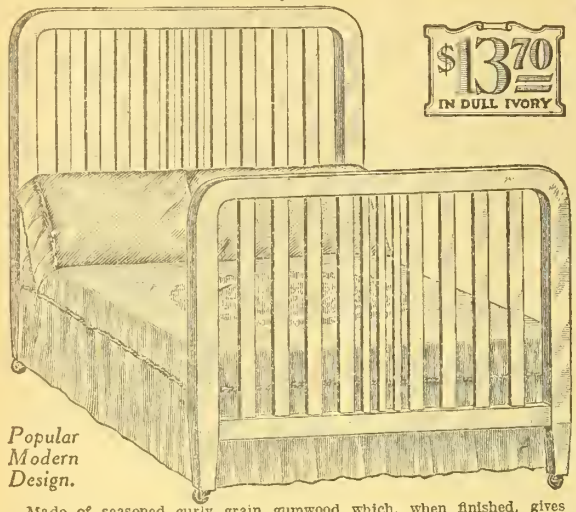
LATEST STYLE WOOD BEDS

An Unusually Good Value.

$13.70 IN DULL IVORY



Popular Modern Design.

Made of seasoned curly grain gumwood which, when finished, gives a splendid imitation of walnut, dull waxed finish; or of seasoned hardwood, dull ivory finish, which is a rich cream color. Height of head end, 51½ inches; foot end, 37½ inches. Width, inside, 54 inches. Continuous corner posts and top rails, 1⅝ inches square. Vertical panels, 1½ inches wide, ¾ inch thick; the three small grille spindles in center are ¾ inch square. Big wheel casters. Shipped from factory in INDIANA. Shipping weight, about 115 pounds.

No. 1N5162⅓ Imitation walnut. Price...$12.95
Dull ivory finish. Price... 13.70

This style of wood bed contains the good features of both the metal and ordinary style wood bed. They are thoroughly sanitary, light, strong and easy to handle. By this construction wood beds of unusually graceful and attractive design can be had at a very moderate cost. In the construction of these splendid beds only select solid stock is used. The framework is carefully jointed and mitered throughout and they are carefully and attractively finished.

These Beds Are Equipped With All Steel Side Rails.

These rails are sanitary, easy to keep clean, light in weight, strong and permit the use of any style spring for wood or metal beds. They are simple in construction—nothing likely to get out of order. The beds are easily set up or taken down without use of tools and stand absolutely rigid at all times.

Steel has long been recognized as an ideal material for metal beds. These beds are made by forming and electrically welding polished cold rolled strip steel into perfect tubing. This construction permits of many designs that were impossible in the old style iron beds. There are no screws to come loose and rattle; each joint is electrically welded and fused into a single piece of reinforced thickness, making sturdy, rigid beds. They weigh one-third less than iron beds of equal size and can easily

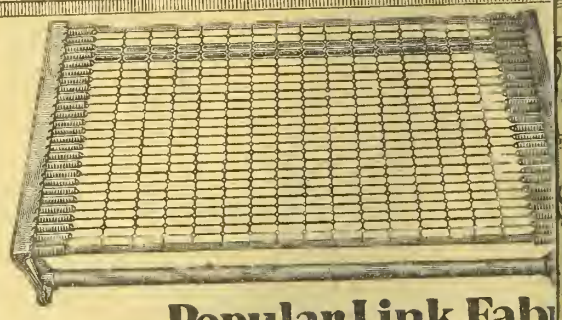
(IN QUALITY AND VALU



Leader Slat Fabric

The fabric of this spring is made of flat tempered steel slats interwoven as shown in illustration. This produces a flat, even, flexible surface. The fabric is attached to the angle steel end bars with **twenty-four** helical steel springs at each end. The side rails are made of drawn steel tubing, 1 5/16 inches in diameter. A special feature of this spring is the heavy shank casting on each corner which raises the fabric about 6 inches above the side rail, high enough to prevent striking rail when sitting or lying on edge of bed. The outer edge at each side has an extra wide slat supported with two steel coil springs at each end. This, together with elevated side rail, makes a bed of uniform comfort throughout. The frame is finished in the oxidized copper finish. One of the most practical, popular, satisfactory springs. The flat, even surface makes wear on the mattress slight. It is sanitary. There are no cracks or crevices for dirt or vermin. No slats needed when used on metal beds; two ordinary wood slats needed when used on wood beds.

Furnished for wood beds in full size, 52-inch width only. **Furnished for metal beds** in three sizes, 42-inch, 48-inch and 54-inch widths. **State kind and size of bed for which spring is wanted.** Shipping weight, about 50 pounds.

Popular Link Fabr

Side rails made of 1½-inch drawn steel tubing. Ends are angle steel, wide. A special feature of the construction is the malleable steel corne which fasten the side rails to the angle steel end bars, raising the fabric above the side rails, high enough to prevent touching the rails when sittin on the edge of the bed. This makes the edge of the spring as comfortal center. The special double prong steel fabric used in this spring is faster angle steel end bars with thirty spiral steel springs at each end. Each s fabric is further strengthened by a wide steel band. The frame is finished i copper finish. The double prong fabric is finished with heavy anti-rust tin coa that the sharp corners of the end rail are smoothly covered with the outer the corner casting to prevent tearing the bedding. Adapted for light, n heavy weight persons and will give years of perfect service. No slats a when used on metal beds; regular wood slats needed when used on wood

Furnished for wood beds in four sizes, 34-inch, 40-inch, 46-inch ar widths. **Furnished for metal beds** in four sizes, 36-inch, 42-inch, 48-inch s widths. **State kind and size of bed for which spring is desired.** Shippi about 55 pounds.

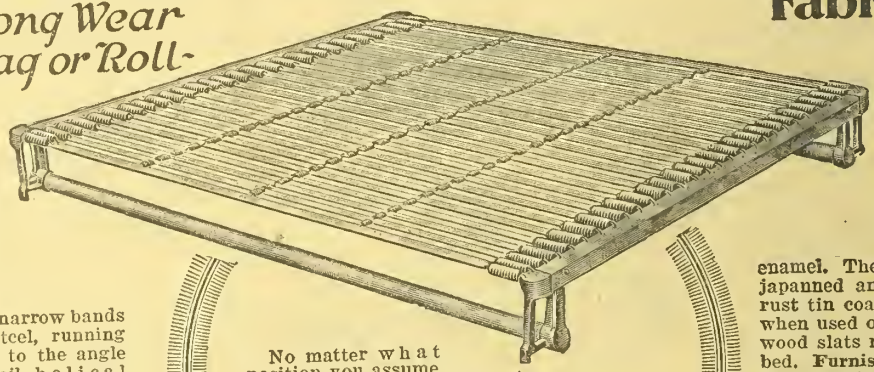
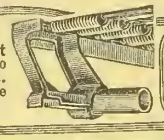
A Spring for Real Comfort and Long Wear Will Not Sag or Roll-



On this fine spring you will experience the most delightful comfort. Its construction is such that it adapts itself to the curves of the shoulders and hips, allowing every muscle to relax—fostering the most enjoyable refreshing sleep.

The fabric is made of narrow bands (⅝ inch wide) of flat steel, running lengthwise and fastened to the angle ends with sixty steel coil helical springs. These bands are connected with each other by three rows of small sensitive helical springs, running crosswise. This provides an elastic tension each way, which eliminates sagging. The oval shape tubular side rails are 1½ inches thick. The fabric of the spring is elevated 6 inches above side rails, preventing striking the rail when sitting or lying on edge of bed. The frame is light gray

No matter what position you assume or how often you move, the spring instantly adjusts itself, affording constant comfort. Two persons of unequal weight will not roll toward the center.



Shows Patent Raised Double Shank Corners. Note ends are entirely closed.

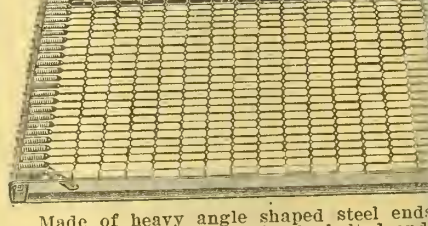
How to Order a Bed Spring.

State whether spring is wanted for wood or metal bed. Give the exact length and width of your bed.

If you want a spring for a metal bed, to obtain the width, measure from one **outside** edge to the opposite **outside** edge of the rail. For the length, measure the length of the side rail.

If you want a spring for ordinary wood bed, give the length of the cross slat for the width and the length of the side rail for the length. If for wood bed fitted with square wood rails or with steel rails, where the spring rests on the rails instead of on slats, for the width give measurement from **outside** edge to the opposite **outside** edge of the rail. For length, give length of side rails.

The Ban



Made of heavy angle shaped steel ends rails, the corners being firmly bolted and each end to prevent twisting. This insur and strong spring at all times. Equipped patent double prong steel fabric. The fab tened to the angle end bars with **twenty-** steel springs at each end.

Furnished for wood beds in two sizes, 46-inch widths. **Furnished for metal beds** in three sizes, 42- and 54-inch widths. **State size and kind of bed for** is wanted. Shipping weight, about 38 pounds.

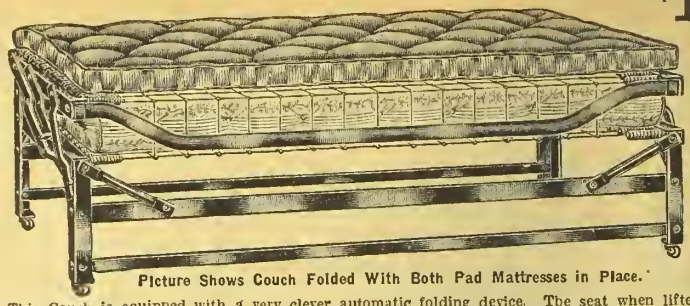
Steel Couches and Davenports

Order a Pad Mattress for the Couch or Davenport You Select

Sanitary Steel Couches and Davenports cannot be used without a pad mattress. A regular mattress is too thick and stiff and will not fold or conform to the shape of the couch and davenport in folding and unfolding. Under each couch and davenport on this and the following page a pad mattress to fit is listed. Each pad mattress is made especially for the couch or davenport with which it is shown. When you make out your order do not fail to include one of these pad mattresses. A combination of these mattresses and davenports or couches gives you a complete, comfortable outfit all ready for use.

OUR FINEST STEEL COUCH $1



Picture Shows Couch Folded With Both Pad Mattresses in Place.

FEATHERS AND PILLOWS

Guaranteed All New Feathers

these new feathers are imported, but the
t is secured from our home markets. The
duck feathers are plucked from live birds
for the most part from Northern Missouri
Our immense contracts with large feather
oncerns insure our factory receiving fresh
feathers at all times.
e new feathers reach the factory they are
gh an extensive cleaning and sterilizing process. First, they are thoroughly dusted and washed and then pass through an "electric bath." This process removes practically every vestige of animal fat from the quills and gives the feathers new life and resiliency. They are then dried with large fans. By this time the feathers are light, fluffy, clean and pure, ready to be sorted into the various grades. Through this entire process human hands scarcely touch the feathers. The factory is a bright, airy and cleanly place.

THE WHITMORE VENTILATED MATTRESS

Sleep is Nature's For a full third of her gentle ministrat us up and fit us for happenings. Wrap "mystery of folded troubles vanish, limbs are rested, busy thoughts are soft forgetfulness.

Surely, then, ing place should luxurious as o will permit. And, ly, the mattress, most important feature receive the most careful In the Whitmore Ventilated Mattress lieve we have found the most restful fortable mattress yet devised, soft as a down pi sturdily built, and with rare wearing qualities.

Hotel Managers Enthusiastic

Convincing testimony as to the worth of the ventilated style mattress is found in its enthusiastic and widespread adoption by the better class of hotels everywhere. The Pennsylvania, New York's newest and most modern hotel, is to outfit its **770 highest priced rooms** with ventilated mattresses. This hotel is to be operated by the Hotels Statler Co., proprietors of a chain of hotels internationally known for their excellence. Among other well known hotels using this style mattress are: Hotel Atlantic, Chicago; Hotel McCurdy, Evansville, Ind.; Hotel Blackstone, Omaha, and Hotel Shawnee, Springfield, Ohio.

Sweet, Clean and Wholesome

A carefully devised system of coil springs **throughout the whole interior** of this mattress gives it a wonderful softness and springiness. At the same time, openings provided in the ends and sides permit the constant circulation of air **all through** the mattress, keeping it always sweet, clean and wholesome.

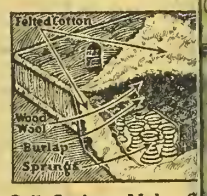
The springs are of specially selected tempered steel, woven into a heavy fabric which holds them permanently in place. Top, bottom and sides alike are thickly padded with soft, resilient cotton felt.

Most of the mattresses of this style that have been placed in the hotels mentioned have been filled with hair. We, however, consider that the present extremely high cost of hair makes its use almost prohibitive and certainly does not represent the same good value that does the felted cotton we use instead. The cotton mattresses we furnish are low in price, restful and very durable.

Absolute Sleeping Comfort

It is this combination of springs and soft which affords such absolute comfort. As yo out upon the mattress you are conscious of delightful accommodation of every part of curves of your body. It "fits" you, as thoug been molded by a master hand for your p use and enjoyment.

This mattress holds its shape. It offers sleeping luxury in the highest degree. It continues to offer it for years, almost indefinitely, and it cannot sag. The wear upon it is practically confined to the covering alone. This is of durable A. C. A. ticking or fine floral art ticking. The Whitmore Ventilated Mattress must not fused with a box spring. It is ible and easily handled as any ot tress.



Coil Springs Make S Luxury.

All Whitmore Ventilated Mattresses are full size, 54x76 inches. Shipping weight, 80 pounds.

JAVA KAPOK *Whitmore Sanit Mattress*

Java Kapok is more commonly known as "Silk Floss." Utmost care should be used in the selection of a Kapok Mattress on account of the fact that there are many inferior grades on the market.

This mattress of a silky fiber, which ri finest down in Java Kapok g the large seed the Randoe tree in t ieal forests of far off the Summer when the green pod are from 4 to 6 inches long, turn they are gathered by the natives in lar tities, brought into the towns, dried in and opened. The fiber is then removed, th cleaned and dried and packed in bales for s to America.

Weighs 30 Pounds In the Full Size Especially Soft and Buoyant

In appearance, Java Kapok is somewhat similar to cotton. However, the fibers are much more silky in texture and it is unusually light and buoyant. A mattress filled with it requires only 30 pounds (in the full size) to equal the bulk of 50 pounds of cotton felt. For this reason, it is very easy to turn and handle. It is waterproof and a small quantity will support a large amount of weight in water indefinitely. It is the standard material used in all the mattresses, pillows and cushions used by our Navy and Merchant Marine. It is vermin proof; insects positively will not go near it.

Select Java Grade Kapok

Many grades of Kapok are grown and marketed, some of which are very inferior. The quality which we use is believed to be the finest Java grade and is rigidly inspected in order to obtain a uniform quality. Upon arrival here it is subjected to the most efficient and up to date process of refining and sterilizing. This gives added buoyancy and resiliency, qualities which are permanent when subject to wear in the processed Kapok Mattress.

Construction Details of Interest

The French Art Ticking is a beautiful flo tern with intervening stripes, very attractiv a heavy grade closely woven and fast in colo

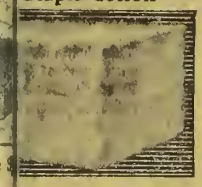
s the way to peaceful sleep! Here is the answer of the prob-
st. A mattress whose buoyancy provides absolute relaxation
muscle in the body, a mattress designed and constructed so
curve of the body "fits" snugly into the mattress just as if
feather pillow—that is what our Tuftless Whitmore Sanitary
ttress is.

ll find it in the finest homes where discretion is used in the
f the fittings and where cost matters but little. And you will
in the homes where the expenditures must be watched with care.

One Giant Bat of Staple Cotton



A Unique Construction

Perhaps you would like to know how it is made. The cotton is blown apart by compressed air until the fibers are thoroughly separated. This buoyant mass is then fed into a large mold, slowly and evenly, by compressed air until about 50 pounds of pure cotton is in the mold. It is then compressed to the size of the mattress and slipped into the ticking. **There are no layers in this mattress and there are no tufts.**

Special Features of Interest

rther evidence of the fine quality of this mattress, we enclose one sold a sample of the cotton filling. We urge you to open the mattress and compare the filling with sample, welcoming the closest inspection.

The Imperial Roll Edges extend entirely around the mattress, which has a full 5-inch border. This makes for great strength and durability. The rounded corners allow the easy placing of bed coverings and they also improve the appearance of the mattress.

The French Art Pattern Ticking is exceptionally high quality, made especially for us. Its closeness of weave and fastness of color insure long wear and complete satisfaction.

This Tuftless Whitmore Sanitary Cotton Mattress carries the Whitmore label—a guarantee of good workmanship, materials and satisfaction.

Weight, 50 Pounds

Only choice long fiber 100 per cent pure cotton goes into this Tuftless Whitmore Sanitary Cotton Mattress. The elastic, natural cream-white cotton of which it is built is as pure as the new fallen snow. And yet it has great potential strength.

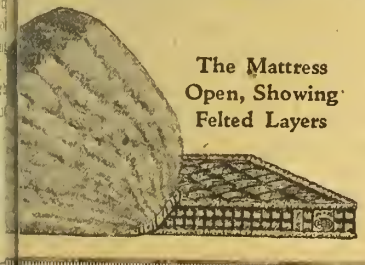
wny fibers of cotton stock are fleeced, worked and spun into
then into layers. These fleecy, fibrous layers are wonder-
c, light and airy. Each is full of buoyancy, of springy soft-
nful in purity and full of wholesome comfort. The ticking is
r about 50 pounds of these sheets, the roll edge is band
round and then the tufts are carefully made. This tufting holds the filling in place, giving the mattress excellent wearing capacity and a long life of satisfactory service.



The Mattress Open, Showing Felted Layers

Construction Details

The French Art Ticking is a beautiful floral pattern with intervening stripes; one of the most attractive tickings we have ever seen. A heavy grade closely woven and fast in color.

The Roll Edge and the Round Corners improve the appearance, prolong the life and add to the convenience of the mattress in allowing the easy placing of the bed coverings. Near each end are handles.

Through the side is an extra row of stitching, which holds the edge of the mattress firm and upright after continued service. This is a recent improvement added by us to the end that this mattress might be made as serviceable as any mattress can be.

With each mattress we send a sample of the filling, which is guaranteed all new—100 per cent pure cotton stock—complying with the Sanitary Bedding Laws. Open up your mattress and compare the sample with the filling. We welcome the closest inspection so that you may see for yourself that the quality is all we claim for it.

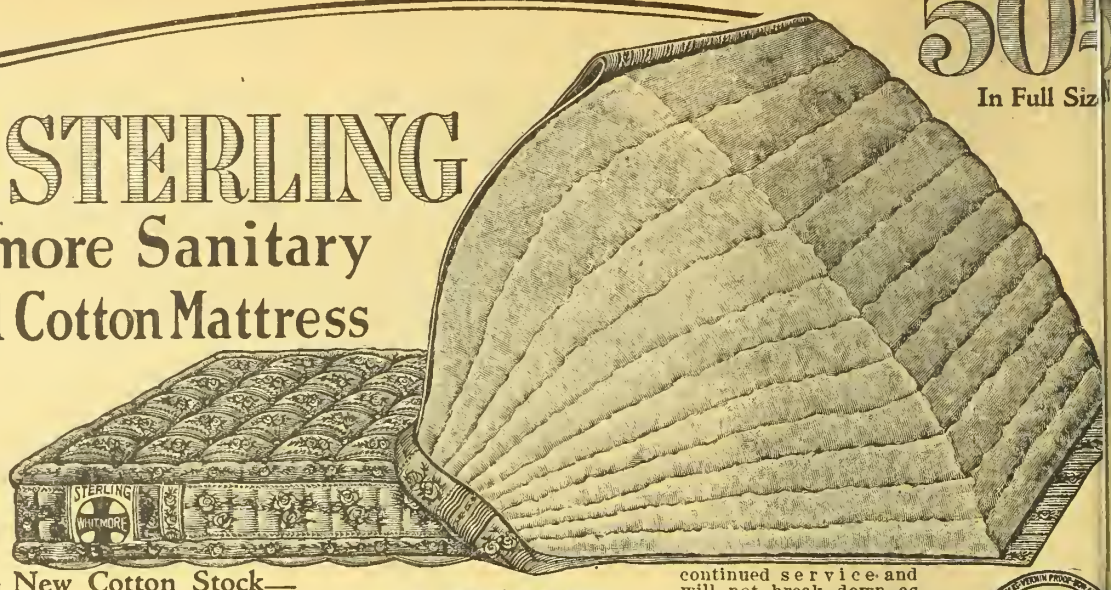
The STERLING Whitmore Sanitary Felted Cotton Mattress



Filled With New Cotton Stock—Complying With Sanitary Bedding Laws

THE STERLING This is one of our fastest selling mattresses and the scale on which we manufacture it to meet its large sale, enables us to keep the quality up to a high standard and the price down to this low figure. It meets fully the high standard of quality which we have set for the Whitmore brand. We guarantee it to satisfy you in every way.

It is made of felted cotton, absolutely new stock, complying with the sanitary bedding laws of the different states. The tough springy fibers are fleeced, worked and drawn into loose flaky sheets of cotton felt, which are then built into layers and laid one upon the other and encased in the ticking. It is a soft elastic mattress, thoroughly wholesome and rest inviting. The ticking is an attractive floral art design, extra heavy and durable. It is carefully cut and stitched throughout. The tufts are biscuit shape, all evenly placed and firmly bound with strong stays. It has **Round Corners**, a popular feature, which allows easy placing of the bed coverings. These Round Corners, together with the **Imperial Roll Edge**, also add greatly to the appearance and durability of the mattress. This Roll Edge extends entirely around the mattress. Has full 5-inch border. Another special feature is the extra row of stitching through the center of the sides. With this construction the sides of the mattress will remain straight and upright after continued service and will not break down as is the case with mattresses which do not have this extra row of stitching. When made in one piece, the 54-inch and 48-inch widths are fitted with handles on both sides for convenience in handling and turning the mattress.

The VICTORIA
Whitmore Sanitary Felted Cotton Mattress

SANITARY ELASTIC WHITMORE FELT MATTRESS

Trade Mark is a antee of Strictly Quality. None ne Without it.

Filled With New Cotton Stock—Complying With Sanitary Bedding Laws.

This fine mattress has all the special features of construction which are d in higher priced mattresses.

his mattress is made of built-up layers of h, new, wholesome cotton, felted into elasight, airy sheets. The special treatment h the raw cotton undergoes gives it a gy softness that provides lasting comfort g qualities to the mattress. The fibers leeced, curled and drawn into layers laid upon the other and encased in the ticking. makes a soft, elastic, springy mattress.

$17.85 IN FULL SIZE

Fifty pounds is the weight of this mattress in the full size.

The ticking—made especially for us by the textile mills—is a beautiful art floral design. Carefully cut, stitched throughout, and is extra heavy and durable. The Victoria has the **Imperial Roll Edge**, which adds greatly to the appearance and shape of the mattress. The tufts are all biscuit shape, of uniform size, evenly placed and of the same tension throughout. They prevent matting and bunching of the filling. A special feature of construction is the extra row of stitching through the sides. This holds the border or edge of the mattress firm and upright at all times. When made in one piece the 48-inch and 54-inch sizes are fitted with handles near each end, as shown in the illustration above.

Back of this fine mattress is the high reputation of the famous Whitmore brand. In buying a mattress if you want to be assured of one that is comfortable, lasting, absolutely sanitary, buy a Whitmore. Made in two of the largest mattress factories in the country. They represent the best efforts of highly skilled workmen, under the supervision of expert mattress makers.

We Urge Comparison. With each mattress a sample of the cotton filling is enclosed. We urge our customers to open up their mattresses and compare the filling with the sample. We welcome the closest inspection.

COMBINATION MATTRESSES

Climax Mattresses are built, not "stuffed," by the latest improved filling machinery, which spreads each layer of filling in a perfectly uniform thickness and length. These mattresses are made from properly prepared materials in a sanitary factory. The tufting and stitching are carefully and accurately done. The excelsior, corn husks, felted cotton and Canadian sea moss are all choice new stock, thoroughly sanitary and complying with all of the sanitary bedding laws.

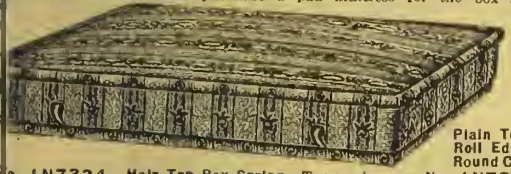
No. 1N7247 Price.....

BOX SPRINGS AND MATTRESS PADS

The long steel coil double cone shape springs are securely fastened to the cross s of the frame and tied, cross tied eight ways and knotted at the top with hemp ne. A heavy rattan binding extends entirely around the spring, giving great strength durability. In full size we use **seventy-two springs**; a proportionate number in the ller sizes. You should purchase a pad mattress for the box spring you select.

The width of the box springs for metal beds is always the same as the outside measurement of the rails, and the regular length is 74 inches. A box spring for a wood bed should have a space of at least 1 inch between the spring and inside of bed rails and the inside of head and foot ends. **State size and whether spring is for a wood or metal bed.**



We carry in stock box springs and pads for full size beds (54 inches wide for metal beds, 52 inches wide for wood beds) only. Other sizes are made up specially, requiring about four days after receipt of your order.

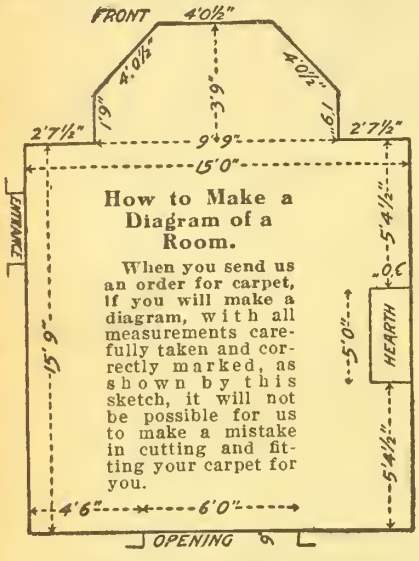
HOW TO ORDER CARPET

In ordering carpet be careful to give the exact size of room or rooms. If an odd size, having a fireplace, bay windo offset, be sure to send a diagram with exact measurements, also be sure to state where entrance and front of room is, and 1½ yards extra to every 25 yards for waste in matching. State whether you want the strips to run the long or short w the room. We always cut the carpet to the best advantage when no instructions are given.

We cut all carpets to match free of charge and strongly advise having your carpets cut by us. There will be less wast better matching if we cut the carpet for you, for the reason that where we are cutting up hundreds of rolls we can always a saving of waste by cutting and matching several carpets at one time, and in every case where we use less than 1½ yards to every 25 yards we will return the difference.



How to Make a Diagram of a Room.

When you send us an order for carpet, if you will make a diagram, with all measurements carefully taken and correctly marked, as shown by this sketch, it will not be possible for us to make a mistake in cutting and fitting your carpet for you.

Always Allow for Waste.

When ordering carpet always allow for waste in matching the pattern. For example, if you wish to cover a room measuring 25 yards, order 26½ yards, for, although 25 yards will actually cover the room, the pattern will not match; therefore, 1½ yards extra are needed to match the pattern exactly. Always order 1½ yards extra for every 25 yards required by actual measurements if you want the pattern to match at the seams.

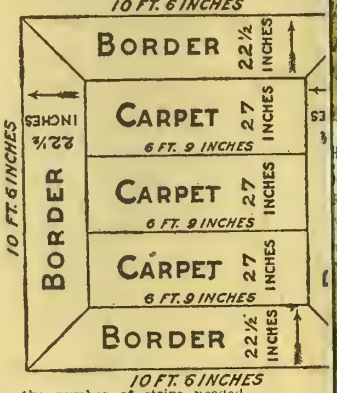
Extra Charge for Sewing Carpet.

For 2 cents a yard extra we will sew Ingrain, Rag or Granite Carpet to fit any room. For 3 cents a yard extra we will sew any of our Brussels, Velvet or Axminster Carpet to fit any room.

For 10 cents a yard extra we will sew any Brussels, Velvet or Axminster Carpet ordered with a border.

Ordering Room Size Rugs or Carpets Made With a Bo

When ordering carpet made with a border or room size rug be sure to allow enough money to pay for same, as it will avoid any delay in writing for money to cover cost of goods. Remember, the border is only 22½ inches wide. The body of the carpet is 27 inches wide. The diagram shown is of a room 10 feet 6 inches by 10 feet 6 inches.



Measure the distance around the room, which gives the quantity of border required. In this instance it would be four times 10 feet 6 inches, or 42 feet, which is 14 yards of border.

To get the number of strips of carpet, deduct the width of two strips of border, or 45 inches from 10 feet 6 inches, which leaves 6 feet 9 inches, or 81 inches. Dividing by 27 inches (the width of one strip of carpet) gives the number of strips needed.

To get the length of the strips, deduct width of two strips of border, or 4 from length of room, 10 feet 6 inches, which is 6 feet 9 inches. Three strips inches long would be 20 feet 3 inches, or 6¾ yards.

Allowing 1½ yards for matching would make the carpet and border require a room 10 feet 6 inches by 10 feet 6 inches—22¼ yards. The cost of sewing car border is 10 cents a yard extra.

If a certain number of strips of carpet do not fill the width of your room, remaining space to be covered is less than 13 inches wide, you must allow a strip of carpet one-half the length of the room. If more than 13 inches remai covered allow a full length strip of carpet extra

THIS TABLE SHOWS HOW MUCH CARPET YOU NEED

If the size of your room is not given in this list allow enough money for the next larger size. We will cut the carpet with the least possible waste and return whatever balance is due you at the time the shipment is made. The necessary waste for matching has been included in the figures given below. When sending a drawing of any room, front of the house, bay windows or any offset of the room. Wh dering any carpet always state whether you want the strips of to run the long or short way of the room. When not mention will cut it so as to run the strips the long way.

Carpet and Linoleum Samples.

We illustrate in their actual colors and describe fully the various kinds of carpet and linoleum we furnish. You can safely order direct from the pages of this catalog without seeing the actual samples, as we guarantee to satisfy you in every way. But if you prefer to see samples just write a postal card or letter and say, "Send me a sample showing the quality of No. ——," giving the catalog number of the carpet or linoleum you wish to see, and we will immediately send the sample, postage paid.

We do not sample Hemp or Rag Carpets, Mattings of any kind, or Rugs. Our descriptions and illustrations enable you to order these satisfactorily without samples, and we guarantee absolute satisfaction or your money back. You can save time by selecting and ordering your carpet direct from the color pages of this Big Catalog.

Sizing of Carpet Rugs.

When ordering a carpet and border to be made up as a rug we will apply special sizing at a charge of 5 cents per yard extra.

ADVANTAGES OF SIZING. We strongly advise having us apply sizing to your made to order rug, as it will lie flat on the floor and not curl up after this sizing has been applied. The sizing we use consists of a high grade glue which has no odor to it. Be sure to state in your order if you wish this work done.

Special Size Rugs.

All rugs shown in this catalog are furnished only in the sizes quoted. If you want a special size rug, we will make up to your order rugs in any size and style from any of our carpets with borders to match, shown on pages 1146 and 1147. Also neat special rugs and hall runners can be made from any of our hall and stair carpets, excepting the granite and ingrain numbers on page 1145 by splitting the stair carpet lengthwise through the center and using it as a border. By selecting from our line of stair and hall carpets you can have your hall, stair and room carpets or rugs all the same pattern. When ordering a special size rug be sure to send a complete diagram of the room, clearly showing all measurements, as fully explained above on this page. Also be sure to state which way you want the strips of carpet to run.

Linoleum.

When buying printed or inlaid linoleum, read carefully the "Caution Paragraph" on page 1151.

Printed linoleums are made in different weights and qualities and the pattern is printed on the surface as on a floor oilcloth. They will give unusually long service according to quality, but the pattern is liable to wear off before the goods are worn out. To retain the pattern on floor oilcloth and printed linoleums, we suggest applying a quick drying varnish once or twice a year.

Inlaid linoleums represent one of the longest wearing and best work saving floor coverings known, many preferring it to hardwood floors. The pattern in all inlaid linoleums goes through to the back and will not wear off. After being properly and carefully laid, all instructions in our "Caution Paragraph" on page 1151 being followed, an inlaid linoleum should give many years of perfect wear and service.

Please bear in mind that we do not cut linoleums or floor oilcloths to match any diagram to fit a room. We will ship required number of yards in one or more straight pieces, you to cut and match as necessary.

Mitered Mats or Rugs.

When ordering carpet and border the always ends of the border left, which sew up into a mat or small rug at $1.00 extra. These mats when made up thi look very pretty and can be used to go vantage in bedrooms and odd corners. have a bordered carpet or rug and yo us to make up the ends of the border nice mat, state so in your order, s $1.00 extra for each mat, and we will m a pretty mat that is bound to pleas They are worth a great deal more tha price.

How to Take Care of Ru

Do not sweep any rug very hard a Use a medium weight smooth broom or sweeper and, especially on Axminster ru ways sweep the way the nap runs, not a it. All pile fabrics, such as Velvet, Axm or Wilton, are sheared when finished mill, consequently some fuzz or loos will sweep off for some time. This is ural condition, not a defect, and this loo or wool that comes off does not inju wearing qualities of the rug in any wa rugs should be used for at least two before the first sweeping. This will set pile and materially help the wear. B rugs are liable to show loose threads surface. Should any threads become loo work up, cut them, do not pull them ou

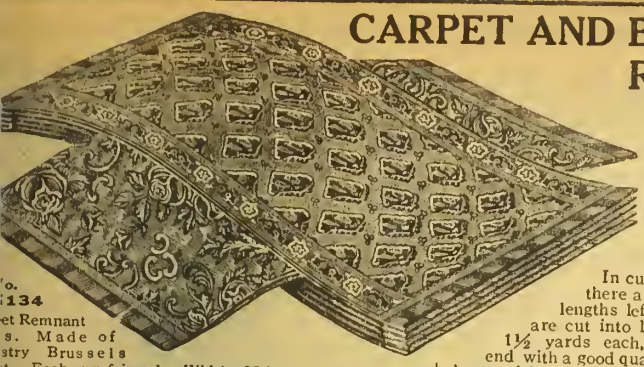
CARPET AND BORDER REMNANT RUGS



'o.
134
et Remnant
s. Made of
stry Brussels
t. Each rug fringed. Width, 27 inches. Length, not than 1¼ yards. Also some Velvet and Brussels bor- 22½ inches wide by 1¼ yards long. Shipping weight, about 2¾ pounds.
ce, each.....$1.30

In cutting carpets there are many short lengths left. These pieces are cut into lengths from 1⅛ to 1½ yards each, and finished at each end with a good quality of wool rug fringe with harmonizing colors. These rugs are made up from the 27-inch width carpets and range from our lowest priced Tapestry Brussels to our best grades of Velvet and Axminster fabrics. As these rugs are made from remnants, they afford unusual values at a very low price.

No. 37N154

Carpet Remnant Rugs. Made of well woven velvet, Axminster or high grade Brussels carpet and border. Neat, attractive rugs handy for any one of a dozen nooks and corners about the house. Each rug fringed. Width, 27 inches. Length, from 1⅛ to 1½ yards. Shipping weight, each, about 3 pounds. Price, each.....$1.65

No. 37N1 Regulation Linoleum Brads, used for tacking linoleum to the floor. Sold only in 1-pound. packages.
Price, per pound....20c

Linoleum Cement.

Linoleum and oilcloth, if cemented to the floor at the seams, will give much better service and wear. Water and dirt are prevented from getting underneath and the back is protected from decay. On wood floors it should be applied 6 inches back on each side of the seams. On concrete floors it is necessary to cement the entire surface. One quart will cement about 10 yards of seams or 4½ square yards of surface where the entire surface is cemented.

No. 37N12 Linoleum Cement, 1-pint can. Shipping weight, about 1 pound. Price.....38c
No. 37N13 Linoleum Cement, 1-quart can. Shipping weight, about 2 pounds. Price.....60c

Cotton Carpet Binding.

Price, per yard..$ 0.07
Per bale, 200 yds..10.00

Seroco Linoleum and Floor Oilcloth Varnish.

This material puts a hard coating on the linoleum but remains elastic like the linoleum or oilcloth itself, therefore it will not crack or check. The most objectionable feature of linoleum is the unevenness of wear, causing the color to become dull and the pattern to be lost, leaving a decidedly spotted effect. By using Seroco Linoleum Varnish the linoleum or oilcoth will retain all its original brightness and luster. Hot or cold water does not affect it. One coat will do the work; applied in the evening it will be dry in the morning. One quart will cover a square 12x15 feet.

Lace Curtains

The lace curtains offered on this and the following pages are mostly designs made for us by the leading lace mills of America and Europe. We offer them to you with the guarantee that whether you buy the lowest priced or the most expensive, you will get real value for your money. Our enormous output enables us to secure the highest standard goods at low prices and offer them direct to you. You can safely make your selection direct from these pages and send us your order, as our absolute guarantee of complete satisfaction or money back protects you fully. You'll find order blanks—for your convenience—in the back of this catalog.

No. 24N4036 White.
No. 24N4037 Beige.
Price, Each 75c

This Nottingham Curtain has the appearance of a beautifully draped pair of curtains, but is in reality only one curtain specially woven to give this effect. **Be sure to give catalog number of color wanted.** Size, about 56 inches wide by 2½ yards long. Shipping weight, about 1⅛ pounds.

No. 24N4020 White Only.
Price, Pair 69c

special value for those who want curtains at a price. A substantial quality of Nottingham net will give good service. Size, about 31 inches by 2½ yards long. Shipping weight, about pounds.

About Sizes.

The curtains listed on these pages may vary from 1 to 2 inches from the sizes given. They are all woven and come off the machine in the exact sizes we list, but due to the finishing process which they go through they will either shrink or stretch slightly. In ordering your curtains, it is best to bear this in mind.

No. 24N4016 White Only.
Price, Each 60c

A larger and better Lambrequin than No. 24N4006. Made of a very good quality of Nottingham lace in a beautiful design. Drapes of this character will add a finished look to your windows. Size, about 58 inches wide by 48 inches long. Shipping weight, about 9 ounces.

No. 24N4006 White Only.
Price, Each 45c

Nottingham Lace Lambrequin. A new and pleasing design. Size, about 48 inches wide by 48 inches long. Shipping weight, about 8 ounces.

About Colors.

The colors in which lace curtains and curtain materials are made sometimes confuse one, unless the relation between the different shades of color is understood. Going from light to dark, ivory is the first shade darker than white. Cream is slightly darker than ivory. Ecru comes next, having a slightly yellowish cast. Beige, a soft, warm shade of light tan, is a deeper color than ecru. Arabian is that dull, dark tan color.

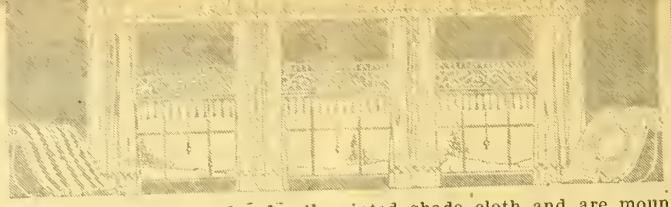
Special Size Made to Order Window Shades

NOTICE!

Be sure to mention size and color wanted



NOTICE!

It requires about five days to have specia size shades made to orde

These shades are made to order from high quality handmade oil painted shade cloth and are mounted on guaranteed Hartshorn sha rollers. It usually requires about five days to have special size shades made to order. We require the full amount of cash with the order every instance. Be sure to give the right width and length, and specify whether the width is for the length of roller from tip to tip or for t width of cloth. **Don't fail to give size and color wanted.** See below, "How to Measure for Made to Order Window Shades."

COLORS—Special size shades are made in the following colors: Dark green, dark olive green, terra cotta, slate, pea green, white buff. Shade cloth 48 inches and wider is made of heavier fabric and will not always exactly match colors of smaller shades.

In the price list below, "width in inches" is the width of cloth. If the exact size you wish is not given in the following schedule the n larger size will be charged, but the shade will be made the exact size you order. Slats and brackets are included. **Be sure to state width a length desired and allow the correct amount.**

How to Measure for Made to Order Window Shade

Outside Bracket Measure.

When shades are to be hung on the surface of the window casing shown from A to B, give in inches the measurement for the width the shade cloth, taken from point to point designated on the draw and specify outside bracket measure.

Inside Bracket Measure.

When shades are to be hung between the jambs of the window fra as shown from C to D, give in inches the exact distance between jambs of each window and specify inside bracket measure.

In giving measurements for the LENGTH OF SHADES, give height (in feet) of each window, and always add 6 inches for hem one turn around roller. When your order does not state how measu ments are taken, the cloth will be cut the measurements given and side brackets will be sent. Measurements should always be taken accurately, even to a sixteenth of an inch.

Lux-or Cambric Shades Combine Satisfaction With Economy

We Recommend Lux-Or Cambric to Be Especially Adapted for Schools and Offices Where Shades Are Apt to Have Very Hard Usage

The fabric from which this cloth is made is prepared and painted in such a manner that the shades will not crack or wrinkle, and they are positively sun-proof. These shades are all mounted on guaranteed Hartshorn rollers and are made in the following soft tint colors: Ivy green, ecru, moss green or cream-white. If the exact size you want is not given in the following list, the next larger size will be charged, but the shades will be made the exact size you order. **Be sure to state size and color wanted.**

China, Glass and Lamps

ABOUT THE QUALITY

The general manager of one of the largest potteries in America said to our china buyer: "If your customers could only be brought to realize the quality of your dinnerware and glassware, and how cheaply you are selling it, they would never buy from anyone else."

If you will bear the three following facts in mind when you read this catalog you will get a better idea of the quality of our china. **First**—The dinnerware listed on these pages is made of the best quality of American semi-porcelain. **Second**—We have spared no expense to obtain the richest and most attractive decorations. **Third**—You take no risk in buying from us, because we guarantee that every article purchased from us will satisfy you perfectly. If for any reason any article does not please you, you are at liberty to send it back to us and we will at once return your money.

STUDY OUR PRICES

And you will find that in spite of the recent advances in manufacturing costs our prices on every piece of dinnerware or glassware on these pages are low and show a big saving.

OUR GUARANTEE

We Absolutely Guarantee every piece of dinnerware, glassware and crockery listed in this catalog.

We guarantee every piece to be first quality. We handle only the most carefully selected goods of the best potteries and manufacturers.

We guarantee every piece to be exactly as described in this catalog in every respect.

We guarantee to replace, without extra charge, any piece that may prove defective in material or workmanship.

We guarantee safe delivery and will replace, without extra charge, all pieces broken or damaged in transit.

We guarantee to return your money if you are not entirely satisfied, together with any transportation charges you may have paid.

List of Pieces in Our American Dinnerware Sets.

We offer to our customers this fine quality American semi-porcelain (semi-vitreous china), by the most famous potteries in America, including the Homer Laughlin China Co.

FOR 5 CENTS each we send, postpaid, an individual butter plate of any American dinner set, which will show you the quality of the ware and the beauty of the decoration.

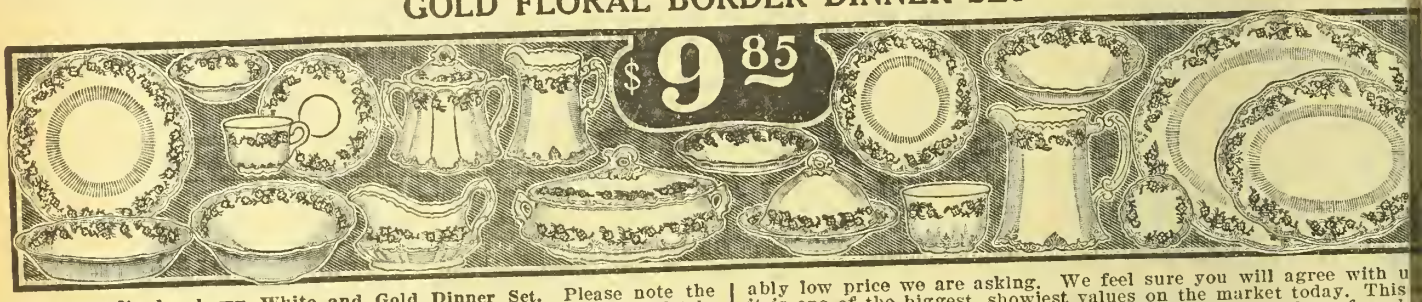
SIX BEAUTIFUL DINNERWARE PATTERI

The six dinnerware patterns shown on this and the opposite page (pages 1196 and 1197) are most astonishing values. These dinner sets are real bargains, which you should take advantage of, as our prices mean a big saving to you. The varlety of decoration on these six sets makes it possible for everyone to find a pattern that will appeal to each individual taste, and at prices that are remarkably low.

There are three white and gold patterns: (1) A showy gold border; (2) a wide bright gold band, and (3) a rich gold lace b with gold edge. **There are three decorated patterns:** (1) A bea pink sweetbriar spray with gold edge; (2) a dainty large pink moss cluster in combination with a gold line and gold edge, and (3) a some pink trailing rose and maidenhair fern border with gold edge.

GOLD FLORAL BORDER DINNER SET



An exceedingly showy White and Gold Dinner Set. Please note the elaborate floral design of the gold border. Each piece is completely decorated with this wide gold border which is composed of floral sprays and their leaves in bright gold. Think how rich this gold will appear and how prettily it will decorate your table, and then look at the remarkably low price we are asking. We feel sure you will agree with u it is one of the biggest, showiest values on the market today. This made of pure white semi-porcelain aud around the edge of each just outside the gold border is a pretty fancy embossing which a its attractiveness.

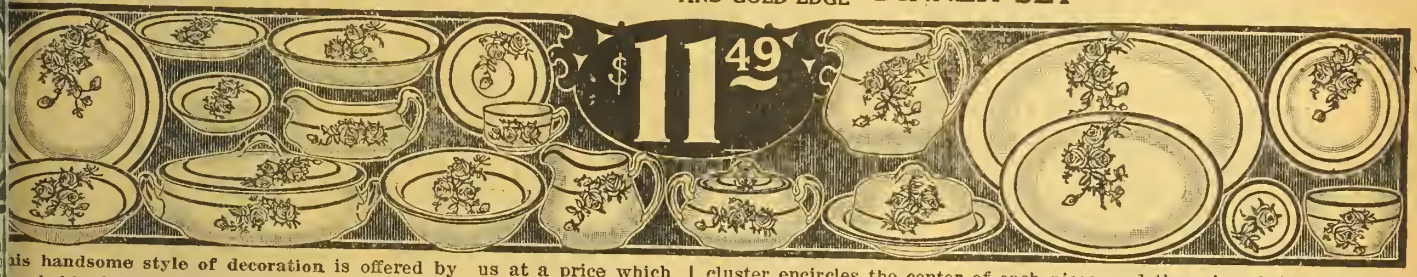
PINK MOSS ROSE WITH GOLD BAND AND GOLD EDGE DINNER SET



ais handsome style of decoration is offered by us at a price which narkably low. The decoration consists of large beautifully colored rs of pink Moss roses and rosehuds with their delicate green and un colored foliage. A narrow gold band extending out of this rose cluster encircles the center of each piece, and there is a bright gold band of medium width on the edge of every piece. The handles are ornamented with gold tracing. This fine decoration and dainty gold treatment upon a new high grade plain edge shape of pure white semi-porcelain combines to make this a dinnerware pattern of exceptional beauty.

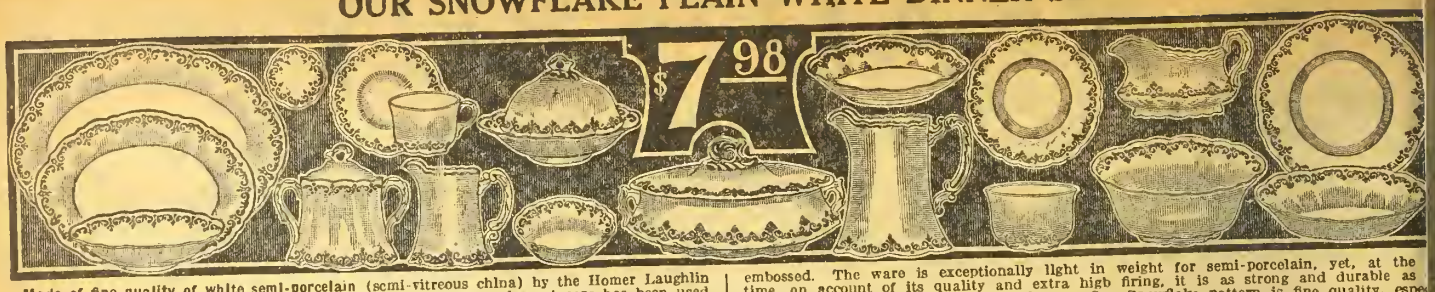
OUR SNOWFLAKE PLAIN WHITE DINNER SET



Made of fine quality of white semi-porcelain (semi-vitreous china) by the Homer Laughlin China Co. The ware is pure white in color with a glossy glaze, and great care has been used in selection. We cannot recommend too strongly our Snowflake dinnerware. It is the equal of English semi-porcelain. Every piece is carefully modeled and is richly and daintily embossed. The ware is exceptionally light in weight for semi-porcelain, yet, at the time, on account of its quality and extra high firing, it is as strong and durable as nary semi-porcelain of twice its thickness. Our Snowflake pattern is fine quality, espe attractive white semi-porcelain dinnerware.

No. 35N226 Snowflake Plain White Dinnerware. For list of pieces in the complete sets see page 1195. Complete sets and open stock of this pattern are shipped from our CHICAGO

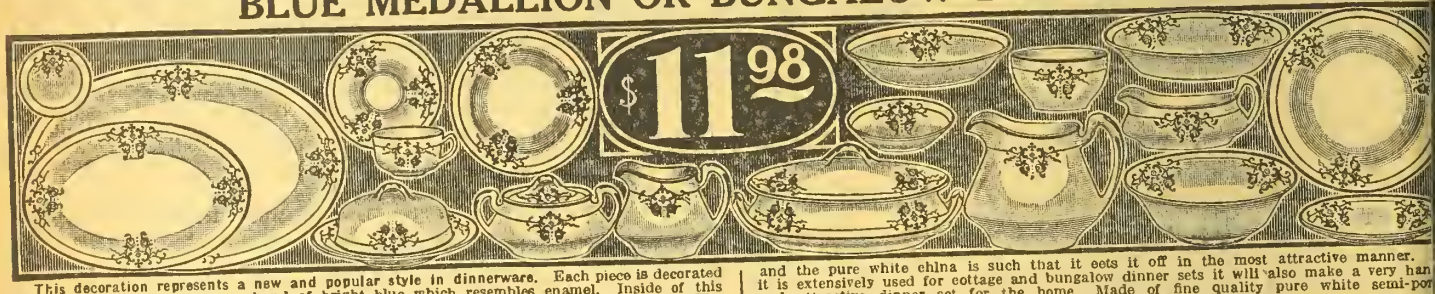
BLUE MEDALLION OR BUNGALOW DINNER SET



This decoration represents a new and popular style in dinnerware. Each piece is decorated around the edge with a narrow band of bright blue which resembles enamel. Inside of this narrow blue band are fancy blue medallions connected with a fine blue hairline. The handles are decorated with blue tracings. The contrast between the dainty blue decoration and the pure white china is such that it sets it off in the most attractive manner. it is extensively used for cottage and bungalow dinner sets it will also make a very han and attractive dinner set for the home. Made of fine quality pure white semi-por by the Homer Laughlin China Co. in their plain edge Empress shape.

No. 35N338 Blue Conventional Dinnerware. For list of pieces in the complete sets see page 1195. The complete sets and open stock of this pattern are shipped from our CHICAGO

WHITE AND GOLD — BRIGHT GOLD BAND AND GOLD LINE AND GOLD COVERED HANDLES — DINNER SET

A most pleasing and dainty white and gold decoration consisting of a gold band and a hairline, with handles heavily covered with gold. The gold band and the gold hairline separated and put on in such proportion as to eliminate the heavy appearance so often seen in many wide gold band dinner sets. This daintiness is obtained by putting the gold band on the edge and the gold line on the shoulder of each piece. There is also a gold hairline on the inside of each cup. It is unusual in sets of this price to have all the handles covered with gold. Made of pure white semi-porcelain by the Homer Laughlin China Co. in their Empress plain edge shape.

No. 35N332 White and Gold Dinnerware. For list of pieces in the complete sets see page 1195. The complete sets and open stock of this pattern are shipped from our CHICAGO store.

VIOLET SPRAY GOLD TRIMMED DINNER SET

e decoration consists of sprays of wild violets with green leaves on a delicately colored ound which sets off the decoration. The edge of every piece is trimmed with a narrow of bright gold and the handles are prettily traced with gold. Around the edge of the ces and the center of the hollow pieces there is a fancy embossed design. If you are tired of the usual pink flower decoration and want something different we recommend this pattern. Its dainty design and delicate coloring make it a most pleasing and attractively decorated dinnerware. Made of fine quality pure white semi-porcelain by the Homer Laughlin China Co., in their new Republic shape.

GOLD LACE BORDER OVER COBALT BLUE EDGE DINNER SET

e is a dinner set copied from a fine English pattern which we are offering you at low price. It is made of fine quality of American semi-porcelain in a famous sbapo of extra large capacity with ornamental embossed edge and fancy handles. coration consists of a wide border of rich cobalt blue, dark on the outer edge, shading harmoniously into the white, overlaid with an elaborate and showy gold lace border. The effect of this pattern is very rich and pleasing and the combination of a deep cobalt blue edge with a bright rich gold lace border shows up to splendid advantage on the table against the snowy white tablecloth. This set cannot fail to be greatly admired.

PINK ROSE AND DAISY BORDER DOUBLE GOLD TRIMMED DINNER SET

An exceptionally dainty and pleasing high grade border pattern. The decoration consists of a border of small pink roses alternating with delicate yellow daisies which are connected together by green leaves and stems on a soft toned lattice work background. Around the outside edge of this border is a bright gold band and on the inside edge of the border there is a bright gold hairline. This double gold treatment sets off the decoration most ple The handles are full gold traced. Made of fine quality pure white semi-porcelain Homer Laughlin China Co., in their plain edge Empress shape. For those who wan that combines refinement and beauty of decoration we recommend this pattern.

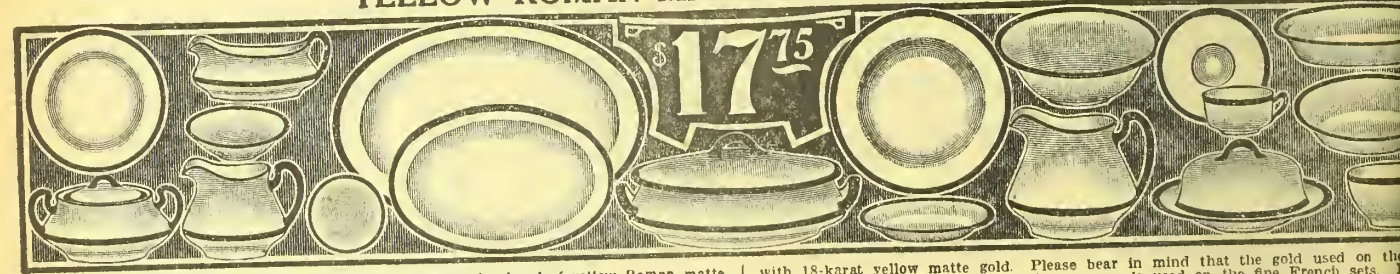
YELLOW ROMAN MATTE GOLD DINNER SET



The decoration which is very rich in appearance consists of a band of yellow Roman matte gold (guaranteed to be 16-karat) around the edge of each piece. In addition to this matte gold band on the edge, the covered dish, sugar bowl, creamer, pitcher and sauce boat have a gold band around the center. The handles of these pieces and of the cups are heavily covered with 18-karat yellow matte gold. Please bear in mind that the gold used on these strictly first quality genuine gold, the same as is used on the fine French sets. Ea is stamped "Warranted 18-karat gold." Made of fine quality semi-porcelain by th Laughlin China Co. in a beautiful plain edge shape. A high grade dinner pattern

WHITE AND GOLD BRIGHT GOLD BAND EDGE WITH GOLD TRACED BORDER DINNER SET

Dainty gold decorated dinnerware. The decoration consists of a dainty gold tracery outg the fancy embossed design around the edge of each piece and around the center of the er, covered dishes, sugar bowl, cream pitcher and sauce boat. There is also a gold band nd the edge of each piece. In addition to the dainty gold tracing on the handles, the handles on the covers of the sugar bowl, butter dish and covered dishes are traced with gold in ribbon bowknot design, which adds greatly to their daintiness. The shape is a new fancy shape recently on the market and is becoming more popular every day. It is made by the Homer Laughlin China Co. of strictly first quality pure white semi-porcelain.

UNDER GLAZE BLUE WILLOW PATTERN DINNER SET

splendid reproduction of the famous Blue Willow pattern in a rich blue color executed the glaze. The design on this set is supposed to tell the old, yet always popular legend e "Weeping Willow." Made of high grade semi-vitreous porcelain in genuine Old sh shapes. The fact that this pattern is put on under the glaze insures permanency. It will never wear off. The Blue Willow pattern is probably the most famous design ever used on dinnerware and there is something restful to the eye in it. The Blue Willow pattern is ideal for a breakfast, luncheon or dinner set.

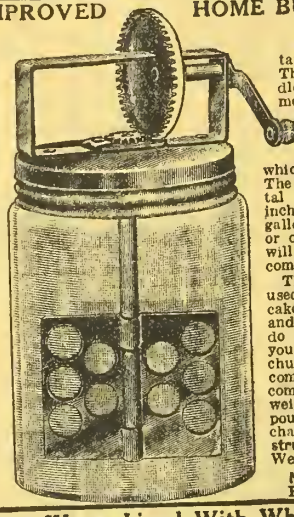
OUR IMPROVED HOME BUTTER MAKER.

Sanitary, Simple. Practical, Durable.

Economical Home Butter Maker fitted with two special features, namely, a Screw Metal Top and a Heavy Steel Supporting Handle. These features have two advantages. (1) The metal screw top prevents the milk or cream from splashing or working out of the churn and makes it unnecessary to hold the top on when churning. (2) The heavy steel supporting handle on the cover enables you to hold the churn steady on the table with your left hand while churning with the right hand.

These two features make this a most practical and satisfactory churn.

Illustration Shows How the Churn Is Operated.



Simple, economical, sanitary and very easy running. The cover, wheel, stem, handle, paddle, in fact all of the metal working parts are made of steel, nickel plated. The handle is fitted with a wooden grip which makes churning easy. The jar is made of heavy crystal flint glass measuring 6x8 inches with a capacity of one gallon. There are no wooden or other insanitary parts which will absorb the butter and become rancid.

This machine can also be used as an ice cream freezer, cake or batter mixer, cream and egg beater. Even if you do not make your own butter you should have one of these churns in your home, for it will combine 1 pound of common commercial butter with an equal weight of milk and make 2 pounds of fresh, healthful milk charged table butter. Full instructions accompany each churn. Weight, packed, 10 pounds.

No. 35N529 Price **$1.98**

MALLEABLE, THE UNBREAKABLE IRON—LASTS A LIFETIME.

Known the World Over for Its Durability and Lasting Qualities.

Every opening in the body is surrounded by a malleable iron frame, which is carefully and securely hand riveted and bolted to the body, making the seams airtight. No heat escapes, no cold air enters. The general construction is very strong and substantial.

U-SO-NA Rust-Resisting Iron Body.

THE BODY IS THE LIFE OF A RANGE. Realizing the advantages of using a practical, rust-resisting iron plate for building range bodies, instead of the common sheet steel, we use an iron plate that resists rust better than any sheet steel known. This iron is known as **U-SO-NA IRON**, our own brand. Every practical test has proved **U-SO-NA** RUST-RESISTING IRON to be much superior to sheet steel and better than charcoal iron.

BIG BAKING AND ROASTING OVEN is guaranteed to do fine work, quickly and without waste of fuel. Made of extra heavy material, hand riveted to a malleable angle iron frame, making it airtight and clean. Has strong oven rack which can be placed at two different heights. Rack is held level when partly drawn out. Arched oven top prevents dead heat corners.

OVEN DOOR has two malleable iron supports; should the door drop down with great force it will not break. Opens level with oven bottom, which makes it possible to draw out and turn a roast without having to lift it. It is strong enough to hold the weight of a man.

FIRE BOX CONSTRUCTION is unusually heavy to withstand the hardest usage and do the greatest amount of work with a small amount of fuel. Length for wood, 25 inches. Be sure to read complete description of fire boxes on page 1233. **Coal cannot be burned in the wood burning fire box.** When ordered for burning wood only, the coal feed door is omitted, as wood is fed through fire door at left of oven.

NICKEL PLATED PARTS have an extra heavy coating of nickel plate, polished and buffed to an elegant bright luster. Plain and neat and easy to keep clean and bright.

GROUND POLISHED MALLEABLE IRON COOKING T

Requires no blackening. Can be cleaned with a cloth. Will w the most intense heat and sudden cold without cracking. C broken with a sledge hammer. Has four solid lids, one three-rin small utensils and one Anti-Scorch lid for slow cooking. Height ing top, 34 inches.

ANTI-SCORCH LID. Cooks, without stirring, oatmeal, rice, c all kinds, boils milk, makes frostings for cakes or anything th easily, right over the fire, in an ordinary saucepan, without scor

LIFT COOKING TOP. The first section of top can be lifted an at different heights, giving free use of hands to spread fuel evenly fire, broil meat or toast bread directly over live coals without smok

SPRINGFIELD, MASS. NEWARK, OHIO

(When shipped from CHICAGO, range cannot be shipped from our store with other goods.)

Cook, Bake, Roast, With Coal, Wood o

Satisfaction Guara

FOR SUMMER OR WINTER. Here is a range that is just as serviceable and just as handy in Summer as in Winter; that will not keep you perspiring and uncomfortable in Summer, while it will help heat other rooms in Winter, when the extra warmth is needed. You have two ranges all in one.

THE CONSTRUCTION OF THIS COMBINATION RANGE IS SIMPLE AND PRACTICAL. Nothing to get out of order or give you trouble. Contains all the conveniences of a gas range for everyday use and a coal range to heat your rooms in cold weather, as well as cook or bake. Double convenience and double service at very low cost.

SOLID CAST IRON CONSTRUCTION. We call especial attention to this fact for the reason that cast iron is so much more durable than steel. Moisture from the gas has no effect on cast iron. Will last practically a lifetime.

WHITE PORCELAIN ENAMELED WARMING CLOSET AND SPLASHER BACK. Just as easy to clean as a china dish. Simply wipe with a damp cloth. Will not discolor nor spot from grease spatterings. Sanitary and rustproof. The panels in the wood fire door, oven door and right side bracket are also white porcelain enameled.

THE NICKEL PLATING IS VERY HANDSOME. The entire warming closet is nickel trimmed, and all door handles, gas valves, front gas feed pipe, teapot stands and outside oven shelf are heavily nickel plated. Plain and smooth finish, easy to polish and keep clean. Will not peel, tarnish nor discolor. Our nickel plating is famous for its superior quality.

THE COMBINATION OVEN bakes quickly with any fuel. We guarantee it to do as fine baking or roasting as any oven made.

THERMOMETER tells you at all times exactly how hot the oven is, and you can always have it at just the right heat to insure that the food will come out in perfect condition.

FIRE BOX is fitted with Duplex grate and heavy cast iron linings. Burns any fuel, hard or soft coal, coke, wood or corn cobs. A good substantial fuel saving fire box. Length for wood, 19 inches.

COAL OR WOOD FIRE LIT WITHOUT KINDLING. The fire box has a gas lighter for starting the fire. You just drop a lighted piece of paper on to the grate, turn on the gas, put in your coal or wood, and the fire is started. With this one labor saving arrangement we have done away with the biggest part of the trouble with a coal or wood fire. And yet this is only one of the many features of this wonderful range.

THE MANY EXCELLENT FEATURES in this range re greatest possible service with the least possible trouble to you. that in this combination range everything has been thought o every demand of the housewife. Keeps your kitchen comfortabl in Winter when coal or wood is used, but does not make it hot fortable during the hot Summer months when gas is burned, a you use coal or gas, Winter or Summer, you will find the baki of the oven always satisfactory.

COOKS FOR MANY OR FEW. Here is a range that wi teakettle in a jiffy over one gas burner or, if you have a great dinner to cook for a lot of extra company, it enables you to use and the oven all at once, enough almost for a hotel. It is truly in one, and both are guaranteed to give the kind of satisfactio

YOU CAN COOK WITH BOTH FUELS AT THE SAME bake with either fuel in the same oven. The use of either fu interfere with the other. Saves time, trouble and work. One convenient combination ranges made.

EXTRA LARGE DOUBLE COOKING TOP has four No. 8 or wood, and four lids or grates for gas. Measures 42½x24 natural gas the gas cooking top section has three solid lids, c in two sections for small vessels and one round open grate, a For manufactured gas it has large open grates. Height to 32½ inches.

FIVE GAS COOKING BURNERS. Three standard size double capacity burner and one combination simmer burner for cooking top burners are furnished with each range. Lig trated and described on page 1243. A removable white porcel sanitary drip pan is furnished beneath the gas burners. Burn removed for cleaning. Baking oven is heated with two tube

GAS BROILER in right hand section of warming oven y an excellent feature for broiling and toasting. At convenient in front of you.

L-SHAPE WATER FRONT, to fit in fire box, for heati gallon range boiler, can be furnished at $1.45 extra.

MEASUREMENTS. Cooking top measures 42½ inches lo wide. Combination baking oven measures 18 inches wide, 18 12½ inches high. Takes 7-inch stovepipe. Shipping weig pounds. Blackened and polished, ready to set up and use.

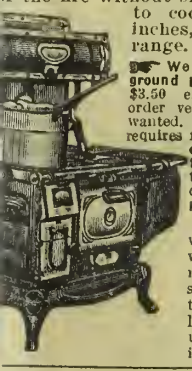
QUALITY IS FIRST AND FOREMOST IN BUILDING THIS CAST IRON RANGE.

For Illustration and Prices See Page 1220, Opposite.

id Cast Iron Construction

her time, material nor se has been spared in g this magnificent cast ange. It is built extra and durable for heavy service. From the ep down to the last, from the largest down smallest detail, every thought has been rth to make a cast iron range which we ntee absolutely to give satisfaction.

KING TOP AND LIDS are of standard y cast iron stove plate, heavily reinforced raced. Made to stand the severest usage. has four solid lids and one three-ring lid nient for different size cooking utensils, nti-Scorch lid for slow cooking. Lift up g top over the fire can be easily lifted and tomatically held at different heights. es the user to spread fuel evenly or broil and toast bread directly over the live f the fire without smoke or odor. Height to cooking top, 31 to 33 inches, according to size of range.



☞ **We can furnish this range with ground polished top,** if wanted, for $3.50 extra. Be sure to mark order very plainly if polished top is wanted. This is special work and requires five days' extra time. **When ordered with polished top, the range will be shipped from NEWARK, OHIO, only, from which city you pay the freight charges.**

TEA SHELF below the warming closet is very convenient; a feature of this range which adds to the strength and usefulness of the warming closet. The largest wash boiler can be used on cooking top, as illustrated.

We Guarantee Safe Delivery and Ship at Once

Only the little bit of freight charges to pay from the city nearest you to your station.
(When the range is shipped from CHICAGO, it cannot be shipped from our store with other goods.)

THE SURE OVEN

Is the Distinguishing Feature of This Solid Cast Iron Range.

Beautifully browned loaves of bread, delicious pastry and juicy roasts are assured with the MAYFLOWER range. The oven has been built in such a manner that the heat is uniform in all parts. You don't have to shift or turn the pans to get fine results. A great amount of work can be done at a time as the oven rack can be placed at two heights and used at the same time as oven bottom.

OVEN THERMOMETER is a great convenience and fuel saver. Shows the heat of the oven without the necessity of opening the door. Makes baking easy and a pleasure. A time and trouble saver.

OVEN DOOR. Heavily nickel plated, smooth and plain, easy to keep clean; opens down level with oven bottom, forming an extension shelf which makes it possible to draw out and baste a roast without having to lift it.

FIRE BOXES are made the right size and construction to do quick cooking and baking without waste of fuel. The grates are strong and heavy. Length of fire box for wood, 20 to 22 inches, according to size of range. Be sure to read complete description on page 1233.

Coal cannot be burned in the wood burning fire box. When ordered for burning wood only, the coal feed door on left end of stove is omitted, as wood is fed through fire door at left of oven.

NICKEL PLATED PARTS have an elegant luster. The plating is of high quality, plain and easy to keep clean, very artistic, beautiful in appearance and unusually durable.

RESERVOIR TANK is white porcelain enameled inside; keeps water pure and heats very quickly. Easily lifted out for cleaning.

Cast Iron Body

With Proper Care Will Last a Lifetime.

OVIDER—Heavy Cast Iron Construction—Built to Last a Lifetime

Made in Five Sizes. Large Enough for the Largest Family—Economical for a Family of Two

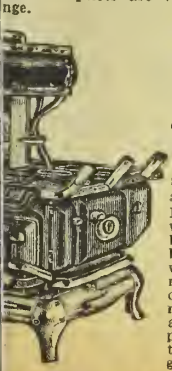
For Illustration and Prices See Page 1219

and Lasting. Smooth and Plain. Real Friend of the Housewife.

piece and part of this PROVIDER nade of high quality tested solid cast ery large and heavy range, every piece a big and thick to stand the hardest sake and last a lifetime. When you range you are protected by our guar- very liberal one, because the range is ive up to the guarantee in every re-

ROVIDER range has been made very plain and ithout any scroll work or ornamentation, with just ckel plated trimmings to set the stove off well, a very handsome range and good enough for the es. The easy to keep clean design makes it the housands of families. One of the most beautiful, d generally satisfactory ranges we have ever sold ow you will agree with us when you set it up tchen and see its many splendid advantages and nderful baking qualities.

only appreciate the real merits of this PROVIDER you have it in your home. This range is an lue in quality of material, finish, workmanship and the prices are very reasonable for such a nge.



Nickel Plated Trimmings Lift Off for Cleaning Without Removing a Bolt or Screw.

Smooth and plain and easy to keep clean. Very artistic, beautiful in appearance and unusually durable. Parts lift off for cleaning without removing a single bolt. Not necessary to get blacking on nickel plate when polishing stove, nor nickel polish on black parts of stove when cleaning nickel plate. Massive base and legs are heavily nickel plated, as shown in illustration, adding much to the general beauty of the range.

We Guarantee Safe Delivery and Ship at Once From One of the Following Cities, the One Nearest You:

Springfield, Mass.	St. Louis, Mo.	Chicago, Ill.	St. Paul, Minn.
Harrisburg, Penn.	Kansas City, Mo.	Davenport, Iowa	Fargo, N. Dak.
Newark, Ohio	Grand Rapids, Mich.	Omaha, Neb.	Sioux Falls, S. Dak.
		Syracuse, N. Y.	

Only the little bit of freight charges to pay from the city nearest you to your station.
(When shipped from CHICAGO, range cannot be shipped from our store with other goods.)

EXTRA LARGE OVEN is a splendid baker. On account of its size, a great amount of baking can be done with little fuel, as oven rack can be used at the same time as oven bottom.

COOKING TOP is extra wide and deep, giving ample room for all the work of the busiest kitchens and largest families. Has six cooking holes; four solid lids, one three-ring lid for small bottom utensils, and one Anti-Scorch lid. Cooking top is made extra heavy, to last practically a lifetime. Height from floor to cooking top, 30½ to 32 inches, according to size of range.

☞ We can furnish this range with ground polished top, if wanted, for $3.50 extra. Be sure to mark order very plainly if polished top is wanted. This is special work and requires five days' extra time. **When ordered with polished top, range will be shipped from NEWARK, OHIO, only, from which city you pay the freight charges.**

FIRE BOX is properly proportioned to do perfect work with a small amount of fuel. Be sure to read complete details of construction on page 1233.

Coal cannot be burned in the wood burning fire box. When ordered for wood only, the coal feed door is omitted and long sticks of wood can be fed through the fire door to the left of the oven. Length for wood, 18 to 23 inches, according to size.

RESERVOIR TANK. White porcelain enameled inside; perfectly sanitary; easy to keep clean and easily lifted out. Holds 13½ to 22 quarts, according to size.

WARMING CLOSET. An ideal arrangement for keeping the food warm and wholesome without drying it out. It is large, made very strong, with handsome nickel plated brackets.

White Porcelain Enameled Splasher. Cleans as Easily as a China Dish.

Extends the full width of warming closet just back of the cooking top. Spattering from frying or cooking, or condensation of steam can be easily wiped off with a damp cloth.

Our enamel is durable and lasting. Sanitary and as easy to clean as a china dish.

PROVIDER Cast Iron Range Without Reservoir.

We ship this style and other styles listed below from our foundry at NEWARK, OHIO, only.

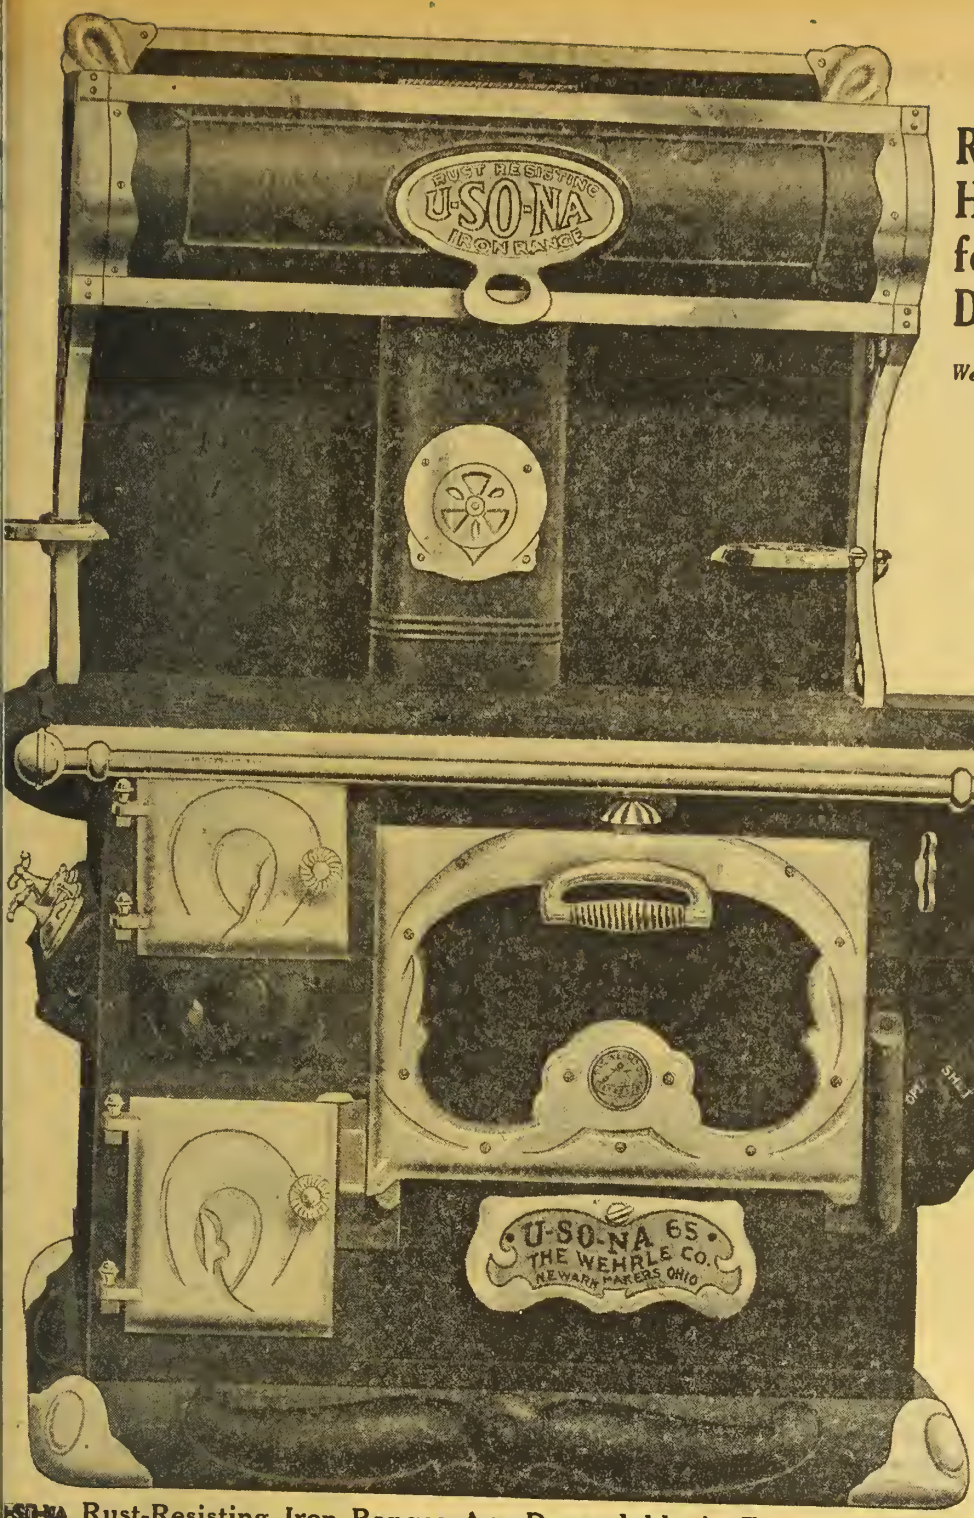
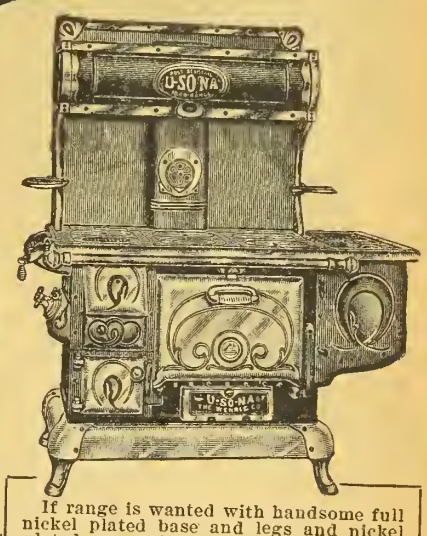
Rust-Resisting Iron Ranges Have Won the Highest Praise for Splendid Work, Quality, Durability and Neat Style

We Guarantee Safe Delivery and Ship at Once From One of the Following Cities, the One Nearest You:

Springfield, Mass.	Chicago, Ill.
Syracuse, N. Y.	St. Louis, Mo.
Harrisburg, Penn.	Kansas City, Mo.
Newark, Ohio	Davenport, Iowa
Richmond, Va.	Waterloo, Iowa
Nashville, Tenn.	St. Paul, Minn.
Grand Rapids, Mich.	Fargo, N. Dak.
Omaha, Neb.	Sioux Falls, S. Dak.

(When shipped from CHICAGO, range cannot be shipped from our store with other goods.)





If range is wanted with handsome full nickel plated base and legs and nickel plated oven door, as shown in this smaller illustration, add $2.00 to the price of any size in table at left, and be sure to state this style is wanted. Height to cooking top on this style, 33 inches.

U-SO-NA Rust-Resisting Iron Ranges Are Dependable in Every Way.

BODY IS THE LIFE OF A RANGE. Realizing the es of using a practical, rust-resisting iron plate for range bodies, instead of the common sheet steel, we use plate that resists rust better than any sheet steel This iron is known as **U-SD-NA IRDN**, our own brand. actical test has proved **U-SD-NA** RUST-RESISTING be much superior to sheet steel and better than char- Every piece snd part is carefully fitted and all joints ght.

NA OVENS ARE ABSDLUTELY DEPENDABLE. l rosst quickly and require little fuel. Bake evenly, top om, on either the rack or oven bottom, or both at the e. **Dven Door** opens down, forming a convenient shelf. can be turned without lifting it.

THERMOMETER is a great convenience. Makes good asier.

VOIR TANK is whito porcelain enameled inside. Easy lean. Water heats quickly.

SIX-LID CDOKING TOP is large and roomy. The parts are msde of first quality cast Iron, heavy and lasting. One three-ring lid for small utensils, and one Anti-Scorch lid for slow cooking are furnished. The first sectlon of top can be raised for broilling or toasting, or to spread the fuel; a convenient feature.

THE BEAUTIFUL NICKEL PLATING is long lasting, easy to keep clean and takes a brilliant polish. Will not rust nor tarnish. Plain and smooth style.

FIRE BOX CONSTRUCTION. Properly proportioned to give the required amount of heat for a great deal of cooking and baking with a small amount of fuel. Be sure to read complete details of description on page 1233.

Coal cannot be burned in the wood burning fire box. When ordered for burning wood only, the coal feed door on left end of range is omitted, as wood is fed through the large end fire door at left of oven. Fire box for wood is 24¾ inches long.

RANGE IS BLACKENED AND POLISHED, all ready to set up and use.

ANTI-SCORCH LID
Furnished with every CONQUEST Cast Iron Range. Cooks without stirring, oatmeal, rice, cereals of all kinds, boils milk, makes frosting for cakes or anything that burns easily, right over the fire in an ordinary saucepan without scorching.

Solid Cast Iron Construction.

All parts of this big heavy range are made of tested cast iron, carefully fitted and strongly bolted Smooth and plain, no fussy ornaments, easy to keep neat and clean. Will last for many years.

COOKING TOP AND LIDS
Are made from good quality cast iron stove plate, to withstand expansion and contraction from heat without warping or breaking. Has six cooking holes; four solid lids, one lid made in three sections, and one Anti-Scorch lid for slow cooking.

GUARANTEED BAKING OVEN
Is large, square and dependable for quick baking. Construction prevents soggy baking. Has a strong wire rack which makes upper half of oven as serviceable as the lower.

OVEN DOOR
Opens level with oven bottom, forming an extension shelf on which to draw out and turn a roast without having to lift it.

OVEN THERMOMETER
Shows the heat in oven without the necessity of opening the door. Makes good baking easy. Saves time and trouble.

WARMING CLOSET
Very convenient for warming plates or keeping cooked food warm until ready to be served. **Long nickel plated rail** is attached to the front of door, convenient for drying towels and cloths.

FIRE BOX CONSTRUCTION.
Right size and weight to do the greatest amount of work with little fuel. Be sure to read complete details of construction on page 1233. **Coal cannot be burned in the wood burning fire box.** When ordered for burning wood only, the coal feed door on left end of range is omitted, as wood is fed through the upper door to the left of oven.

RESERVOIR TANK
Is white porcelain enameled inside. Heats quickly. Keeps water pure and clean.

All sizes take 7-inch pipe.

.45 extra.

Coil for wood only fire box,
tra.

You will like this range. It's built for style, as well as for hard service. The removable nickel plated parts, wonderfully good baking oven, substantial construction, plain and easy to keep clean castings, and, best of all, the low price, all make a strong appeal. You will make no mistake if you buy this range.

Baking oven is popular family size. Bakes wonderfully good, and quickly, too. Has strong rack. Oven measures 16 inches square, 11 inches high.

Cooking top is large. Made good weight to stand steady use. Heats very quickly. You do not need a great big fire to cook on this range. Six No. 8 cooking lids. One lid is made in three rings for small utensils, and one Anti-Scorch lid is furnished for slow cooking.

Reservoir tank is white porcelain enameled inside; easy to clean. Keeps water fresh and pure. Heats quickly. You can always have a good supply of hot water ready for use.

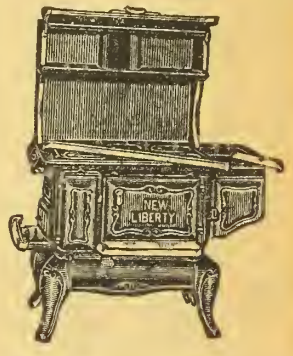
Fire box is the proper size to give best results. You can do lots of work with a little fuel. Coal and wood burning fire box has Duplex grate and iron side linings. Fire box for burning wood only has flat shaking and dumping shutter style grate and iron side linings.

Measurements. Cooking top measures 42x25½ inches, including the reservoir. Height to cooking top, 32 inches. Has six No. 8 lids. Baking oven measures 16 inches square, 11 inches high. Reservoir holds 13½ quarts. Fire box length for wood, 18 inches. Range takes 7-inch pipe. Shipping weight, complete with reservoir and warming closet, about 470 pounds.

We guarantee safe delivery and ship at once from CHICAGO, ILL., or NEWARK, OHIO. When range is shipped from CHICAGO, it cannot be shipped from our store with other goods.

No. 22N340 New Liberty Range, complete with reservoir and warming closet, for burning coal and wood.
Price.....**$39.50**

No. 22N341 New Liberty Range, complete with reservoir and warming closet, for burning wood only.
Price.....**$39.30**



The nickel plated trimmings lift off for cleaning without removing any bolts or screws. Plain, smooth and easy to keep clean. Beautiful in appearance and keep a bright polish. As shown by the illustration, the parts are very easily lifted off. Not necessary to get blacking on the nickel plated parts when blackening and polishing the stove, nor nickel polish on the black parts of the range when you clean the nickel plate.

Warming closet is of handsome design, large and convenient. The lift up door opens forward and does not take up any room within the closet, giving lots of space inside for keeping food warm until ready to serve.

High Oven Cooking, Baking and Laundry Stove

BURNS COAL, COKE, SHORT WOOD OR COBS.

We guarantee that you will be well pleased with the work this stove does. It takes up little space, yet is large enough to do all the cooking and baking for a good size family and in addition will keep your kitchen or laundry well heated in the coldest weather. Easily regulated to hold fire over night.

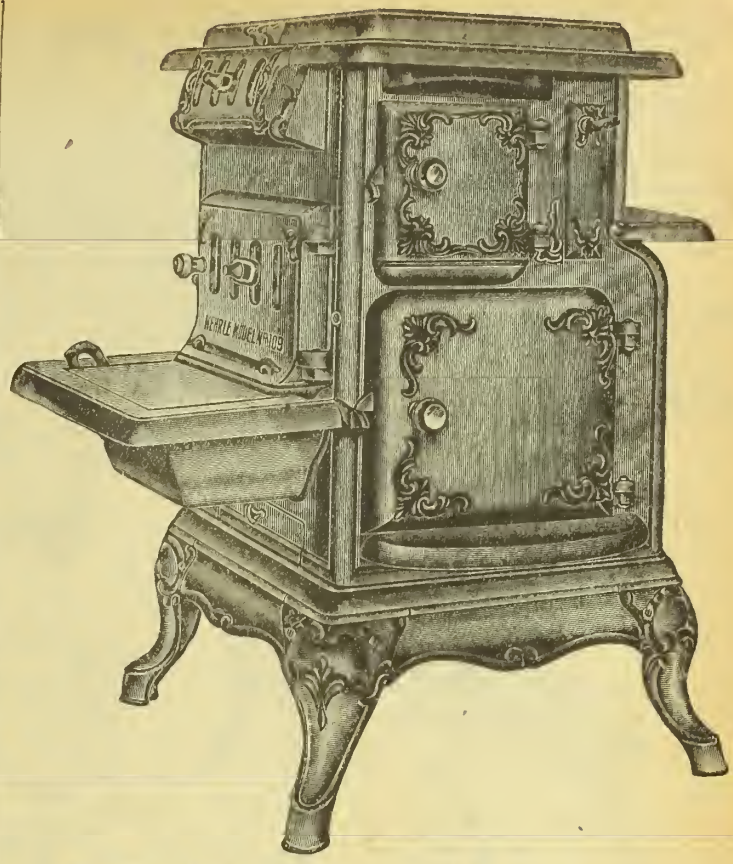
Baking Oven is at a convenient height, right in front of you. No stooping or leaning over. We guarantee this oven to bake as well as any cook stove or range oven. Measures 16 inches wide, 16 inches deep, 11 inches high. When not used for baking, the oven can be used to warm food or dishes or to keep cooked foods warm until the meal is all ready.

The stove section is made entirely of cast iron, strong and serviceable. The oven section is made of steel. Cooking top measures 21x 21½ inches, large enough to heat a wash boiler and sadirons and cook at the same time. Has four No. 8 lids and removable center pieces. Has easy working shaking and dumping style grate.

Height to cooking top, 22 inches. Total height, 38 inches. Height from stove top to oven bottom, 17¾ inches. Diameter of fire pot at top, 12 inches. Takes 6-inch pipe. Shipping weight, about 188 pounds.

We guarantee safe delivery and ship at once from CHICAGO, ILL., or NEWARK, OHIO. When shipped from CHICAGO, stove cannot be shipped from our store with other goods.

No. 22N601 Price for Stove with Oven, as illustrated..... **$15.65**



Parlor Heater With Baking Oven

Heat, Bake and Cook at the Same Time With the Same Fire.

We recommend this Cast Iron Parlor Heater and Cooker with Oven to those who want to do light housekeeping and care for but one fire and who must consider economy of space as well as saving in fuel for cooking and heating. It is especially desirable for Summer cottages. Bakes and cooks very satisfactorily.

Cooking top has two cooking lids and removable center, permitting the use of two cooking utensils or a wash boiler. This stove does the work of cook stove, heater and laundry stove.

Oven is of good size and does very satisfactory baking and roasting. Has two oven doors.

Fire box has heavy cast iron linings, with shaking and dumping grates for burning hard or soft coal, corn cobs or wood. Will hold fire over night.

Ash pan has wire carrying handle. Stove takes 6-inch stovepipe.

Blackened and polished ready to set up and use. We guarantee safe delivery and ship at once from CHICAGO, ILL., SPRINGFIELD, MASS., SYRACUSE, N. Y., or NEWARK, OHIO. (When stove is shipped from CHICAGO, it cannot be shipped from our store with other goods.)

SCRIPTION AND ILLUSTRATIONS OF E FIRE BOXES IN OUR RANGES

ake sure that we furnish a range with the right kind of fire box uel to be used, we here illustrate and describe the different fire box tions of our ranges. Fire boxes are made in three styles, for soft wood, for hard coal, and for wood only. If you intend to burn d (anthracite) and soft coal, order your stove for burning soft this fire box is made entirely of cast iron. The hard coal fire box has firebrick linings, the best kind for hard coal only, but not suitable for soft coal, as soft coal will burn on to the bricks and cause them to chip and crack. For liguite coal the soft coal fire box should be ordered. Remember, coal will not burn in the fire box for wood only. **Be sure to state what fuel you burn.**

Fire Box for Soft Coal and Wood.

We use heavy corrugated cast iron linings for soft coal. They are made to prevent warping and allow circulation of air behind them, which adds to their durability.

DUPLEX GRATE is a combination grate made to burn either soft coal or wood. A turn of the shaker cuts out all the dead ashes and clinkers, dropping them into the osh pan. **A half turn arranges the grate for burning wood or corn cobs,** as illustrated to the right.

for Hard (Anthracite) Coal.

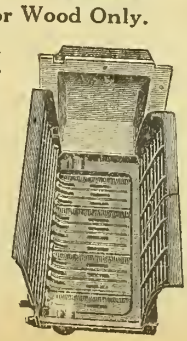
Is lined with firebrick and has Dockash grate, the most practical construction for this fuel. Will hold fire all night.

DOCKASH GRATE clears the fire of ashes by a half turn of the shaker. The two grate bars make a complete revolution, so both sides of the grate are used, adding greatly to the life of the grate.

For burning wood, a complete extra set of grates can be furnished. When so wanted, order your stove for hard (anthracite) coal and wood as shown in price tables.

Fire Box for Wood Only.

Is large and roomy, has heavy linings and our improved grate. The back extension is made of heavy cast iron securely bolted to the end of the fire box, and permits extra long sticks of wood to be fed to the fire through the door to the left of oven. **On the stoves for burning wood only there is no coal feed or broiler door, as none is needed. Coal cannot be burned in the wood burning fire box.**



HOT WATER FRONTS

For Use in Stoves Made by Us ONLY.

To connect with hot water tank or range boiler for running water systems, as shown in illustration. Can be easily fitted in the fire box **at any time.** For price of range boiler see page 1604. Water front and hot water tank or range boiler are used only where there is a water supply having constant pressure through pipes, which can be obtained only in towns or cities having waterworks or where you have an elevated water supply tank or a pneumatic pressure system.

Will be fitted in range unless otherwise ordered. When water front is fitted in range, the front grate is not furnished unless asked for in order.

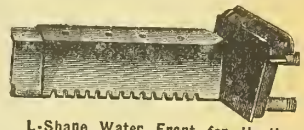
The water front must be connected to boiler before fire is started in stove.

Our water fronts are tested under pressure of 250 pounds.

When ordered with water front we ship range from NEWARK, OHIO, only.

Straight Water Front for Heating 30-Gallon Tank. Can be used in either hard or soft coal fire box.

No. 22N9 Price.....**$3.85**



L-Shape Water Front for Heating 40 to 52-Gallon Tank. Cannot be used in a range for burning wood only. When L-shape water front is used, the fire box for wood is same length as for coal.

No. 22N8 Price.....**$4.95**

Pipe Coil Water Front. Used in fire box for burning wood only. Cannot be fitted in No. 90 or Honest Value Ranges. For these ranges we furnish Straight Water Front No. 22N9 only.

No. 22N10 Price.....**$3.85**

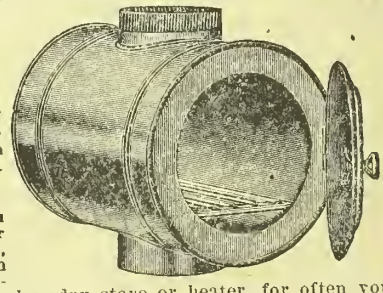
Steel Drum Oven for Laundry Stoves.

Shipped From One of the Cities Named at Top of This Page, the One Nearest You.



Furnished with one joint of pipe, 17 inches long, to connect oven with stove, as illustrated above.

Even though you have a cook stove or range in your kitchen, you will find a Drum Oven almost indispensable attached to your laundry stove or heater, for often you will find it convenient on washday to get a quick luncheon or dinner on the laundry stove in connection with the Drum Oven or, in the evening, a quick supper can be conveniently prepared on one of our heating stoves in combination with this oven. It is a wonderfully quick baker, saves the waste heat passing up the pipe; especially efficient when used in connection with a laundry or heating stove. A practical and satisfactory arrangement.

The entire body is substantially constructed of steel. Is fitted with removable wire rack. Oven measures 9 inches wide and 17¾ inches long inside; will easily accommodate two 8-inch pie plates or an 8x17-inch baking or roasting pan. It is so constructed to get a complete and perfect circulation of heat that the oven will heat evenly and thoroughly, making it a first class baker. We especially recommend that in ordering a laundry stove, or a small heating stove, you order one of our Steel Drum Ovens.

Pipe collar on top and bottom to fit 6-inch pipe. Shipping wt., 21 lbs.

No. 22N604

$2.98

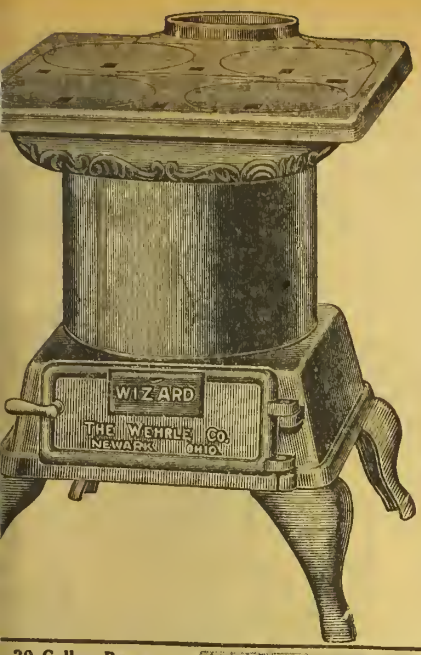
IMPORTANT! Be Sure to Read the Handy Post Cards Following P

Combination Tank Heater, Laundry and Cook Stove
Hot Water Day and Night
Powerful and Economical—Burns Any Kind of Fuel.



Can be used in kitchen or basement in connection with hot water tank or range boiler. Fire pot through which water circulates is made hollow. This construction allows the live coals to come in direct contact with the entire inner surface and heats the water very quickly. **Capacity, 30 gallons per hour.** Made very heavy and substantial to withstand hard usage and give the very best service and plenty of hot water.

Heats all the water required in the home, keeps the kitchen warm and comfortable and top can be used for cooking or laundry purposes. Range boiler is not included in price. Range boilers are illustrated and priced on page 1604. **Stove must be connected to boiler before starting fire.**

As a laundry stove it is ideal. Has four No. 8 lids. Top is large enough to hold a big wash boiler and cooking utensils or sadirons at the same time, or a big steel or galvanized iron tub. Entire top is evenly heated.

Stove is solid cast iron from top to bottom. Has draw center grate and large ash pan. Blackened and polished, ready to set up and use. Securely crated for shipment.

We guarantee safe delivery and ship at once from CHICAGO, ILL., or NEWARK, OHIO, the one nearer you. When shipped from CHICAGO, stove cannot be shipped from our store with other goods.

STOVEPIPE

We Guarantee Safe Delivery and Ship at Once From Our CHICAGO Store or NEWARK, OHIO.

We do not sell made up (put together) stovepipe, for the reason that the cost of crating single lengths, together with the high freight rate, would make it an unprofitable purchase for our customers. The freight rate on made up stovepipe is more than double the first class rate, while the patent stovepipe we sell is shipped as third class, with a very low freight rate. This pipe is not made up, but the seam is formed and the edges turned over. It is easy to put together by simply joining the two laps, interlapping the crimp end, which locks the joint firmly together, and then tightening the seam with a mallet or hammer.

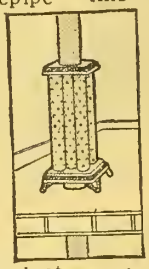
Heat That Cold Upstairs Room Without Extra Fuel Expe

These Stovepipe Radiators Are Wonderful Fuel Savers.

Heat that upstairs room comfortably warm, even in the coldest weather, with one of these fuel saving, money saving Stovepipe Radiators. The prices of our Stovepipe Radiators are very reasonable. The saving of only ½ to ¾ ton of coal will pay for a radiator. But you will probably save much more fuel than that by using a Stovepipe Radiator, and actually be money ahead as well as making your home more comfortable.



You get the extra heat and save fuel and money at the same time. It is not often that you can save money by spending it, but you can do that by using one of these Stovepipe Radiators.

A Stovepipe Radiator not only gets more heat from the amount of fuel you burn, but actually makes it unnecessary to use so much fuel as you have used other Winters, when you haven't heated an upstairs room.

An immense amount of heat passes of the chimney, instead of heating rooms. One of these radiators will this heat from escaping. Don't let i wasted; get the full benefit o the heat from your fuel by u one of these radiators.

You can place the radiator or stovepipe in an upstairs room or e the same room with the stove and i heat without a single cent extra ex for fuel. It simply uses the heat would otherwise escape.

The radiators are well made thr out, with tight joints. Each radia made with sheet steel body with num finished cast iron base and They do not cause any obstructi the draft. Can be as easily cleane replaced as a stovepipe.

Made to fit 6-inch stovepipe only.

We Guarantee Safe Delivery and Ship at From Our CHICAGO Store or NEWARK.

Our Own Trade Mark.

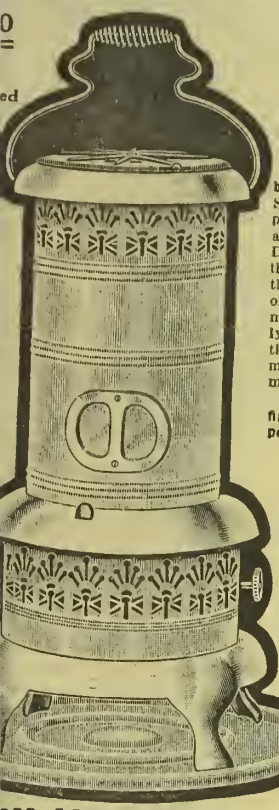
We Guarantee Safe Delivery and Ship at Once From Our CHICAGO Store.

of these E-Z-est Way Oil Heaters should be in every home, ready in damp and cold weather. It can be used in rooms that do not ficient heat from the stove or furnace, and is especially needed in ly Fall and Spring when the big heater is not running. A fine for bedrooms, bathrooms or living rooms. We especially recom- he Blue Porcelain Enameled Style, No. 22N933.

These are exceptionally good heaters for the money. Thoroughly well made of good materials and guaranteed to give satisfaction. Will heat a medium size room very comfortably.

Can be easily carried from room to room with safety and placed where needed most. Requires very little attention. **Height of flame always visible.** Tank full of oil will run heater about 8½ hours.

These stoves cannot be shipped by parcel post.



E-Z-est WAY Safe Oil Heater.

Blue Porcelain Enameled Body and Floor Tray.

This is one of the most beautiful oil heaters made. Sold at a very reasonable price, considering the finish and quality of materials. Do not judge the quality by the price, for we have made this heater with the thought of quality first and foremost. It is made of strictly first quality materials throughout, in a high class manner, and is worth much more than we ask for it.

The Body is beautifully finished in rustproof blue porcelain enamel.

With each heater we furnish without extra charge a blue porcelain enameled floor tray, as illustrated.

Nickel Plated Parts are very nicely finished and make a handsome trimming for the blue enamel. One-piece nickel plated base is extra strong.

Made in one size only. Height to main top, 25 inches, diameter of upper drum, 8 in.; tank holds 3 quarts; takes 8-inch round wick. Shpg. wt., about 20 lbs.

No. 22N902 E-Z-est Way Asbestos Lighting Rings. W pound. Price, per dozen.....

Ready for Use Any Minute of the Day or Night. You can have a small fire or a large one. You can do all kinds of cooking, baking, and all other work required of a cook stove at a big saving of labor and expense. Economical, simple and easy to use. Burn kerosene (coal oil).

Blue Porcelain Enameled Chimneys prevent waste of heat. Concentrate all the heat directly on the bottom of the cooking vessel and prevent radiation.

Extra Large Burners. Measure 4 inches in diameter and on account of their size are very efficient. For frying, where a great deal of heat is required, these stoves are especially desirable. One gallon of kerosene will run one burner at full flame about fifteen hours.

Easy to Light and Regulate. Always a steady blue flame, without smoke or odor. Each burner has an indicator to regulate valve for any size flame wanted, making it unnecessary to watch the flame.

Flame Always the Right Size. You turn the handle to the right point (as shown by indicator on burner), then go on with your other work with full confidence that the flame will burn steadily at the right height until you make a change by turning the handle. Not necessary to leave your work and run to the stove every few minutes to watch the flame.

Sanitary Glass Oil Tanks. Made of heavy glass, the quantity of oil in them always in sight. Sanitary and easy to clean.

E-Z-est Way Wickless Oil Stoves use asbestos lighting rings instead of wicks. Be sure to order an extra dozen and have them when needed.

E-Z-est Way Baking Ovens are guaranteed to do very fine baking and roasting.

E-Z-est WAY Long Chimney Wick Oil Stoves Need No Watching

wn Trade Mark, Registered in U. S. Patent Office.

ne [Good the Minute You Light Them.

We Guarantee Safe Delivery and Ship These Stoves at Once From One of the Following Cities, the One Nearest You:

SPRINGFIELD, MASS. SYRACUSE, N. Y. NEWARK, OHIO
CHICAGO, ILL. ST. PAUL, MINN. KANSAS CITY, MO.

Burn Kerosene (Coal Oil). No Smoke. No Odor.

Simple, Quick, Convenient

New and Improved Burner and Long Chimney. The long chimney prevents radiation and waste of heat and, combined with our special burner construction, creates a very strong draft up through the burner, giving a clean blue flame of intense heat without smoke or odor. This long blue porcelain enameled chimney concentrates all heat right on bottom of cooking vessel; none is wasted. One gallon of kerosene will run one burner at full flame about fifteen hours.

Light the Wick and the Stove Is Ready for Work. Saves the bother and work of making a fire in your cook stove. The burners give an intense heat. You can do all your cooking and baking, washing and ironing on one of these stoves. Always ready for use any minute of the day or night, Summer or Winter.

The E-Z-est Way Wick Oil Stove Does the Same Work as Any Cook Stove. On account of its quick heating qualities a meal of any size can be quickly prepared. When the work is done the flame can be turned out instantly, saving fuel.

Needs No Watching. After a burner has been lighted, simply turn the flame to the height wanted and it will burn steadily at that point, without any attention, and give a steady uniform heat. Made thoroughly dependable at every point.

Sanitary Glass Oil Tanks. Made of heavy glass, the quantity of oil in them always in sight. Sanitary and easy to clean.

E-Z-est Way Heat Retaining Perfect Baking Oven. Can be heated ready for any kind of baking in ten or twelve minutes. Guaranteed to bake quickly and perfectly. Made sturdy and strong of excellent material. Measures 18 inches wide, 12 inches deep and 12 inches high, inside measurements.

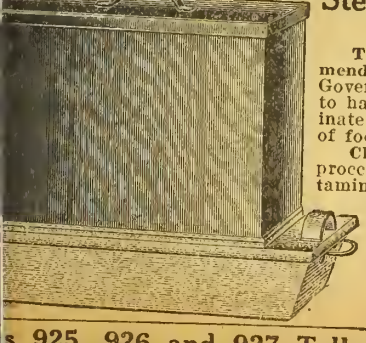
Sterilize Your Milking Utensils With This E-Z-est WAY Steam Sterilizer



Your Milk and Cream Will Keep Sweet Longer.

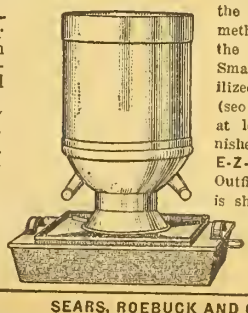
This E-Z-est Way Steam Sterilizer is made to meet the recommendations of the United States Department of Agriculture. Our Government is making a strong appeal to the farmers and dairymen to handle milk and milking utensils in a cleaner way so as to eliminate spoilage and waste. It is your duty not to waste any kind of food.

Cleanliness of Dairy Utensils Is Highly Essential. The ordinary process of washing is not sufficient to prevent infection and contamination. Steam sterilization destroys all bacteria and germs. This E-Z-est Way Steam Sterilizer makes it possible for you to properly sterilize your milking utensils at small cost.

Can be used on any oil, gasoline, gas, coal or wood cook stove or laundry stove. Sterilizer measures about 15x19½ inches and covers two cooking holes of the stove. Shipping weight, about 30 pounds.

We guarantee safe delivery and ship at once from our CHICAGO store.

No. 22N915 Price for E-Z-est Way Sterilizer, as illustrated ..$4.75



This illustration shows the water pan and the method of sterilizing the larger utensils. Smaller parts are sterilized in the steam box (see main illustration at left) which is furnished as a part of each E-Z-est Way Sterilizer Outfit. The milk can is shown only to illustrate methods of using sterilizer, and is not included in the price.

Standard Size White Enameled Gas Range

Every Feature of Convenience. Big Capacity—Small Space

WHITE PORCELAIN ENAMELED PARTS ARE SANITARY AND EASY TO KEEP CLEAN. Simply wipe with a damp cloth. The following parts are white porcelain enameled: Splasher back, left side of broiling oven, door panels, broiler pan and drip pan under cooking top burners. The space under and around the burners is enameled dark blue.

RANGE IS FULL STANDARD SIZE, yet takes up little room. All the cooking and baking for a good size family can be done on this range. It is strong and substantial, well made and nicely finished. All parts not porcelain enameled are finished in a dull black japan that requires no blackening. Range can be furnished without white porcelain enameled parts if wanted; when so ordered, no porcelain enameled parts are furnished; the drip pan is black japanned, the burner box is galvanized iron, the broiler pan is smooth steel.

BAKING AND ROASTING OVEN is guaranteed to do fine work and is large enough to do the work for a good size family. Broiling oven has white porcelain enameled pan with round corners and wire rack.

COOKING TOP measures 26x23½ inches. For natural gas, range has closed top, as illustrated. Range for manufactured gas has large open top grates. **Be sure to state whether you burn natural or manufactured gas.** Cannot be used for acetylene gas or gasoline gas.

BURNERS CAN BE EASILY REMOVED FOR CLEANING. Cooking top has three standard size star shape burners, one giant burner and one combination simmer burner and patent lighter. Patent lighter is illustrated and described on page 1243. The baking and broiling ovens are heated by the same burner which heats both ovens at the same time. Has safety oven lighter.

RANGE CAN BE FURNISHED WITH OVENS ON LEFT SIDE of cooking top instead of right side. If wanted with ovens at left, ADD 25 cents to the prices below.

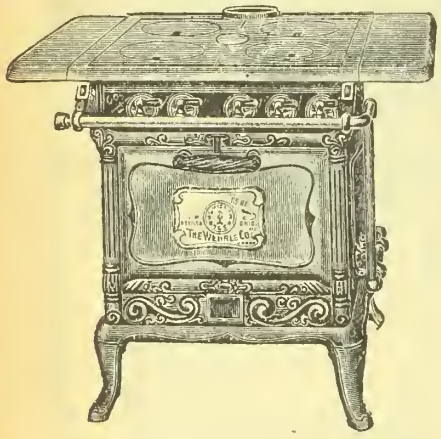
These Cast Iron Ranges Last a Lifetime

The Most Durable Gas Range Construction. Won't Rust Out, Won't Burn Out. Sold at Very Low Prices. Plain Design, Easy to Keep Clean.

These Are the Most Durable Gas Ranges We Sell. Being made entirely of solid cast iron, they positively will not rust out. This is a great advantage, as it means that the stove will last a lifetime. Gas, especially natural gas, contains a large amount of moisture, and it is the condensation of this moisture on the oven linings and stove sides that causes so many gas ranges to rust out in just a few years.

Baking and Roasting Oven is large size and does very quick and satisfactory work without waste of gas. Oven bottom has cooking lid so that onions, cabbage and other vegetables can be cooked in oven and the odor goes up the stovepipe, instead of into the kitchen.



Solid Cast Iron Gas Range.

Without Broiler and Without Warming Closet. Otherwise exactly the same range as shown in large illustration to the right. Height, from floor to cooking top, 31 inches.

Satisfaction Guaranteed. Sixty Days' Trial

Give this SIMPLICITY Base Burner all the tests you w and if you are not fully satisfied in every way we will return money and freight charges you have paid. You run no risk judgment will decide the matter.

Description of Our SIMPLICITY Double Heating, Self Feeding, Hard Coal Base Burner

Double Heating Construction.

Base burners are the most economical and efficient kind of heating stoves, as they radiate more heat and heat more space than any other type from the same quantity of fuel. This is due to the double heating construction.

Every Inch of This Stove Radiates Heat.

The smoke and gas are forced to circulate through flues in the back and base of the stove before passing into the stovepipe. This gives full benefit of every bit of heat from the fuel burned. No heat is wasted. A hot air flue extends up through the back of the base burner, between the smoke flues. This flue draws air from the floor through an opening in the stove bottom, and as the air moves upward it becomes highly heated and passes out very hot from the hot air collar on stove top. This constant circulation of heated air warms every corner of your rooms and helps to warm the floors, as well as keeping a very even temperature, varying only a few degrees between floor and ceiling.

If desired, a stovepipe can be connected from the hot air collar on stove top to a register in floor above, as shown in illustration, heating a room or two upstairs without extra fuel cost. Hot air collar is fitted with a damper so that the heat can be turned into the downstairs rooms when it is not desired to heat rooms upstairs.

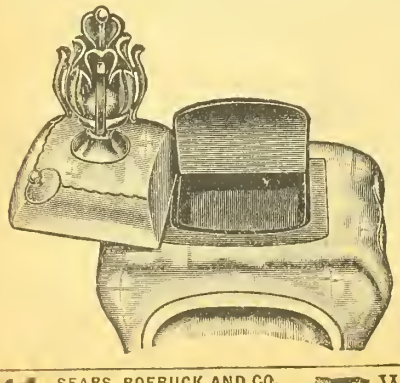
An openwork cap is furnished for hot air collar when stove is not connected for heating upstairs rooms.

Big Capacity Self Feeding Magazine.

Holds enough fuel to operate the heater for twenty-four to thirty-six hours without refilling.

Automatic Magazine Lid.

Lifts automatically as the nickel plated swing top is turned to the left and closes again as the top is turned back. The lid is carefully fitted and covers magazine opening tightly, preventing the escape of gas. This illustration shows how the lid opens automatically as the top is turned to the side.



Extra Big Heating Capacity.

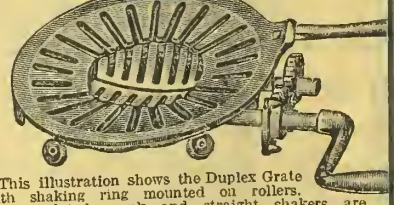
This illustration shows how our SIMPLICITY base burner heats an upstairs room or two as comfortably as the downstairs rooms without any extra fuel cost by simply running an extra stovepipe from the hot air collar on back of stove top to a register in floor above. Register for this purpose is listed on page 1391.

Extra Large and Strong Fire Pot

We have given particular attention to th struction of the fire pot, as this part n made extra strong to stand extremely har in severe weather. It has been made suffi thick and heavy to give good service.

Easy Shaking Roller Bearing Grat

A regular furnace grate, mounted on shakes very easily. All parts of grate are s made and of sufficient weight and thick stand intense heat. A practical, durabl working grate. The double shaking const makes it very simple to clear the fire o and clinkers. A large ash pan is furnishe



This illustration shows the Duplex Grate with shaking ring mounted on rollers. Nickel plated crank and straight shakers are shown in position, ready for use.

Bright and Cheerful Mica Illumina

Extra large mica surface on three sides stove permits the bright fire light to radi every part of the room. This gives the a very attractive appearance.

Mica Doors

Are carefully fitted and lock tightly with turnbuckle handles, absolutely preventing of gas. The doors are made strong to st intense heat without warping.

Plain and Elegant Nickel Plating

All nickel plated parts are plain in handsomely finished with an extra heavy of first quality nickel plating, polished an to an elegant luster. This is the most h base burner we have ever sold.

Extra Strong Tested Castings.

Every piece and part is strong and Every stove is rigidly inspected and eve carefully tested. Heavy and substantial throughout to stand the hardest kind of

Large Ash Pit and Ash Pan.

Ash pan holds a large quantity of as needs to be emptied only once a day. Ha carrying handle. Plenty of space is between ash pan and grates to prevei banking up under grates and burning t quickly. Screw draft in ash door makes of fire easy.

Defy the Cold Winter Days With This VERONA Double Heater

This Big Double Heater Has the Latest Features and Improvements, Roller Bearing Grate and One-Piece Cast Iron Airtight Fuel Saving Ash Pit, a Construction That Is Unusual and Adds Efficiency to the Stove.

Burns Soft Coal, Hard Coal, Coke, Wood or Corn Cobs.

Heats a Big House Comfortably From Floor to Ceiling. Warms every corner of your rooms and the floors as well. Maintains a very even temperature, varying only a few degrees between floor and ceiling. The stove body is made double all around with a wide air space or flue between. This flue draws air from near the floor, and as it passes upward between two bodies it becomes highly heated and passes out very hot from the hot air collar on stove top, furnishing a steady circulation of heated air. This double body construction heats your rooms much more evenly than the ordinary single body stoves, not too hot near the heater, yet comfortable in every corner.

You Can Heat an Upstairs Room or Two without extra fuel cost by connecting a stovepipe from the hot air collar to a register in floor above. Register for this purpose is illustrated and priced on page 1391.

Built to Stand Hard Firing and Last for Years. The entire stove, with the exception of double steel body, is made of tested cast iron, strong and durable. Every part is made the right thickness and weight to stand hard usage. The workmanship is first class.

Easy Working Roller Bearing Grates. An important feature. Grates are made in draw center style that clears the fire of all ashes and clinkers with one or two movements. Grates and fire pot are built strongly of cast iron to stand hard firing and intense heat.

One-Piece Cast Iron Ash Pit. A valuable feature. The entire ash pit, top, sides and bottom, is cast in one solid piece of tested iron. This novel construction has no joints to open up and give you trouble in years to come. This is an important feature and should be considered when buying a stove of this kind.

Two Big Feed Doors provide a large opening for feeding big chunks of soft coal or wood. Mica windows radiate the bright and cheerful firelight around the room.

Beautiful Nickel Plated Trimmings make this a very handsome heater and good enough for the finest homes. The nickel is easily kept clean and bright and will not rust nor tarnish.

Stove Is Blackened and Polished, ready to set up and use.

Self Feeding Magazine for Hard Coal can be furnished at the following prices: For **No. 22N650, $1.65** extra; for **No. 22N651, $1.95** extra; for **No. 22N652, $2.25** extra.

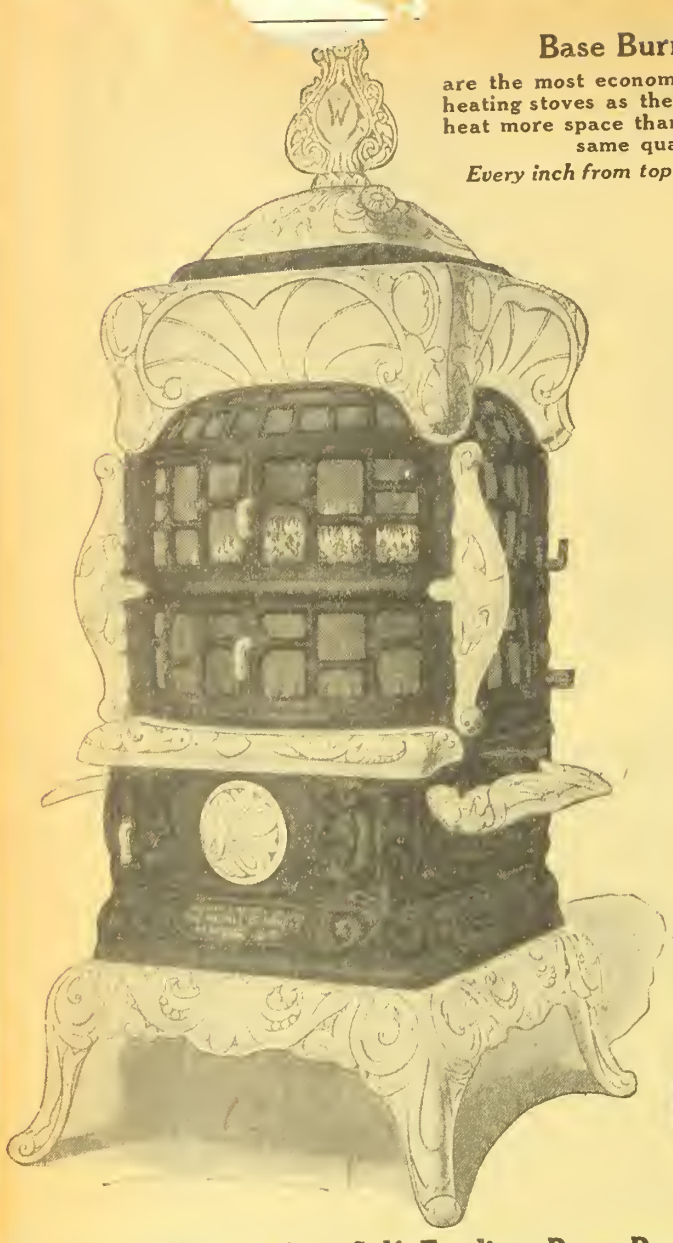
Base Burning Heaters

are the most economical and efficient kind of heating stoves as they radiate more heat and heat more space than any other type from the same quantity of fuel.

Every inch from top to bottom radiates heat.



Big Value Medium Size Self Feeding Base Burner

Burns Hard Coal or Crushed Coke Only.

This Fully Nickel Trimmed Self Feeding Base Burner will give lots of heat and is built to last. It is made of good quality cast iron throughout and will stand hard usage. It heats fine, looks neat and attractive, and we guarantee it to give absolute satisfaction. It is not as large as our other hard coal base burners and will not heat quite as many rooms, but it is a splendid value at our prices.

The Features That Make for Strength, long lasting quality, beauty and low cost for heating have been used in making this base burner. The tightly fitted doors and dampers insure steady fire, always under perfect control, even distribution of heat and prevent waste of fuel.

Heating Flues are made from heavy cast iron, especially designed to radiate intense heat and withstand hard and continued usage. The smoke and heat are forced to pass to the bottom of the stove, going down one side, around the bottom, up on the other side into the pipe. Every part of the stove radiates heat. No heat is wasted, floor is heated as thoroughly as the rest of room.

A Pipe Can Be Attached to the Hot Air Collar on stove top and heat carried to a register in the floor above, sufficient to heat one room comfortably. Register for this purpose is illustrated and priced on page 1391.

The Nickel Plated Parts are of neat design, highly polished and very attractive. The large mica surface radiates the cheerful firelight into every part of the room. Draw center style grate is strong and easy working. Self feeding magazine holds enough fuel to run the stove for twenty-four to thirty hours without refilling.

Stove Is Blackened and Polished, ready to set up and use.

UILT TO STAND THE HARD USAGE TO WHICH TOVE OF THIS KIND IS USUALLY PUT. It bines all the latest and best ideas. The construction ich that an even temperature is maintained, varying a few degrees between the heater and the farthest ers of the room. You will find it efficient, serviceable, ble and complete.

SPECIALLY RECOMMENDED AS A SCHOOL-OM HEATER. Radiates properly warmed air. Good ibution of heat is one of the essential considerations he health and comfort of pupils. Properly warmed nakes for alert minds. Cold corners or overheated es mean uncomfortable, restless and dull pupils. We made this heater to meet state school law require-s and to give absolute satisfaction.

GOOD HEATER FOR STORES or other big s. The circulation of heated air will keep the win- from freezing. The construction of the casing per- piling goods near the heater without risk.

HE ENTIRE INNER BODY OR STOVE PROPER ONSTRUCTED THROUGHOUT OF CAST IRON. part is made the right weight and thickness to strength and long lasting qualities. Particular ion is given all the joints to make them airtight.

HE UPPER FIRE CHAMBER is made entirely of heavy and strong cast iron, and on account of this ruction is very durable. Strongly made throughout.

JTER CASING is made of two heavy gauge steel s with thick asbestos lining between them.

OT BLAST SMOKE AND GAS CONSUMER d the top of the fire pot for use when soft coal is as fuel. The draft slide on the front of the heater s air into this hot blast ring, where the air is first l, then passes through small openings into the fire er, mixing with the gases and soot from the soft nd causing them to burn, giving extra heat without fuel expense.

ECK AND DRAFT DAMPERS can be easily ted to hold fire all night.

RE POT is built extra strong and heavy to give ear with the hardest kind of use.

UR-BAR TRIPLEX COAL GRATE. Same nat is used in furnaces; made strong and substan- it easy to shake. When heater is ordered for g wood only we furnish a special wood burning If wanted to burn both coal and wood, add o the price.

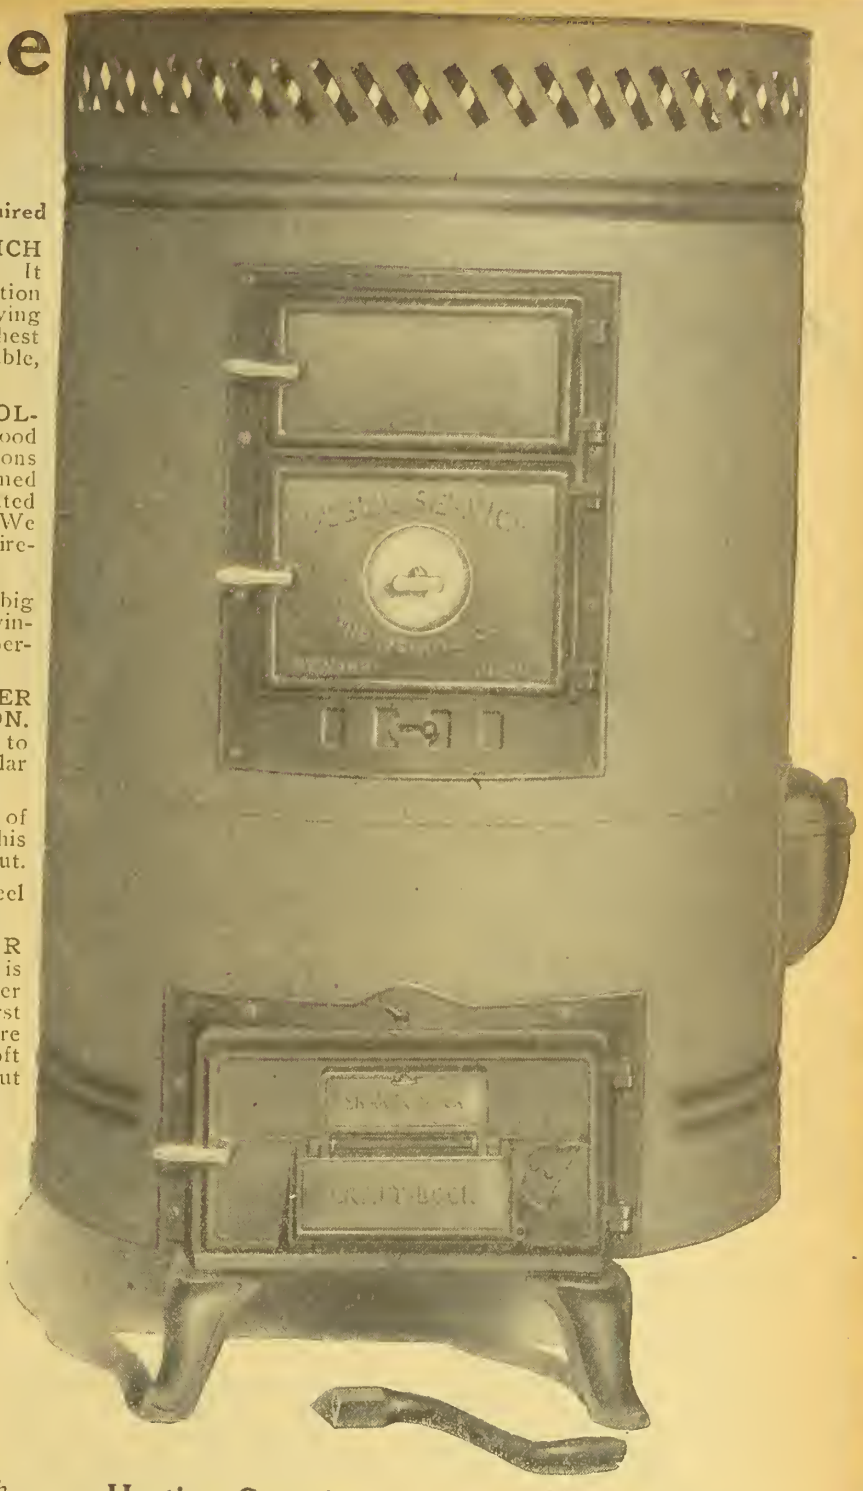
TER PAN is provided so that the proper amount sture will be furnished at all times.

AVY ASH PAN, STRONG POKER and E SHAKER are furnished with each heater.

OVEPIPE AND ELBOWS. We can furnish 8-inch pe at $1.00 per joint, 28 inches long; 8-inch elbows nts each. These are shipped from our foundry at RK, OHIO, only.

View Showing Construction

The large upper fire chamber has a deflector plate that makes the heat radiate from all parts of the stove and not go directly up the smoke pipe. The hot blast ring at top of fire pot admits heated air over the fire, burning the gases and soot of soft coal when this fuel is used. Check damper on back of stovepipe can be adjusted to hold the fire at any heat wanted.



Heating Capacity

MAXIMUM HEATING CAPACITY is about 22,000 cubic feet of space. This capacity rating is for buildings built reasonably tight, but with all four walls exposed, with temperature in the room to be maintained at 70 degrees in zero weather. Where schoolrooms or other rooms have ventilating system to be used in connection with this heater, the maximum heating capacity is about 15,000 cubic feet of space.

Measurements

Diameter of outer casing or jacket, 34 inches. Size of door opening required to admit heater, 35 inches.
Height to top of casing, 60 inches.
Diameter of fire pot at top, 23 inches.
Depth of fire pot, 11 inches.
Diameter of upper fire chamber, 27 inches.
Size of feed door opening, 16½x13 in.
Size of smoke pipe, 8 inches.
Approximate shipping weight, 850 lbs.

Be sure to state whether heater is wanted for burning coal or wood. If fuel is not specified we will furnish heater for burning coal. If wanted to burn both coal and wood, add $4.50 to the price.

This Big Double Heater Is a Barga

In Price, Quality and the Service It Will Give You

Burns Soft Coal, Hard Coal, Coke, Wood, Cobs or Anything That Can Be Burned in Any Heating Stove. Holds Fire All Night.

Double Heating Construction

Rooms Upstairs and Downstairs Can Be Heated Wit the Same Fire.

THIS BIG STOVE has splendid heating power. Cold air is drawn between the double body, as shown in the small illustration, is circulated around the hot surface of the stove and discharged hot at the top. Your home will be free from cold corners, maintaining a comfortable temperature that will vary only a few degrees between the floor and ceiling.

HEATS AN UPSTAIRS ROOM. A pipe can be attached to the hot air collar at top of stove, as illustrated, and connected to a register in floor above, so that a portion of the heat will pass up and heat one or more rooms upstairs very comfortably, with no additional fuel cost. Register for this connection is illustrated and priced on page 1391.

THIS DOUBLE HEATER IS WELL MADE and cor designed, built of high grade materials and sold at prices represent a big saving.

DOUBLE STEEL BODY. Outer body is made of s steel, heavy and durable; inner body of high grade plate that will stand intense heat from hard firing.

FIRE POT is made of cast iron and, because of its w and durability, requires no linings. Because of its shap construction it heats very quickly. It holds a good b coal and prevents waste of heat, therefore is a good fuel Holds fire all night. Requires little attention.

DRAW CENTER SHAKING GRATES, satisfactory style. Grate for burning wo made double to aid in controlling draft.

THE TWO FEED DOORS form a con tion feed opening for coal and wood. Fo coal the lower door only need be opened; burning wood both doors can be opene the large size of the opening, as given in below, will admit large sticks of wood or cl When hard (anthracite) coal is used and a azine is ordered with stove, the fuel can through the opening in the top by removi

UNIFORM HEAT DAY AND NIGHT fires from the same fuel. Hot Blast featu verts into heat the smoke and gas which escape through the chimney, giving two fi the same fuel, greatly increasing heatin of coal consumed.

TWO HOT BLAST DRAFTS. An air space surrounds the upper fire pot, into which air is admitted from the front through the screw draft below the feed door. The air passes around the hot blast fire pot, becomes highly heated and is discharged above the fire in jets through a series of small holes surrounding the fire. Here it unites with the smoke and gases, causing them to burn fiercely. A second hot blast attachment is furnished in the form of a tube, taking air at top of the stove and discharging it in a heated condition in the center of the fire. Thus the two established principles of hot blast heaters are combined in this P heater.

Guard Your Home Against King Winter

This Powerful Solid Cast Iron Double Heater Burns Coal and Coke.

The Construction of This Stove Makes It an Especially Powerful Heater. Has a solid cast iron inner body above fire pot, with a very large heat radiating surface. The ornamental outer body of stove is made in an openwork design so that the heat is radiated freely, directly from the inner body out into your rooms.

The Entire Stove Is Made of Solid Cast Iron From Top to Bottom. Every casting is thick and strong. With proper care, this heater will last almost a lifetime. All parts are carefully fitted and strongly bolted.

Fire Pot and Grate Are Made Strong and Durable to stand hard firing and intense heat. Grate is draw center shaking style and burns any kind of coal or coke. Will not burn wood. Screw drafts in ash door and feed door give full control of fire. Mica windows in feed door radiate the bright firelight out into the room. This heater cannot be furnished with self feeding magazine.

Double Heating Construction for Heating Upstairs Rooms without extra fuel cost. A stovepipe can be connected from hot air collar on stove top to a register in floor above, carrying up sufficient heat to thoroughly warm one room upstairs without extra cost. Register for this purpose is illustrated and priced on page 1391.

Nickel Plated Base, Foot Rails and Top are beautifully polished, very neat, plain and handsome. All cast iron parts are blackened and polished. The stove is all ready to set up and use.

Open Front Fireplace Style Heater

Radiates Heat and Firelight, Comfort and Cheerfulness. Burns Hard Coal, Soft Coal and Coke.

Franklin Style Heaters Have Always Been Extremely Popular in the Southern States, where they have, in many cases, replaced the old style built-in fireplaces. They are growing more popular and coming into general favor in many other sections of our country. This plain and neat open front FRANKLIN GEM Heater has all the advantages of an open hearth without its disadvantages. Makes your rooms warm, comfortable and cheerful. A big value at our prices.

Cast Iron Body Is Strong and Durable. Main top, bottom and front frame are cast iron. The sides and back are made of one piece of heavy gange steel. Main top has a removable lid, useful for many purposes.

Fire Box Is Large Size, all parts made heavy and strong to stand hard usage and intense heat. Has dump style grate that easily removes ashes and clinkers and keeps the fire clear and bright. Burns hard and soft coal and coke. Will not burn wood.

Blower Door is made to fit both front openings, the one in front of grate and the upper one above fire, making it unnecessary to have two doors. The fire can be easily regulated and controlled by means of this door and its draft slide.

Urn Has Removable White Porcelain Water Bowl to furnish proper amount of moisture in the room. Large ash pan has wire carrying handle. Strong wire poker is furnished. All sizes take 6-inch stovepipe.

Stove Is Blackened and Polished, ready to set up and use.

Lasting and Serviceable Oak Heater

Burns Anything That Can Be Burned in Any Heating Stove.

$10.90 SIZE is the ideal and proper size for a large bedroom, sitting room or parlor.

$9.50 SIZE is suitable for a medium size bedroom or living room.

$8.00 SIZE is suitable for small size bedrooms.

Be sure to order a stove large enough to heat your room properly.

We Guarantee This Oak Heater to give entire satisfaction for heating single rooms. It is a splendid value at our low prices.

The Steel Body is carefully fitted and securely bolted at all joints. All cast iron parts are good weight and neatly ornamented.

Fire Pot is made of tested cast iron. The fire can be easily controlled by the screw draft in ash door and check draft in feed door.

Draw Center Shaking Grate is furnished for burniug coal. A separate grate for burning wood is packed with each heater. Ash pan is furnished with all three sizes.

Nickel Plated Trimmings are made of steel, nicely nickel plated and polished, making the stove attractive and desirable.

Freight Charges on Stoves Are Very Low and amount to very little compared to what you can save in price by buying your heater from us. Stove freight rates average about 30 cents per 100 pounds for 200 miles, greater or less distances in proportion.

Self Feeding Magazine for hard (anthracite) coal can be furnished for the largest size only, No. 22N691, for $1.25 extra.

Made in Three Sizes, blackened and polished, ready to set up and use.

Low Priced Hot Blast Heater

Our Soft Coal Leader.

Burns Soft Coal, Siftings, Slack, Hard Coal, Lignite, Coke or Cobs. Holds Fire All Night.

This stove is especially efficient in burning soft coal, as it burns a very large percentage of the gas which is thrown off from soft coal under heat, together with a good part of the soot, converting them into heat.

Smoke consuming hot blast attachment is a cast iron tube extending down from stove top, fitted with draft slide at top which supplies a quantity of heated air to the fire, consuming smoke and gases from the soft coal.

The body is made of good quality steel; all other parts are strong cast iron. All joints are carefully fitted and securely bolted. It is made and fitted throughout with just as much care as our higher priced heaters.

Heavy cast iron fire pot and improved draw center shaking grate are made to stand intense heat and hard firing. A large ash pan is furnished with each heater. Feed door is on front of main top.

We guarantee safe delivery and ship at once from one of the following cities, the one nearest you:

Kansas City, Mo.
Newark, Ohio
St. Louis, Mo.
Chicago, Ill.
St. Paul, Minn.

(When the stove is shipped from CHICAGO, it cannot be shipped from our store with other goods.)

Made in four sizes, blackened and polished, ready to set up and use.

Burns the Heavy Smoke and So of Soft Coal—Takes Little Fu

This Hot Blast Heater burns all kinds of coal, even the cheapest grade of soft coal and slack. The dirtiest soft coal will not choke it. Extremely simple to operate. Requires little attention. Holds fire all night.

The special hot blast construction makes this a very efficient heater. It burns the smoke, soot and gases of soft coal. This feature insures the greatest amount of heat from the fuel and makes it easy to keep fire over night.

The draft enters through the screw register, is conducted down between hot walls and discharged under the grate. Draft also enters through the smoke consuming hot blast and passes all around behind the section above the fire pot, becomes thoroughly heated and is discharged in small jets into the smoke and gases, consuming and using them as fuel.

Body is made of high grade steel. The top and bottom are heavy and strong cast iron. All joints are carefully fitted, strongly bolted and made air-tight. This makes the fire easy to control. A heavy cast iron inner lining above the fire pot protects the steel body from the intense heat and adds years to the life of the stove.

Fire pot and easy working draw center grate are made of good quality cast iron and will stand hard wear and intense heat. Feed opening is in main top.

Made in three sizes, blackened and polished, ready to set up and use.

We guarantee safe delivery and ship at once from our foundry in NEWARK, OHIO, only.

A Big Capacity Wood Burning Heater

Radiates Heat Almost Instantly After Fire Is Started

Burns Large Chunks and Long Sticks of Wood, Knots, Refuse or Anything Used for Fuel Except Coal or Coke.

DIVING BOTTOM FLUE, a distinctive feature of this stove, makes it a wonderful heater and one of the best wood burning stoves ever made for heating the floor and other parts of the house. The great amount of fire travel through the down flue and base gives more radiating surface than is usually found in wood burning heaters. The construction is such that it radiates the heat out into the center of the room where it is wanted and makes it a splendid floor warmer. A popular heater and recommended by thousands of satisfied users.

MAIN BODY is made of first quality heavy gauge blue polished steel. Will not scale or peel when overheated. Has heavy cast iron ends. All joints are strongly bolted. The inner lining is heavy cast iron, same shape as outer body, giving unusual heating capacity.

MAIN TOP has a lid which can be removed and opening used for boiling water or cooking and many other useful purposes.

HEARTH has draw out center so ashes can be drawn from fire chamber into ash pit and easily removed. A convenient arrangement.

NICKEL PLATED TRIMMINGS. Polished to a bright luster, does not peel or flake off. One foot rail is furnished on each stove.

All sizes take 6-inch stovepipe.

Diving Bottom Flue

between the heavy inside cast iron linings forming the fire chamber and main steel body causes the heat to circulate around the entire body of stove, as shown in small picture to the right, giving it immense radiation, throwing the heat to the floor as well as to all other parts of the room.

This Direct Draft Wood Burning Heater Is an Especially Good Value!

Radiates Heat Almost Instantly After Fire Is Started.

Burns Large Chunks of Long Wood, Knots, Planing Mill Refuse or Anything Used for Fuel Except Coal or Coke.

While this heater is similar in style to the Acme Wildwood described above, *it does not have the diving bottom flue feature.*

MAIN BODY is made of sheet steel with heavy inside lining of cast iron, conforming to the shape of the steel body.

ENDS are cast iron and the right end is fitted with a large fire door for big chunks, knots, etc. Supplied with smoke curtain which prevents the smoke from escaping into room when fire door is open.

CAST IRON MAIN TOP. With the swing top turned to the left, cooking hole in top will be found very convenient for heating water and light cooking.

NICKEL PLATED TRIMMINGS. Nicely polished, easy to keep clean and bright. One foot rail is furnished with each heater.

SCREW DRAFT REGISTER in the fire door can be easily regulated to give more or less heat as desired. All sizes take 6-inch pipe.

Stove is blackened and polished, ready to set up and use.

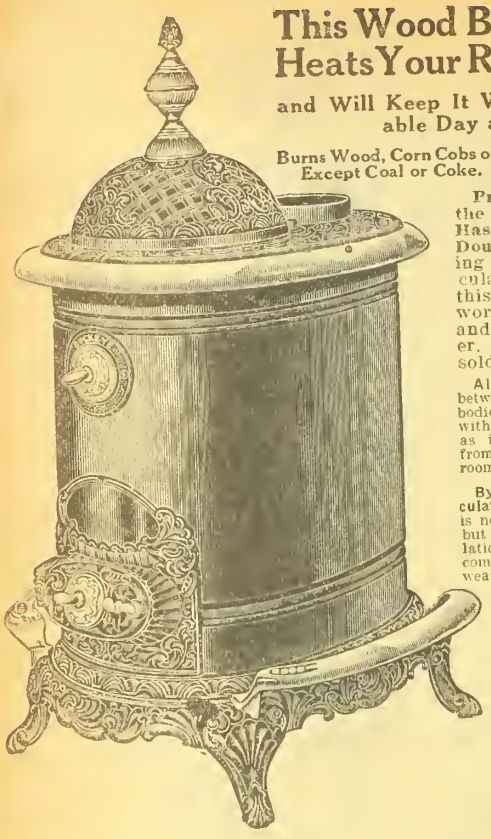
mplete Information About Freight and Express Shipments, Read Pages 926 and 927.

This Wood Burning Stove Heats Your Room Quickly

and Will Keep It Warm and Comfortable Day and Night.

Burns Wood, Corn Cobs or Anything Used for Fuel, Except Coal or Coke. Holds Fire All Night.



Produces Heat Almost the Instant It Is Lighted. Has Hot Blast Draft and Double Steel Body, forming a perfect hot air circulating system, making this stove a durable, quick worker, a great fuel saver and an excellent fire keeper. Very well made and sold at a very low price.

Air From the Floor is drawn between the inner and outer steel bodies and coming in contact with the hot inner body, is heated as it rises and passes out hot from the top of the stove into the room.

By Reason of This Hot Air Circulating Construction this heater is not designed as a foot warmer, but is intended to heat by circulation and keep a large room comfortably warm in the coldest weather. The temperature in a room heated by one of these heaters will vary only a few degrees between the floor and ceiling, whereas with stoves without this feature the floors are frequently cold. We guarantee satisfaction.

The Top and Bottom are cast iron, strong and rigid. The bodies are made of good steel.

Top has a large lid for feeding big chunks or long sticks of wood.

Blackened and polished, ready to set up and use.

We guarantee safe delivery and ship at once from CHICAGO, ILL., or NEWARK, OHIO.

When shipped from CHICAGO, stove cannot be shipped from our store with other goods.

Made in Two Sizes. Order by Number	Price	Total Height, Inches	Length Inside, Inches	Width Inside, Inches	Top Feed Opening, Inches	Size Pipe, Inches	Shipping Weight, Abt., Lbs.

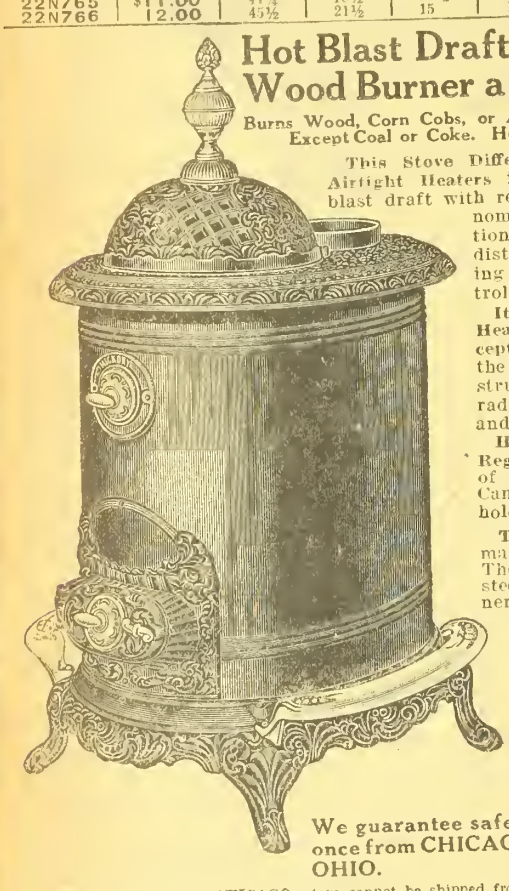
Hot Blast Draft Makes This Wood Burner a Big Favorite

Burns Wood, Corn Cobs, or Anything Used for Fuel, Except Coal or Coke. Holds Fire All Night.



This Stove Differs From Most Other Airtight Heaters in that it has a hot blast draft with register, making it economical in the consumption of fuel, even in the distribution of heat, holding fire easily under control.

It Is Made Like the Heater Shown Above, except that it does not have the hot air circulating construction, but is a direct radiator. It is a quick and satisfactory heater.

Hot Blast Draft With Register makes the control of fire easy and positive. Can be easily regulated to hold fire all night.

The Top and Bottom are made of strong cast iron. The body is good grade steel, protected by an inner steel lining 15 inches high. This is a very durable construction and makes this stove an excellent value for our low prices.

The Big Top Has a Large Lid for feeding big chunks or long sticks of wood.

Blackened and polished, ready to set up and use.

We guarantee safe delivery and ship at once from CHICAGO, ILL., or NEWARK, OHIO.

When shipped from CHICAGO, stove cannot be shipped from our store with other goods.

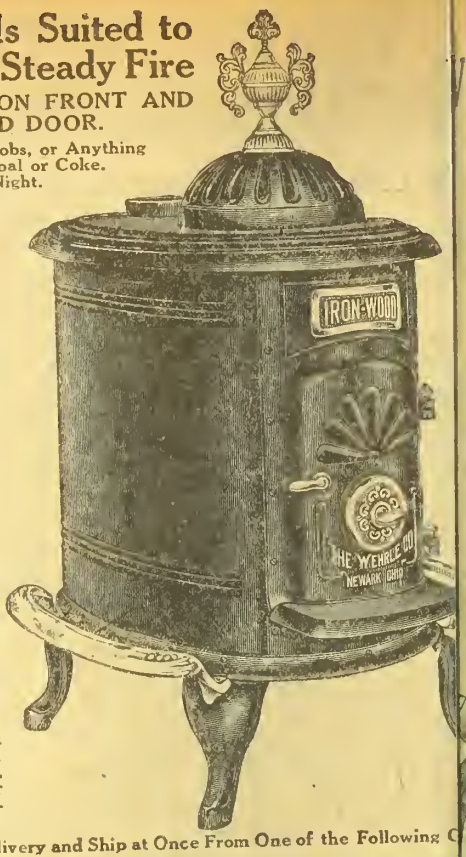
This Heater Is Suited to Quick or Slow Steady Fire

HAS FULL CAST IRON FRONT AND FRONT FEED DOOR.

Burns Wood, Knots, Corn Cobs, or Anything Used for Fuel, Except Coal or Coke. Holds Fire All Night.



This Is a Splendid Heater, well made of good quality materials that will withstand intense heat and last a long time. It is guaranteed to give satisfaction and you will not make a mistake by buying it.

The Top, Bottom and Front Are Made of Strong Cast Iron. The body is made of good quality steel, protected by an inner steel lining. All joints are carefully joined and securely bolted. A thoroughly well made and substantial heater that will give excellent service for a long time.

The Front Feed Door Is Large Size for feeding big chunks and blocks of wood. The big top is fitted with a lid that can be removed for feeding fuel from above. The screw draft in feed door gives full control of the fire. Hearth below door keeps ashes from falling onto the floor.

This Solid Cast Iron Cannon Heate Burns All Grades of Coal

Burns Soft Coal or Hard Coal. Even the cheapest grade of soft coal will give entire satisfaction. Suitable in the different sizes for small, medium or large size rooms. It will not answer the purpose of our big Cannon heaters, shown on pages 1260 and 1261, as a stove for big halls, stores and other large buildings, but it is a very satisfactory stove for use in small, medium and large rooms in homes, offices and other places. Parts are fitted with care by skilled workmen.

These Stoves Are Suitable for Chicken Houses, Brooders, Etc. Can also be used as wagon heaters for peddlers, rural mail delivery wagons, school wagons, milk wagons or on any wagon where it is necessary to have a heating stove. With legs removed stove can be bolted securely to floor of wagon.

This Cannon Stove is well made of good cast iron, strongly bolted and reinforced. Quality considered, the prices are very low.

The Top has a removable cooking lid. Feed door is fitted with check draft and ash door with a draft slide. Grate is dumping style.

The freight charges are very low; 25 to 75 cents will pay the freight on this stove for a distance of from 100 to 1,000 miles.

Made in four sizes, blackened and polished, ready to set up and use. Be sure to notice sizes and dimensions given in table below and order a stove large enough to heat your room properly. For larger sizes see Cannon heaters on pages 1260 and 1261.

We guarantee safe delivery and ship at once from CHICAGO STORE, or NEWARK, OHIO.

Wood Burning Heater With Cast Iron Fire Chamber and Large Fuel Saving Register Grate

These Features Make This Stove Unusually Strong and Lasting. The Register Grate Increases the Heating Qualities, Saves Fuel and Makes Control of Fire Easy.

Burns Wood, Knots, Corn Cobs, Shavings or Anything Used for Fuel Except Coal or Coke.

We guarantee this Wood Burning Heating Stove to be high grade, well made, most durable and economical in the consumption of fuel, and an excellent distributer of heat.

Well designed, solidly constructed and finely finished. It is a splendid heater, will last for years and is worth a great deal more than we ask for it.

BODY made in one piece of heavy polished steel, will not scale or peel when overheated, requires no blackening. All joints are tight.

HEAVY CAST IRON FIRE CHAMBER extends high and entirely around the body of the stove. An unusually strong feature as it helps the stove to last for many years even with very hard usage.

LARGE IMPROVED REGISTER GRATE drops ashes into a roomy ash pit and with the shaking handle can be regulated to give just the amount of draft required. Holds fire all night.

ASH PIT is extra large and deep, holds large amount of ashes. No ash pan is furnished with the stove.

HAS LARGE FEED DOOR with swinging cast iron smoke curtain which keeps smoke from escaping into room when feeding the fire.

PIPE COLLAR is cast on main top and takes 6-inch pipe.

Stove is blackened and polished, ready to set up and use.

We guarantee safe delivery and ship at once from CHICAGO, ILL., or NEWARK, OHIO. (When shipped from CHICAGO, stove cannot be shipped from our store with other goods.)

This illustration shows the high cast iron fire chamber, the large register grate with indicator on ash door frame, the deep ash pit, the large smoke guard inside of front feed door which prevents smoke from pouring into room when feeding fuel, and the large opening in the top with lid and swing top turned to one side.

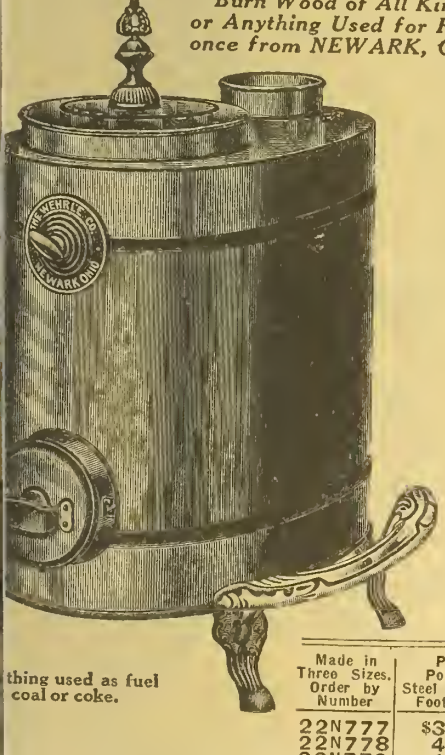
Sheet Steel Airtight Heaters With Hot Blast Down Draft



Burn Wood of All Kinds, Knots, Leaves, Hay, Cobs, Peat, Cornstalks, Brush, Trash or Anything Used for Fuel Except Coal or Coke. Strongly crated, ready to ship at once from NEWARK, OHIO, or our CHICAGO store. We guarantee safe delivery.

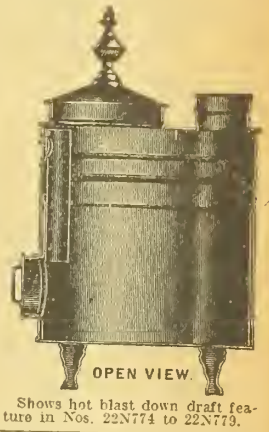
MADE OF GOOD MATERIAL, with heavy, durable lining. A thoroughly practical wood burning stove in every way. Holds fire all night.

THE HOT BLAST DOWN DRAFT heats the air before it reaches the fuel and causes the fire to burn clearly and steadily.

BODY is made of two grades of material, either of good quality smooth steel, or polished steel that requires no blackening, as priced below. Has nickel plated urn.

INSIDE STEEL LINING extends up 12 inches from the bottom. DRAFT REGISTER can be closed airtight and the cover to ash opening can be securely locked by simply turning cover. Very desirable features.

All sizes take 6-inch stovepipe.



Shows hot blast down draft feature in Nos. 22N774 to 22N779.

PRICES, MADE OF GOOD QUALITY SMOOTH STEEL. Can be furnished with or without nickel plated foot rails.

Made in Three Sizes. Order by Number	Price, Steel Smooth Without Foot Rails	Price, Steel Smooth With Foot Rails	Height Floor to Urn Top, Inches	Length, Inches	Width, Inches	Height of Body, Inches	Size of Feed Opening, Inches	Size of Ash Opening, Inches	Shipping Weight, About, Pounds

22N779	4.50	5.45	37	29¼	16¾	23¾	12½	6½	48

tove illustrated at right is the smallest and lowest priced sheet steel airtight heater we make. It is made of good and by the same skilled workmen that make our higher priced stoves. While it is small it is serviceable and suitable for small rooms. It is a direct draft stove, taking in the draft at the ash opening. Has oval steel not lined on the inside like our better airtights shown above. Smallest size, No. 22N780, has three legs, the two es have four legs.

this airtight heater is a good value for the money, it is small size and for that reason we always recommend Blast Airtight Inner Lined Heaters, No. 22N774 at $2.95 to No. 22N779 at $5.45, shown above.

These Gas Heaters Are Extra Large and Will Heat Two or More Rooms

Nos. 22N858 to 22N860

These are our best gas heaters and we are sure they are good enough for any home. We have given particular attention to making these heaters neat and attractive in appearance and durable in construction. The parts are carefully fitted and securely bolted. If you use gas for heating you will make no mistake by buying one of these fine stoves.

The body is made of good quality polished steel. The top, base and front frame are strong cast iron. A cast iron flame plate protects the steel body from the intense heat of the flame.

The nickel plated parts are neat and plain, highly polished, and make the stoves very attractive.

Fire Chamber has a very powerful burner. Basket grate is filled with patent gas fuel that glows like live coals when heated. Large mica surface radiates the cheerful firelight into every part of the room. Nickel plated wheel style valve and adjustable air mixer make it easy to regulate the burner to any amount of heat needed.

Both styles are made in three sizes, blackened and polished ready to set up and use.

We guarantee safe delivery and ship at once from our foundry at NEWARK, OHIO, only.

Be sure to tell us in your order whether you burn natural or manufactured gas. These stoves will not burn gasoline gas or acetylene gas.

This Gas Heater Will Heat a Two-Car Garage and Prevent Freezing

Burns Natural or Manufactured Gas.

Will Not Burn Gasoline Gas or Acetylene Gas.

Use your automobile the year around. Don't store it. Many automobile owners have had to store their cars in Winter because they have been unable to get a garage heater at a low price and that will cost only a trifle to keep running all Wiuter long. This gas burning Garage Heater just fills the bill for these car owners. It is being used by a great many auto owuers, and the buyers are enthusiastic over its merits and the small amount of gas it uses.

The operating cost is very low. You can keep this heater running day and night at a very small cost. When you figure that with this heater you can keep your garage warm in even the coldest weather, enabling you to keep your car always ready for use, you will realize that the expense is very little compared to the convenience it gives.

The construction is such that all air entering the heater must come from outside the building. This arrangement absolutely prevents any possibility of auto gas coming in contact with the gas flame. **Air supply pipe,** 22 inches long, is furnished. Made to extend through an opening iu side of building and supply air to buruer.

This heater is made with a 6-inch hot air flue through center, extending from bottom to top. Takes cold air from the floor and passes it out very hot from the top, produciug a constant circulation of heated air. With this feature the building is heated evenly throughout.

Body is made of steel, with cast iron top and bottom.

Gas burner is large and will give a great amount of heat. Gas can be regulated to produce just the heat wauted, according to weather conditions and size of building. Height of flame can always be seen through mica light on side of heater.

Measurements. Diameter of body, 12 inches. Total height of heater, 43 inches. Diameter of air supply pipe, 5 inches. Gas connection, ¾ inch. Size stovepipe, 5 inches. Shipping weight, about 75 pounds.

Blackened and polished, ready to set up and use.

We guarantee safe delivery and ship at once from our CHICAGO store or NEWARK, OHIO.

No. 22N857 Gas Burning Garage Heater. Price..**$10.95**

Every Inch Radiates Heat

The Flue Construction is such that the heat must circulate around through the entire stove before reaching the five pipe, which gives it an unusual amount of radiation.

Body is made of heavy gauge polished steel and needs no blackening. Front door frame, top, bottom and legs are made of cast iron.

Plain Smooth Nickel Plated Parts give this heater a very attractive appearance. Will not tarnish nor discolor.

Main Top is fitted with two lids, suitable for heating water, light cooking or other purposes.

Two Mica Doors. The bright glow of the flame radiates out into the room through the large mica lights, giving a pleasant and cozy appearance.

Basket Grate is filled with patent gas fuel that looks like live coals when heated. Cast iron flame guard behind grato protects steel body of stovo from the intenso heat.

Oval Shape Cast Iron Burner has 94 jets of flame, giving an immense amount of heat. Gas connection takes ½-inch iron pipe.

Be sure to state the kind of gas you burn. This stove will not burn acetylene gas or gasoline gas.

Blackened and polished, ready to set up and use. We guarantee safe delivery and ship at once from our foundry at NEWARK, OHIO, only.

Quick Heating Reflector Gas Heaters With Wire Flame Guards

These reflector heaters are suitable in the different sizes for large and small rooms. They take up little space, but will heat good size rooms with very little gas.

The body is strongly made of steel, plain and neat. Front and side reflectors are corrugated polished copper that reflects the firelight throughout the room. Front wire flame guards prevent clothing or anything else coming too close to the flame.

Burner gives lots of heat. Controlled by lever valve. Gas connection takes ¼-inch iron pipe or gas tubing. Gas tubing is listed on page 1243. Flue collar on back takes 3-inch stovepipe.

Made in three sizes. Be sure to notice measurements carefully and order a heater large enough to properly heat your room.

Burn manufactured or natural gas. Will not burn acetylene nor gasoline gas.

We guarantee safe delivery and ship at once from Our CHICAGO Store or NEWARK, OHIO.

Attractive Open Front Gas Heater

A Great Heat Producer.

Body is made of polished steel with ornamental cast iron front frame. The inner side walls, bottom reflector and fender are polished copper fiuish and reflect the bright firelight into the room. Burners produce an intense heat. Back flame plate is covered with flake asbestos.

Made in three sizes to heat small or large rooms. Burns manufactured or natural gas. Will not burn acetylene gas nor gasoline gas. Has connection for gas tubing or ⅛-inch iron pipe. Gas tubing is listed on page 1243.

We guarantee safe delivery and ship at once from Our CHICAGO Store or NEWARK, OHIO.

Gas Heater With Mica Front

Burns Natural Gas Only.

This is an especially attractive gas heater for your home because the large mica front radiates the bright firelight into the room and makes it cozy and pleasant. When burning, this heater looks very much like a small fire place.

Body is made of good quality steel with nickel plated cast iron front. Back and sides are lined with flake asbestos. Steel burner gives intense heat. Valve connection takes gas tubing or ⅛-inch iron pipe. Gas tubing is listed on page 1243.

Made in one size only. We guarantee safe delivery and ship at once from Our CHICAGO Store or NEWARK, OHIO.

Why Not Be Comfortable?

Is your home like either of those shown above in their comfortable warmth? Is there actual SUMMER in every room in your house throughout the long Winter months? Are the floors nice and warm for the children to play on? Is your bathroom warm and comfortable? Are there no cold corners, especially near windows? Can you sit comfortably for any length of time in every room in the house? It does not cost a fortune to have all this. You can have it with either a Hercules Hot Water, Steam or Warm Air Heating System. The price is within your means.

You Are Buying Service

Has it ever occurred to you that what you really buy in a heating plant (as in most other things) is SERVICE? You are interested in the material from which the plant is made, and the design, only in so far as these affect the service the plant will give. Our Hercules Heating Plants include a large enough boiler or furnace and the proper size radiators or registers—in other words, sufficient heating capacity to comfortably warm every nook and corner of your home during the coldest weather. These plants will give you this service, not for one season alone, but for a lifetime. This is guaranteed to you by a plain, straightforward guarantee. This guarantee includes an offer to take back the entire plant any time within two years if unsatisfactory for any reason whatever. In other words, a Hercules is a reliable, guaranteed system that will furnish plenty of heat in your home for years to come.

Five Big Advantages

You may not have thought of the five big advantages of a Hercules Hot Water or Steam Heating Plant. They are:

(1) **Comfort**—Because every nook and corner of your home is heated to the same even degree of warmth.

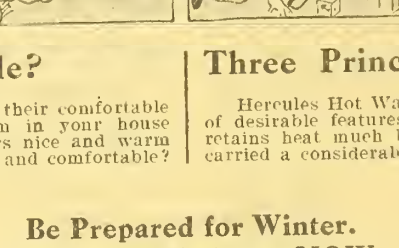
(2) **Healthfulness**—Because there are no cold drafts traveling across the floors. All the air in the house is heated to the same comfortable temperature.

(3) **Cleanliness**—No dust, soot or ashes in the living rooms—how different from the ordinary method of heating.

(4) **Economy**—Least cost for fuel—water, steam and warm air are the best means known for carrying heat from the fire to the different rooms. Because of their ample capacity, Hercules Plants need not be forced during extremely cold weather.

(5) **Simplicity**—Simple in construction, easy to operate.

Be Prepared for Winter. Send for an Estimate NOW.



Windows and Outside Doors

A 4ft by 2ft 6in
B 3ft by 2ft 6in.
C 3ft by 7ft.

Height of Ceilings

Basement 7ft 0in
First Floor 8ft 10in
Second Floor 8ft. 10in

Send us rough drawings like the above of your basement, first floor and any other floors. Give the dimensions of each room, the heights of the ceilings, the location and size of doors, windows, stairways and chimneys. Mark where you would like to place furnace or boiler, registers or radiators (or you can leave this to us). Also tell us what kind of heating you prefer. We will then give you an itemized estimate of the material necessary. And we will guarantee the system to give perfect satisfaction when installed. **Find out what it will cost.**

Three Principal Modern Heating Syster

Hercules Hot Water and Steam Plants possess in common a num of desirable features. Both use water as the carrier of heat. Wa retains heat much better than air—does not lose it as readily w carried a considerable distance. Hot water or steam plants are, th fore, better than warm air furnaces for la houses and other buildings of considerable s

In a hot water system the water in the boi heated by the fire, rises to the radiators wh it gives up its heat and then returns thro the return pipes to the boiler again. The rea for this circulation of the water is that water is lighter than cold water. The hot w in the boiler is forced out and upward by cooler, heavier water coming down from ab

In the operation of a steam heating sys the steam from the boiling water in the bo rises through the pipes to the radiators. Th on giving up its heat, it is condensed to wa again and flows back through the return pip the lower part of the boiler.

Hot water heating is recommended for buildings where a steady, easily controlled h is required day after day. The heat is ea regulated from merely warm to extremely Steam has the advantage that quicker, n intense heat can be obtained, and the heat be carried longer distances. Steam heat is alm universally used in tall city skyscrap churches and public buildings.

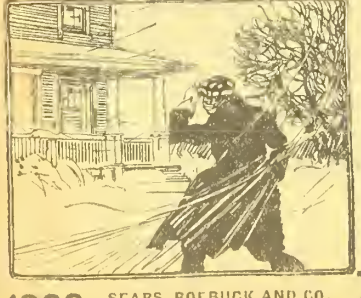
The Advantages of Warm A Heating

The principles and action of warm air h ing are very simple. Air is heated in the up part of the furnace and rises through the p to the rooms above. It continues to rise w hot, and then as it cools begins to drop ag since cold air is heavier than warm air. cooled air is conducted through a return register and passage back to the furnace wh it is reheated and again rises.

A very important advantage of the circula afforded by our system is its healthfuln Scientists have proved that if the air i building is kept in motion it will continue for breathing purposes much longer than w there is no circulation, even if no fresh ai permitted to enter.

Warm air heating systems are particul recommended for churches, halls and ot buildings of only one or two floors, where i usually necessary to heat up quickly and t oughly for a few hours and then the fire is allowed to go out. private homes, where the furnace can be located in the center and w it is not necessary to run very long pipes; where, furthermore, there only two or three floors to heat, a warm air plant gives excellent res when installed according to the plans we will furnish.

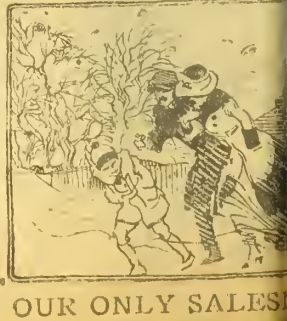
Easily Installed in Old or New Buildings in the City or on the Farm



Any of our Hercules Heating Systems can be installed in an old building almost as easily as in a new building. The pipes of a hot water or steam system, if left exposed, can be painted or bronzed to match the walls, making them hardly noticeable. With these systems it is not necessary to have city water pressure, as the plant can be filled with a pail and funnel. After it is in use one or two buckets of water is all that it will need during the entire Winter.

Warm air plants cost less than hot water or steam plants. The registers take up less space in the rooms than the radiators of the other plants. The continuous circulation of the air in the rooms and the fact that this air is constantly being mixed with fresh air coming in through the doors and windows is an advantage that cannot be overlooked.

We leave the choice to you. If installed according to our plans, drawn specially for your building, we guarantee satisfactory results with any of the three systems.



WE HAVE NO AGENTS. OUR CATALOGS ARE OUR ONLY SALES

YOU can enjoy all the comforts of an evenly, thoroughly heated home this Winter by installing a pipeless furnace. All the coal, dust and ashes are left in the basement. Only the delightful warmth of the heated air is distributed throughout your home.

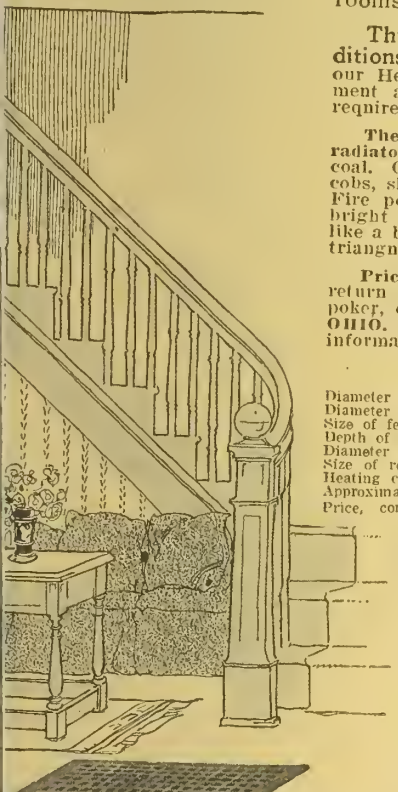
A pipeless furnace is especially adapted for heating bungalows or residences where there are large openings between the rooms and open stairways leading to the second floor. Also for heating churches, schools, halls and store buildings where the air can move freely from one end of the building to the other.

Pipeless Furnaces

The warm air rises from the register in the floor at the top of the furnace and is distributed throughout the different rooms. When it has given up its heat, it settles to the floor and travels back to the furnace.

The saving in buying a pipeless furnace is evident. It gives thoroughly satisfactory service if the conditions are right. The principle of continuous circulation of the air is most healthful. Our Hummer and Hercules Pipeless Furnaces are easy to set up and take little time to install.

If you have no basement or cellar under your home, just dig out a pit where the furnace is to stand, about 6 or 8 feet square and 6 feet high. This is ample space, and a floor of concrete or bricks will make a good foundation for the furnace to stand upon.



Hummer Pipeless Furnace

for Soft Coal or Wood Only.

Takes the cold air in at the side near the bottom of the furnace. Furnished with galvanized iron return air shoe and wood cold air grating, but without return air duct. Cold air can be taken in from the basement, or by making a return air duct of tight fitting boards the return air will be taken from the rooms above and all basement air, dust and ashes excluded.

This furnace has given excellent results under many conditions. However, the construction is not as good as that of our Hercules Pipeless Furnace shown below. To keep out the basement air build the return air shaft above mentioned. This is not reqnired with our Hercules Pipeless.

The Hummer Pipeless Furnace has an all cast iron fire pot and steel radiator. Feed door is especially large to take big chunks of wood or coal. Combustion chamber is likewise large and roomy. Will burn cobs, slack, stumps, knots—any kind of fuel except hard coal or coke. Fire pot is heavily corrugated. Casing has asbestos felt lining and bright tin reflector. Radiator of heavy cold rolled steel plate, riveted like a boiler with cast iron top and cast lower ring. Deep ash pit and triangnlar revolving grates.

Prices are for furnace complete with casing, black japanned register, return air shoe, oak grating for cold air return duct, shaker handle, poker, dampers, damper pulleys and cement. **Shipped from factory in OHIO.** Be sure to give height from basement floor to first floor; also information asked in section below the illustration.

Read This Before Ordering.

Information We Must Have Before Filling Your Order for a Pipeless Furnace.

For your own protection, we require the following information when you send in your order: Rough drawings of your first and second floor, if there is one, giving dimensions of the rooms and the position and size of all doors or other openings between the rooms. Show where you will place the furnace in the basement and give height from basement floor to floor level of first floor. This information will enable us to decide whether a pipeless furnace will be suitable to your needs.

Hercules Pipeless Furnace

The combination cold and hot air register at the top of this furnace takes the place of the return air duct necessary to build when using the Hummer Furnace described above. The heated air rises through the center part of the register into the room above and circulates where possible, going through doorways and other openings into the different rooms, continuing to rise while warm, falling again as it grows cooler. As it cools it gradually drops down to the big register, passes through the outer rim into the space between the inner and outer casing and down to the bottom of the furnace, where it is reheated and driven up again into the rooms.

The Hercules Pipeless is so constructed that there is a continual air circulation through it. The cool air is constantly being reheated and distributed throughout the building. This furnace will give you satisfactory service for many years.

The furnace is all cast iron with double lined inner casing. Fire pot made in two sections, heavily corrugated and with deep cup joints. Casing has asbestos felt lining and bright tin reflector, saving heat. Deep ash pit and four revolving grate bars. Black japanned register.

Prices are for furnace complete with register, casing, shaker handle, poker, check draft, chains, pulleys, damper chain plate and cement. **Shipped direct from factory in OHIO.**

Be sure to give height from basement floor to first floor; also the information called for in paragraph at right headed "Read This Before Ordering."

	No. 42N2255⅓	No. 42N2256⅓	No. 42N2257⅓

Hot Water Coil for Hercules Furnace, $2.00 extra. If wanted with Gas Burner in addition to coal grate, write for prices.

Combination Floor and Ceiling Register and Ventilator.

$2.75 8x10 Inches.

Carries excess heat from room below to heat room above. Consists of a black floor register with valves, a white ceiling plate and an adjustable sheet metal box connecting the two. Easily and quickly put into position: just cut hole in floor and ceiling, place register and ceiling plate in position and hook the two coil springs that hold them together. Adjustable to fit any floor or ceiling from 7 to 12 inches apart. State size wanted.

No. 42N2212¼

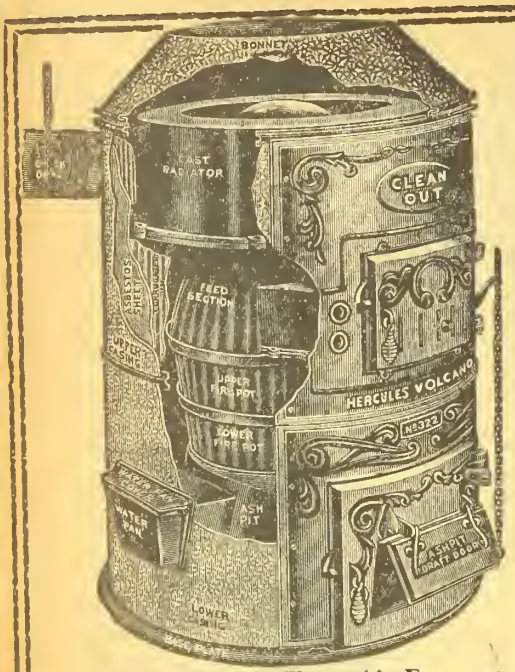
Modern



Hercules Volcano Warm Air Furnaces.

They burn any kind of fuel.

Furnace is made of cast iron throughout. Casing is galvanized sheet steel. Illustration above shows construction. Circular cast iron radiator has divided fire travel and perfect tongue and groove gastight joint. Fire pot made in two sections, heavily corrugated and with deep cup joints. Upper casing has asbestos felt lining and bright tin reflector, preventing loss of heat in basement. Deep ash pit and four triangular revolving grate bars.

Prices, complete with casing, shaker handle, poker, check draft, chains, pulleys, regulator plate and cement, but with no pipes of any kind or collars or other fittings. Shipped direct from foundry in OHIO.

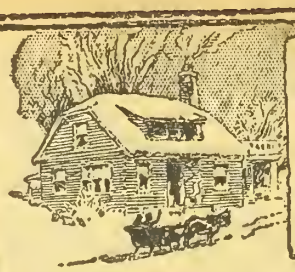
They burn hard coal or coke.

Hercules Tropic Furnaces are the same construction as the Hercules Volcano, except that radiator has steel sides instead of cast iron and a full circle fire travel. See illustration above. **Shipped direct from foundry in OHIO.**



Let a Hercules Heat Regulator Tend Your Fire.

Fix your fire in the morning, set the regulator for the temperature you wish and leave your furnace or boiler in charge of the regulator. Automatically works the check and draft dampers so as to keep the same even temperature in your home at all times. Clock attachment will open draft damper early in morning at any hour set, livening fire and warming house comfortably before you get up. Easy to install. We send full directions.

The Hercules Heat Regulator No. 42N2065¼ consists of a thermostat (also known as a mechanical thermometer), a motor and two dry batteries, complete with copper wire cable, pulleys, chain, etc., all ready to attach to your heating system.

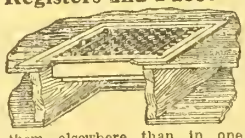
Outfit No. 42N2066¼ is the same as No. 42N2065¼, with the addition of the clock attachment.

Shipped from our CHICAGO store. Shipping weight, about 27 pounds.

No. 42N2065¼ Without clock attachment. Price.....$18.70

No. 42N2066¼ Complete with clock attachment, as illustrated. Price.$23.70

Registers and Faces for Floor and Ceiling.



When we quote prices on a complete Warm Air Heating Plant, as explained on page 1266, we include all necessary registers, borders and faces. We list registers, borders and faces here for the convenience of customers who desire to use them elsewhere than in one of our complete heating plants. These registers and faces are used largely for ventilators and in ceilings over stoves to warm rooms on the second floor. Borders are not necessary with white faces when placed in ceiling or wall. Wall registers and furnace pipe and fittings are listed in our Modern Heating Catalog.

Asbestos Furnace Cement.

The well known old reliable plastic asbestos furnace cement. When heated becomes almost as hard as the iron on which it is used. It makes the joints in a furnace gas and smoke tight. It is often possible to patch up a cracked fire pot with this cement so as to make it last a season or two longer.

No. 42N2206 10-lb. cans. Price, per can.....65c
No. 42N2207 5-lb. cans. Price, per can.....35c
No. 42N2208 2-lb. cans. Price, per can.....20c

We include plenty of this cement with all our furnaces at no extra charge.

Asbestos Paper and Paste.

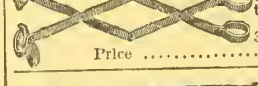
Asbestos Paper. Used for wrapping furnace pipes. About ⅛ inch thick. Comes in rolls 36 inches wide.

No. 42N2202 100-yd. roll. Wt., abt. 104 lbs.$16.55
No. 42N2203 50-yard roll. Wt., about 52 lbs. 8.30
No. 42N2204 25-yard roll. Wt., about 26 lbs. 4.20
No. 42N2209 Less than 25-yard roll. Yard. .25

Asbestos Paste for applying asbestos paper to furnace pipes and asbestos or wool felt covering to steam and water pipes. Simply mix with cold water.

No. 42N2205 Asbestos Paste. Price, per 2½-lb. package 30c

Hercules Clinker Tongs.



No. 42N2003 Picks clinkers, stones or slate out of fire pot without disturbing fire. Shipping weight, about 3½ pounds.

Price $1.10

No. 42N2004¼ Simplex Clinker Tongs. Grip the clinkers like an ice tongs. Made of iron with wood hand grip. Length, about 4 feet. Shipping weight, about 4 pounds.

Price $1.25

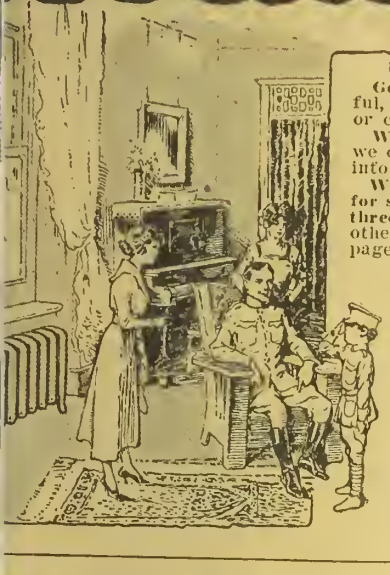
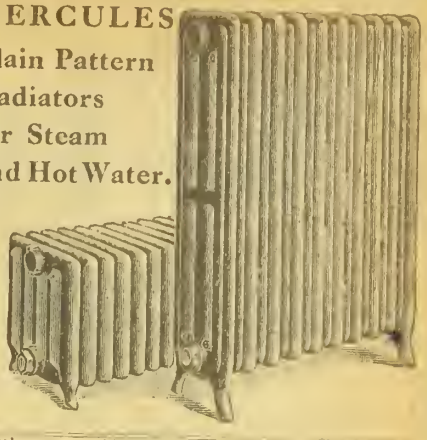
Heating



HERCULES Plain Pattern Radiators for Steam and Hot Water.



Hercules Is Our Own Trade Mark, Registered in U. S. Patent Office.

Good quality cast iron, properly machined and tested. Graceful, plain design. The smooth flat surfaces, leaving no hollows or corners for dust and dirt, appeal to the good housekeeper.

While only three and five-column radiators are listed below, we can also furnish single and two-column radiators. For full information, write for our Modern Heating Systems Catalog.

When ordering be sure to state whether radiators are wanted for steam or hot water, number of sections, height and whether three or five-column. Also state size and positions of tappings, otherwise tappings will be as below. Pipe will be found on page 1606.

STEAM RADIATORS ARE TAPPED AS FOLLOWS, UNLESS OTHERWISE REQUESTED.

Up to 24 feet....1 -inch supply
24 ft. to 50 ft..1¼-inch supply
50 feet to 100 ft..1½-inch supply
Over 100 feet....2 -inch supply

HOT WATER RADIATORS ARE TAPPED AS FOLLOWS, UNLESS OTHERWISE REQUESTED.

Up to 50 ft. 1 -in. feed and return
50 to 75 ft. 1¼-in. feed and return
Over 75 ft. 1½-in. feed and return

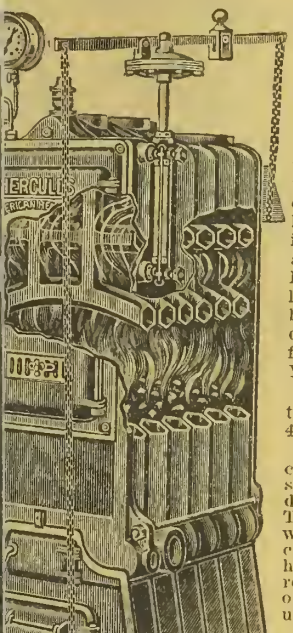
Shipped from factory in WESTERN NEW YORK. Prices subject to market changes.



HERCULES IMPROVED SECTIONAL BOILERS range in capacity from 300 to 1,750 square feet hot water radiation and 150 to 1,050 square feet steam radiation. Have all the advantages of the round boiler—compact fire pot and simple construction, while they also have the superior advantages of the sectional boiler—long fire travel, increased heating surface and correct proportions between grate and heating surfaces. Fire pot deep, holding enough coal to maintain proper amount of heat for twelve hours. Each boiler thoroughly tested before leaving factory. Dimensions shown below may vary slightly. Read further description below. All boilers shipped from factory in WESTERN NEW YORK.

The illustration at the left shows the internal construction of No. 42N2024⅓ and No. 42N2025⅓ Boilers.

Our Steam Boilers are furnished complete with all steam trimmings, such as pressure gauge, water gauge, damper regulator and safety valve. These are not necessary with hot water boilers. All boilers are furnished complete with firing tools, including hoe, poker, rake and flue brush with rod. All boilers tapped for inlet and outlet pipes, altitude gauge and thermometer.

Nos. 42N2022⅓ to 42N2025⅓ Boilers are made up and shipped in two parts; base and grates in one, sections in other. Can be taken through openings as small as 26x36 inches.

Nos. 42N2026⅓ and 42N2027⅓ Boil- not shipped with the sections put together as they would be too) handle if shipped that way. The sections are separate and all gs are packed in a box. These boilers are of the double fire travel which adds much to their efficiency.

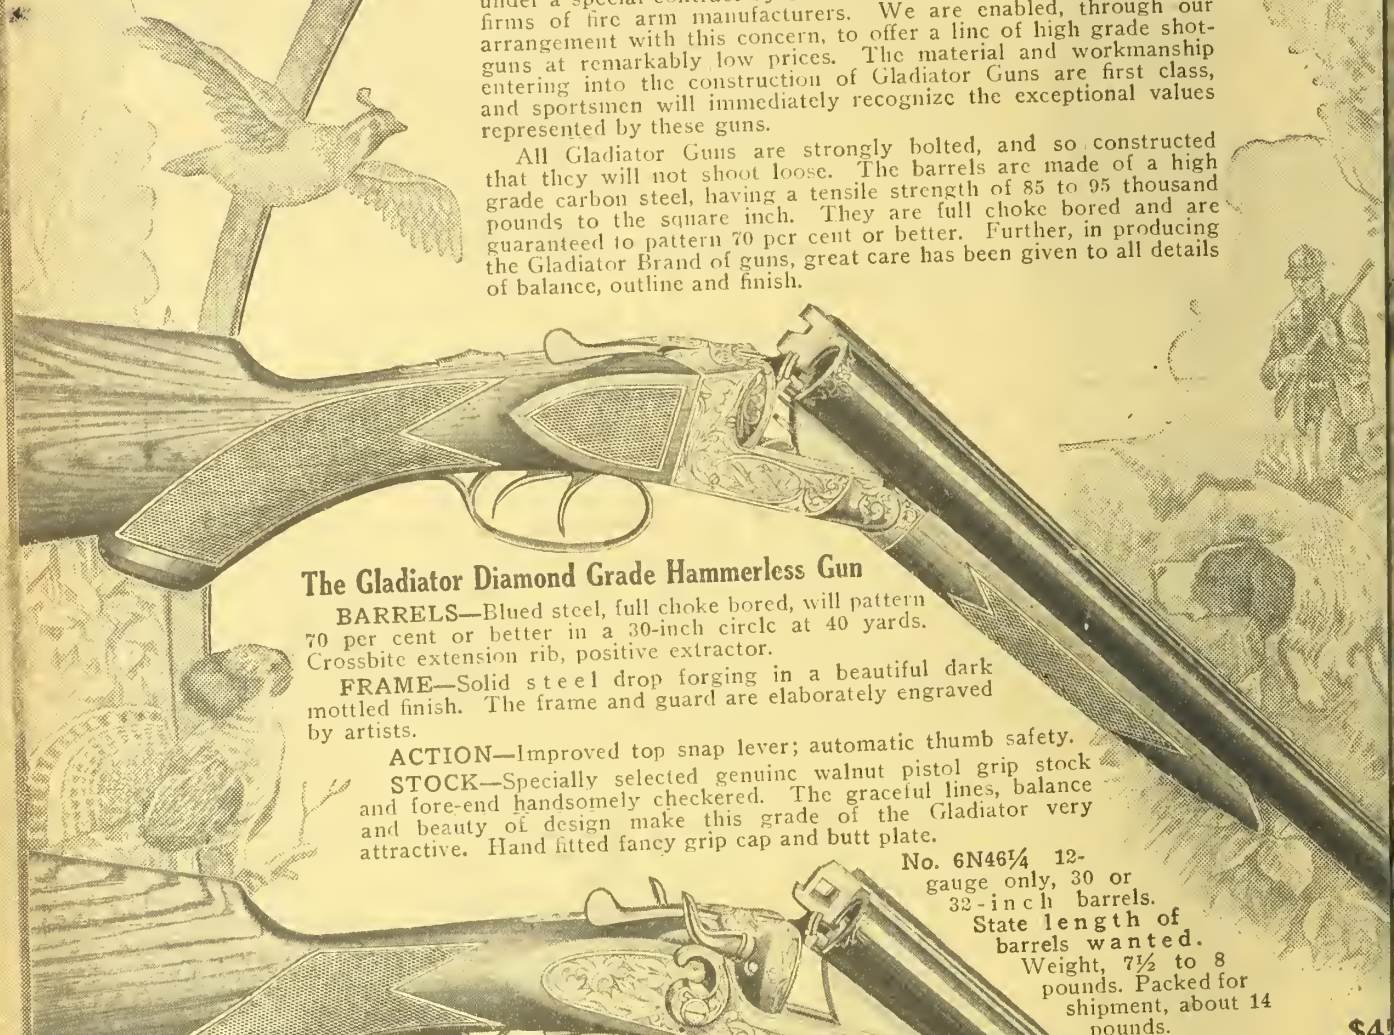
Gladiator

The factory at Meriden where the well known Meriden Fire Arms were made has discontinued the manufacture of sporting fire arms.

The Gladiator Brand, here illustrated, is manufactured for us under a special contract by one of the most widely known Eastern firms of fire arm manufacturers. We are enabled, through our arrangement with this concern, to offer a line of high grade shot-guns at remarkably low prices. The material and workmanship entering into the construction of Gladiator Guns are first class, and sportsmen will immediately recognize the exceptional values represented by these guns.

All Gladiator Guns are strongly bolted, and so constructed that they will not shoot loose. The barrels are made of a high grade carbon steel, having a tensile strength of 85 to 95 thousand pounds to the square inch. They are full choke bored and are guaranteed to pattern 70 per cent or better. Further, in producing the Gladiator Brand of guns, great care has been given to all details of balance, outline and finish.



The Gladiator Diamond Grade Hammerless Gun

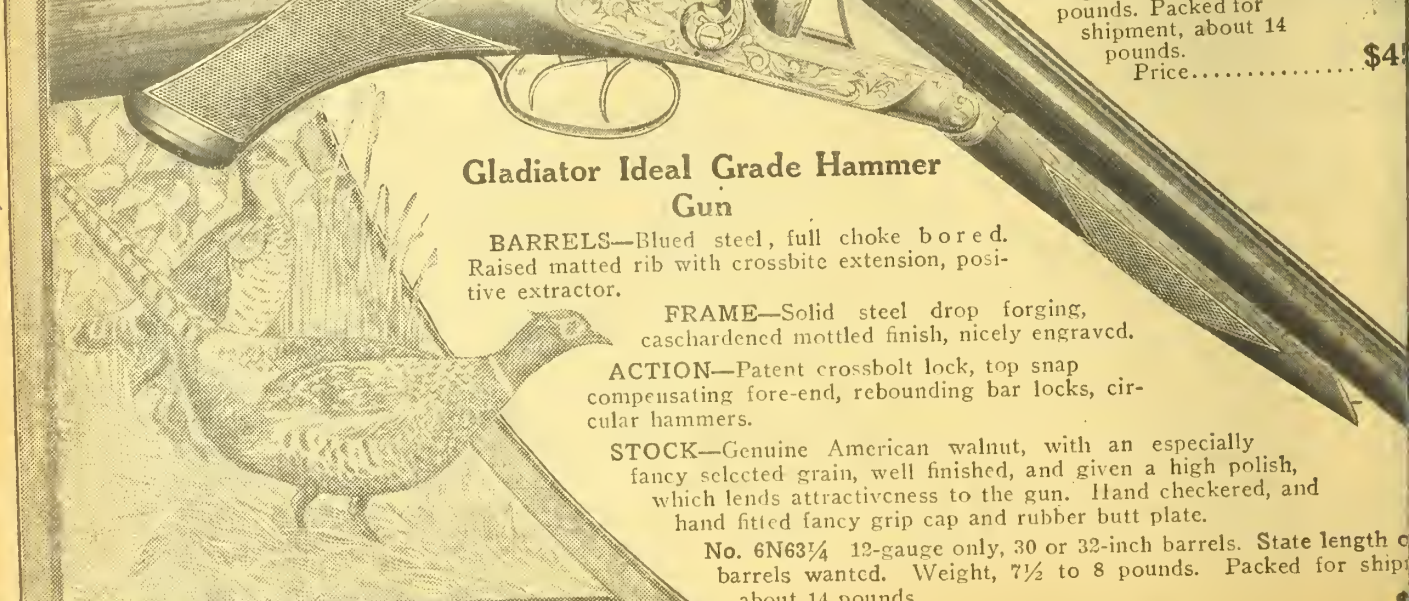
BARRELS—Blued steel, full choke bored, will pattern 70 per cent or better in a 30-inch circle at 40 yards. Crossbite extension rib, positive extractor.

FRAME—Solid steel drop forging in a beautiful dark mottled finish. The frame and guard are elaborately engraved by artists.

ACTION—Improved top snap lever; automatic thumb safety.

STOCK—Specially selected genuine walnut pistol grip stock and fore-end handsomely checkered. The graceful lines, balance and beauty of design make this grade of the Gladiator very attractive. Hand fitted fancy grip cap and butt plate.

No. 6N46¼ 12-gauge only, 30 or 32-inch barrels. **State length of barrels wanted.** Weight, 7½ to 8 pounds. Packed for shipment, about 14 pounds.
Price..... **$4**



Gladiator Ideal Grade Hammer Gun

BARRELS—Blued steel, full choke bored. Raised matted rib with crossbite extension, positive extractor.

FRAME—Solid steel drop forging, caschardened mottled finish, nicely engraved.

ACTION—Patent crossbolt lock, top snap compensating fore-end, rebounding bar locks, circular hammers.

STOCK—Genuine American walnut, with an especially fancy selected grain, well finished, and given a high polish, which lends attractiveness to the gun. Hand checkered, and hand fitted fancy grip cap and rubber butt plate.

No. 6N63¼ 12-gauge only, 30 or 32-inch barrels. **State length o** barrels wanted. Weight, 7½ to 8 pounds. Packed for ship about 14 pounds.
Price..... **$**

Shotguns

The Gladiator Field Grade Hammerless Gun

BARRELS—Blued steel, full choke bored. Fitted with an extension rib with crossbite. Positive extractor.

FRAME—Steel drop forging, casehardened, mottled finish, coil mainspring.

ACTION—Top lever, patent safety slide.

STOCK—Genuine walnut. Pistol grip and fore-end nicely checkered. Rubber butt plate. State length of barrels wanted.

No. 6N40¼ 12-gauge, 30 or 32 inch barrels. Weight, 7½ to 8 pounds. Packed for shipment, about 14 pounds. Price..... **$24.45**

No. 6N41¼ 16-gauge, 28 or 30-inch barrels. Weight, 7 to 7½ pounds. Packed for shipment, about 13 pounds. Price..... **24.55**

Keep the Barrels Clean

Every fire arm should be properly cleaned after using. No gun should be set a after using without the barrels being thoroughly wiped out and oiled with a good sp or gun oil. Also keep the barrels at all times free from lead. Often the barrels gun will look bright, but are leaded. No leaded barrels can shoot well. To keep barrels free from lead, we recommend the frequent use of the Tomlinson Gun Cle which will remove without injury any lead that may be in the gun barrels.

WINCHESTER MODEL 1892 REPEATER

The Model 1892 Winchester Repeater superseded the old Model 1873. It is, however, an improvement over the original 1873 model. The range varies from 200 to 400 yards, according to caliber. Plain polished walnut stock and fore-end. Steel butt plate, blued steel frame, and 24-inch barrel. Always keep barrel clean and free from lead.

Catalog No.	Caliber	Barrel	Weight	Weight, Packed for Shipment	Shoots Cartridges No.	Number of Shots	Price

WINCHESTER MODEL 1890 REPEATING RIFLE

An old model, but quite popular in some sections. This rifle is fitted with 24-inch blued octagon barrel; adjustable rear sight and sporting front sight. Made in 22-caliber rim fire only, and although we can furnish rifles for two different sizes of 22-caliber rim fire cartridges each style will chamber but one size cartridge. A rifle chambered for 22 short cartridges will not take 22 long or 22 Winchester Special. Always keep the barrel clean and free from lead. We recommend the frequent use of our No. 6N4396 Brass Rifle Brush

Marlin Repeating Arms

The "B" Grade Marlin Shotgun

$31.55

This "B" Grade is a very well known Marlin Gun. Their model No. 19, 12-gauge, is made with high grade steel barrel. Full choke bore; solid steel frame, made with a solid matted top. Magazine holds five shells, besides one in the chamber. The shells are ejected from the side of the frame. Stock and fore-end of selected walnut, nicely hand checkered. This gun can be quickly taken down or assembled; is well suited for all general uses. Length of barrel, 28 or 30 inches. State which is wanted. Weight, 7 pounds; shipping weight, 12 pounds.

No. 6N225¼ Price..... $31.55

The "C" Grade Marlin Shotgun

$38.85

The "C" Grade is similar to the "B" Grade, except that it is more highly finished throughout, having an engraved frame and the stock and fore-end of a specially selected grade of walnut, hand checkered as illustrated. The barrel is made from high grade steel; 12-gauge; 30 inches long. This repeater has a solid steel frame with a solid matted top, affording protection to the shooter by keeping any foreign substance from getting into the mechanism. The shells are ejected from the side. Magazine holds five shells, besides one in the chamber. A gun intended especially for the man who wants a high grade arm. Weight, 7 lbs.; shipping wt., 12 lbs.

No. 6N227¼ Price..... $38.85

Marlin Model 29 Repeating Rifle

This Marlin Model 29 Takedown Rifle is made with a solid top and side ejector. Fitted with a plain round polished steel barrel, 23 inches long. The deep, clean cut rifling on inside of barrel insures great accuracy. The frame is made from a very high grade of steel, nicely blued and highly polished. Fitted with a metal bead front sight and a flat top adjustable rear sight. Stock and fore-end are of genuine walnut. Shoots 22 short, 22 long or 22 long rifle cartridges, black or smokeless powder. An excellent rifle for the money, and one that handles well and is easily cleaned. Our covers Nos. 6N4698 and 6N4716 will fit this rifle. Weight of rifle, about 4½ pounds; shipping weight, 10 pounds.

No. 6N753¼ Price..... $13.95

Marlin Model 1893 Repeating Rifle

The Model 1893 Rifle is made to take the 30-30 caliber cartridges, both black and smokeless. Fitted with nickel steel barrel. Solid top frame with side ejector. Lever action. A very hard shooting, efficient rifle. The mechanism is simple and compact. Always clean your rifle after shooting. It will last longer. A rifle cleaning rod is a good investment. We will fit special sights to rifles at the price of the sights, as given below. Weight, packed for shipment, about 14 lbs.

Catalog No.	Caliber	Style Steel Barrel	Using Cartridges No.	Wt., Lbs.	No. of Shots	Good for Yards	Price

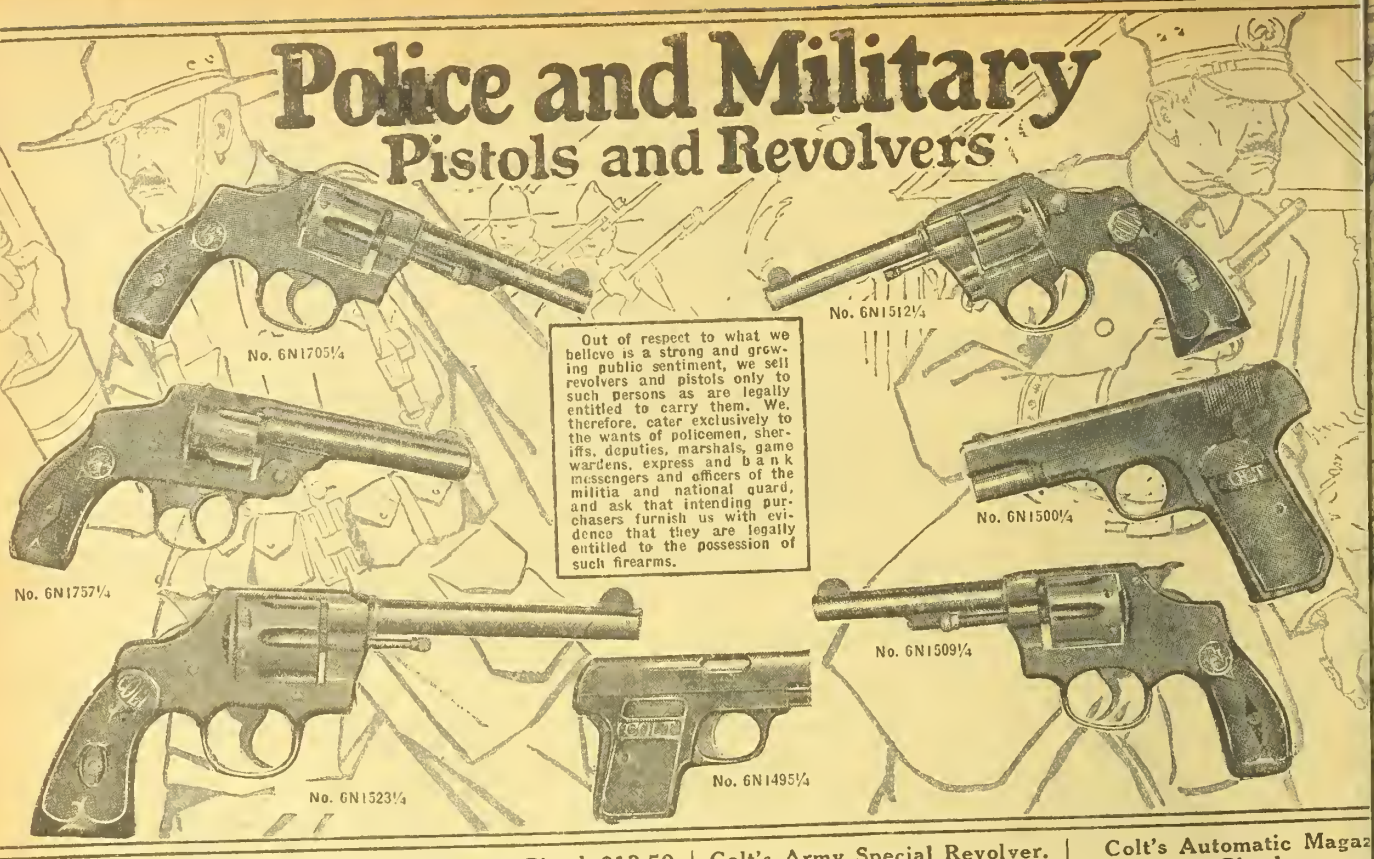
Police and Military
Pistols and Revolvers



Out of respect to what we believe is a strong and growing public sentiment, we sell revolvers and pistols only to such persons as are legally entitled to carry them. We, therefore, cater exclusively to the wants of policemen, sheriffs, deputies, marshals, game wardens, express and bank messengers and officers of the militia and national guard, and ask that intending purchasers furnish us with evidence that they are legally entitled to the possession of such firearms.

Pointer Smokeless Shells

Shells cannot be shipped by parcel post. A good way is to buy in case lots and have them come to you by freight. You then effect a great saving in carrying charges.
See approximate freight charges at bottom of page for case lots.

SHELLS CANNOT BE SHIPPED BY PARCEL POST.

The Long Brass Cup Protects the Shells, Keeps Out Moisture and Makes Them Better, Stronger and Safer.

Guaranteed High Quality in Velocity, Pattern and Penetration.

All Pointer Shells are loaded with a high grade smokeless bulk powder of a hard, clean grain. Pointer Shells are guaranteed to have a maximum penetration with the lowest possible recoil and breech pressure. Primed with a powerful nitro primer set in a gastight battery cup. Instantaneous ignition guaranteed. Loaded by automatic machinery, guaranteeing absolute uniformity. Pointer shells are the ideal shells to use in magazine, double or single guns for trap or field use. Sold exclusively by us. If you buy a case of Pointer Shells and after trying a box of 25 for any reason find them unsatisfactory, return the remaining 475 shells to us at our expense and we will return the price you paid for the entire 500 shells, together with any freight charges you paid.

Case prices on full cases (500) of one load only. We do not furnish other loads than those specified.

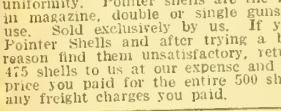
Loaded Black Powder Shotgun Shells

An Excellent Grade. Very Popular With Many Shooters.



Buy by the case. You save in cost price and freight charges.

We guarantee every black powder shell against misfire, hangfire or blowback. We guarantee the maximum penetration and greatest pattern possible with shells of this kind. We use a special black powder of a hard grain. It burns rapidly and leaves very little residue. Case prices on full cases (500) of one load only. A case of 500 shells weighs approximately as follows: 12-gauge, 65 pounds; 10-gauge, 75 pounds; 16-gauge, 53 pounds; 20-gauge, 48 pounds.
Shells cannot be shipped by parcel post.

We handle only fresh ammunition, loaded with dependable grades of powder. Cartridges cannot be sent by parcel post. They must be sent by express or freight.

Our Metallic Ammunition Is Guaranteed as to Penetration, Accuracy and Uniformity.

Our ammunition is of standard construction as regards size, length, diameter, weight of charge and weight of bullet, and will fit any standard fire arm. Especially good results are obtained with our ammunition in such arms as the Meriden, Colt, Smith & Wesson, Winchester, Marlin, Stevens, Remington, Mauser and Luger. We buy from the world's leading manufacturers and are entirely independent of any price fixing association.

Ammunition plays an important part in the history of every nation. It has played a tremendously important part in the World War. Is there anything you want to know about its manufacture? Page 537 opens the door of knowledge.

Hunting Clothing

OUR HUNTING CLOTHING

Is cut over our own patterns, which are full size. The sleeves and armholes of our coats are made to permit the arms to be raised to shooting position without lifting the loaded pockets. All coats made with our combination high roll three-in-one collar. We have made a careful study of all hunting clothing requirements and have embodied in our line every feature necessary to render our garments of greatest service to the hunter and sportsman.

HOW TO MEASURE

When measuring for hunting coat or vest, put tape measure around chest, close up under arms, over shirt. Don't draw tape too tightly. If chest measures 38 inches, size 38 will fit, provided coat or vest is to be worn over regular shirt or flannel shirt; if hunting vest is wanted to wear over regular vest, order size 40; if to wear hunting coat over heavy sweater or other coat, order size 40, etc. Always consider kind of clothing you are going to wear with hunting clothing and order accordingly. For pants, measure around waist, over shirt; take inseam measure of leg from close up in crotch to heel seam of shoe. If to be worn over regular pants, order next larger size waist.

Storm King Hunting Coat.

Blanket lined. Made of very closely woven duck, olive tan shade, and slightly waterproofed; lined with olive khaki color blanket lining. Full lined sleeves with knit yarn wristlets sewed in cuffs. Two large outside shell pockets, two muff pockets, blanket lined and corduroy faced, two inside game pockets with opening from front facing, large corduroy collar. Double stitched. Bull Terrier Spike Collars.

Particularly suited to bull terriers, English bulldogs and short haired dogs of this type. Heavy black harness leather, leather lined. The 13 and 15-inch collars have each a single row of pointed brass spikes, ⅝-inch long, and a double row of ⅜-inch brass studs. The 17-inch collar has a double row of spikes, and a triple row of studs. The 19 and 21-inch collars have a double row of brass spikes, each spike surrounded with a cluster of brass studs, with additional clusters of studs between the spikes. Brass name plates, "D" rings and lock buckles. When ordering give catalog number and size of collar that is nearest to the measurement around your dog's neck.

Catalog No.	Neck Measure	Width of Collar, Inches	Shipping Wt.	Price of Collar

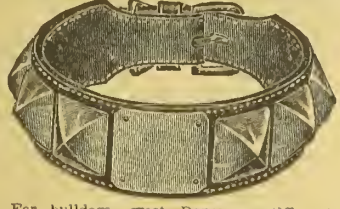
BLANKETS
MUZZLES
LEADS

How to Measure.

Do not measure the old collar, but measure the dog's neck with tape measure, as shown in illustration. Draw the tape measure tight around the dog's neck, as illustrated, and give us the exact measure. The measurements of our collars, given below, are first hole or inside hole measurements, with two extra holes, or 1½ to 2 inches allowance for growing dogs. If your dog's neck measures either 11 or 12 inches, our 11-inch collars will fit; if it measures 13 or 14 inches around neck, our 13-inch collars will fit. This illustration shows a dog's neck measuring 17 inches, in which case our 17-inch collar will fit, with plenty of room for enlarging. Prices on collars do not include locks.

Brass Studded Collars.



For bulldogs, great Danes, mastiffs, etc. Two thicknesses of tanned black grain leather, studded with large, massive looking, pyramid shaped brass studs. Brass plated lock buckle and ring and brass name plate. When ordering give measure of dog's neck and catalog number of the size collar nearest to length wanted.

Luckie Adjustable Telescopic Steel Bait Rod. Latest Model.

Made by the Horton Manufacturing Co. Cork handle, detachable finger hook, genuine large agate first guide and top, with two large nickel silver two-ring casting guides between; nickel plated reel seat and trimmings; butt joint is black enameled, the other three joints blued finish. This rod can be telescoped and used from 2 feet 5 inches to 5 feet 10 inches. Weight, 7 ounces; shipping weight, 1½ lbs.

No. 6N8394 Price.....**$4.20**

Same as above, but with regular nickel silver two-ring guides and three-ring top. Length, 5 feet 10 inches. Weight, 6 ounces; shipping weight, 1½ pounds.

No. 6N8396 Price.....**$2.10**

Same as above, but extending from 3 feet 2 inches to 8½ feet. Weight, 9½ ounces; shipping weight, 1¾ lbs.

No. 6N8397 Price.....**$2.12**

Pocket Combination Fly Rod.

An ideal compact rod to carry in pocket or small grip. The joints are but 13 inches long, made of select split bamboo, closely wound with two colors of silk, fitted with improved snake guides, banded ferrules, nickel plated reel seat below cork grip. You can make a short six-piece rod, 6 feet long, by placing the heavy tip in the fifth joint. By using the light tip you can make a seven-piece rod, 7 feet long. While the joints are short, they do not injure the life and spring of the rod. Shipping weight, 12 ounces.

No. 6N8645 Price.....**$4.48**

Cane Rods, 8 or 9 Feet.

Made of genuine Japanese cane, three joints, nickel plated telescope ferrules, solid reel seat above the grip, black enameled scored grasp, line guides and top for the line. Length, 8 or 9 feet. **State length desired.** Weight, about 13 ounces; shipping weight, 1 pound 13 ounces.

No. 6N8602 Price.....**82c**

Mottled Japanese Bamboo Three-Piece Casting Rod.

Fitted with large Kalamazoo ring guides and tip, full nickel plated mountings throughout, with solid nickel plated reel seat and finger hook, and cord wound grip. Wrapped between the guides, which greatly strengthens the rod and adds to its appearance. Three joints, each 25 inches long; total length, 6 feet. In cloth bag. Weight, about 10 oz.; shipping weight, 1¼ lbs.

No. 6N8605 Price.....**$1.15**

Calcutta Four-Piece Trunk Rod, About 8 Feet Long.

This rod is made of genuine mottled Calcutta cane, nickel plated telescope ferrules, strong line guides end tip, wrapped between guides to strengthen the rod, solid reel seat above the grip, black enameled scored grasp, nickel plated trimmings. Each piece is about 26 inches long; can be carried in a trunk or grip. Put up in neat partitioned cloth bag. Weight, 10 ounces; shipping weight, 1½ pounds.

No. 6N8608 Price.....**$1.18**

Beaver Special Handmade Split Bamboo Bait Rod.

The selection of material, splitting, splicing, tapering, gluing and wrapping are all done by experts. Has three joints, with an extra tip. Reinforced at butt above reel seat with strips of cedar inlaid between the bamboo. Fitted with one genuine agate guide and agate tips, the remaining guides being nickel silver trumpet guides; all very closely wrapped with red and black silk; finished with four coats of waterproof varnish. Fitted with a short natural cork grip. Reel seat, butt cap, ferrules and trumpet guides of nickel silver. Put up on a velvet form. Length of rod, 5½ feet. Weight, 5½ ounces; shipping weight, 1½ pounds.

No. 6N8666 Price.....**$6.90**

Our Nickel Silver Reel, No. 6N8782 listed on page 1292 and this rod make an ideal combination.

Our Climax Split Bamboo Bait Rod, 8 or 9 Feet.

Split end Glued Bamboo Bait Rod. Nickel plated telescope ferrule, guides and tip. Guides are securely wrapped, also extra winding between guides with solid reel seat above the hand, cork grip, nickel plated mountings. Three pieces, with an extra tip. Put up on a wood form in a cloth bag. Length, 8 or 9 feet. **State length.** Weight, 8 ounces; shipping weight, 2⅛ pounds.

No. 6N8630 Price.....**$1.44**

Lancewood Bait Casting Rod.

Three-joint rods with extra tip. Have double shouldered nickel plated telescope ferrules, solid nickel plated reel seat, black enameled scored grasp, spiral wire standing line guides and solid tips. Guides are firmly wrapped, also extra windings between guides to strengthen rod and highly varnished. Length, 8 or 9 feet. **State length.** Weight, about 11 ounces; shipping weight, 1⅞ pounds.

No. 6N8621 Price.....**$1.18**

No. 6N8616 Fly rod as above, with reel seat below grip, 9½ or 10 feet. Price.....**$1.20**

Mottled Japanese Bamboo Four-Piece 14-Foot Rod.

Fourteen feet long, made of genuine Japanese cane, fitted with nickel plated telescope ferrules, solid reel seat above the grip, black enameled scored grasp, line guides and top for line. A good rod to use for shore and pier fishing. Weight, about 1¼ pounds; shipping weight, 2¾ pounds.

No. 6N8604 Price.....**$1.73**

Beaver Hand Split Bamboo Fly Rod, 9½ or 10 Feet Long.

A high grade split Bamboo Fly Rod, handmade by expert rod makers. To give this rod extra strength and beauty we especially had extra strips of ceder inlaid between the bamboo at the butt. The reel seat, butt cap, ferrules and snake guides are all nickel silver. The wrappings are of colored silk closely wound at short intervals. Very lively and strongly built. Has cork grip, three joints with an extra tip. Put up on a handsome green velvet covered wood form with nickel plated cap ends and in a canvas bag. Length, 9½ or 10 feet. **State length desired.** Weight, about 7 ounces; shpg. wt., 2 lbs. 5 oz.

No. 6N8665A Price.....**$5.40**

No. 6N8665B Same as above, fitted with one agate guide and two agate tips. Price.....**$6.90**

The Willownook Split Bamboo Fly Rod, 9½ or 10 Feet.

Solid reel seat below the hand. This rod is made of good grade bamboo, hexagonal in shape, snake guides with close wrappings, extra windings between guides and tip to strengthen rod, full nickel plated telescope ferrules and mountings, cork grasp. Has an extra tip. Mounted on a covered wood form. Length, 9½ or 10 feet. **State length desired.** Weight, 7 oz.; shipping weight 2¼ pounds.

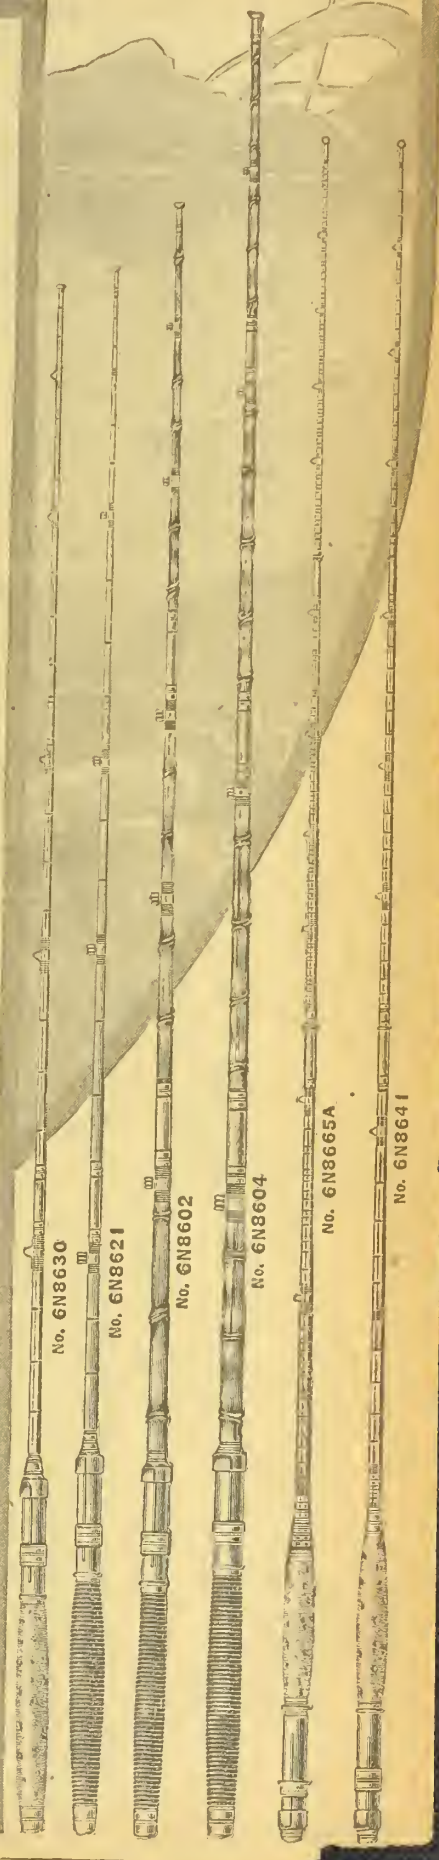
No. 6N8641 Price.....**$2.12**

For Salt Water Rods and Reels, See Page 1296.

Heddon's Dowagiac Rod Case.

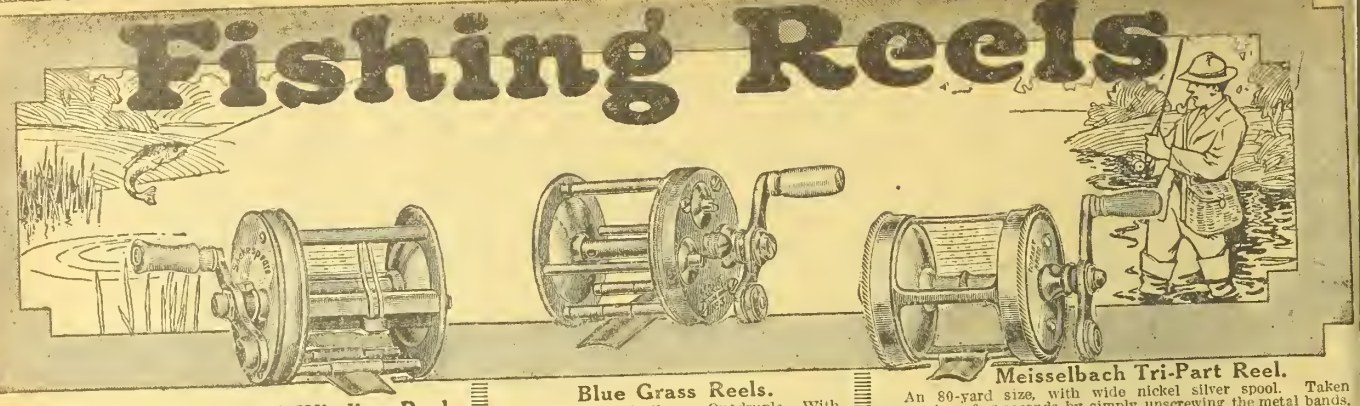
Waterproof leatherette, knurled brass end caps, nickel plated, built over heavy cardboard tube. Length, 36 inches; inside diameter, 1¾ inches. Shipping weight, 1¾ pounds.

No. 6N8644 Price.....**$1.48**



Are you getting the most out of your fishing trips? First hand facts on fish and fishing are easily obtained; they will help you catch more fish, and add enjoyment to your trip. Page 537 of this catalog explains how to get facts.

Fishing Reels



Shakespeare Superior Level Winding Reel.

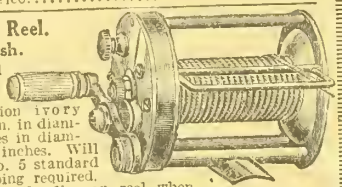
Nickel plated head and tail plates. Spooling device operates on same principle as Marhoff level winding reel. Quadruple. All journals of steel and run in phosphor bronze bushings. Gear is cut from hard drawn brass; pinion of tool steel. Length of pillars, 1¾ inches; diameter of spool, 1½ inches. Capacity, 100 yards. Shipping weight, 14 ounces.

No. 6N8764 Price.....$7.98

Shakespeare Improved Marhoff Level Winding Reel. Hard rubber head, box inlaid with metal; agate jewels, oil caps, double grip handle, click in head plate of reel. Pillars, 1¾ inches; diameter of spool, 1½ inches. Capacity, 100 yards. Packed in sheepskin chamois lined case. Shipping weight, 1 pound 3 ounces.

No. 6N8765 Price.....$15.95

South Bend Casting Reel. Anti-Back Lash.



Quadruple nickel silver, satin finish; solid frame. Balanced crank; imitation ivory grip. End plates, 2 in. in diameter; spool, 1⅞ inches in diameter; spool end, 1½ inches. Will hold 100 yards of No. 5 standard size line. No thumbing required. It automatically stops the line on reel when your bait strikes the water, so you do not get back lashes or snarls. Adjustable to any size bait to give proper tension. Weight, 7 ounces. Shipping weight, 12 ounces.

No. 6N8784 Price.....$7.95

Blue Grass Reels.

Made of nickel silver. Quadruple. With click and drag, two screw off oil caps, large ivory handle, spiral gears and pinions. Diameter of end plate, 2 inches; diameter of spool head, 1½ inches; length of spool, 1⅝ inches. Shipping weight, 14 ounces.

No. 6N8736 80-yard. Plain Oil Caps. No. 3 B. Price.....$14.25

No. 6N8737 80-yard. Jeweled Pivot Bearings, No. 3 J. B. Price.....$19.00

Improved Blue Grass Simplex Reel No. 33

Can take apart without tools. Sliding click, two screw off oil caps. 80-yard size. Known as quadruple. Shpg. wt., 12 oz.

No. 6N8742 Price.....$7.12

Meisselbach Tri-Part Reel.

An 80-yard size, with wide nickel silver spool. Taken apart in a few seconds by simply unscrewing the metal bands. The pivots are turned on the solid steel shaft which extends the entire length of the spool. The bronzed gear wheel is securely braced and bridged. Fitted with a friction cap, which enables the fisherman to regulate the speed of the reel and prevents back lashing. Known as quadruple. Shipping weight, 14 ounces.

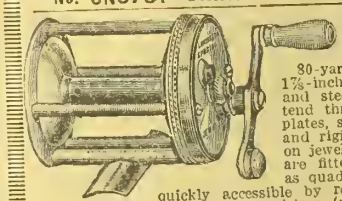
No. 6N8780 Price.....$3.98

Meisselbach Free Spool Tri-Part Reel.

Similar to above, but, when casting, the handle automatically releases and does not turn, thereby giving you a greater casting distance. No fear of back lashing. 80-yard size. Known as quadruple. Shipping wt., 14 ounces.

No. 6N8781 Price.....$5.45

Kentucky Pattern Jeweled Satin Finish Reel.



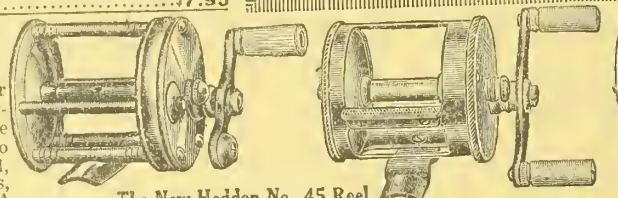
80-yard size, extra wide, 1⅞-inch spool, steel pinion and steel axle. Pillars extend through front and rear plates, securing great strength and rigidity. Steel axle bears on jewels at each end, which are fitted by hand. Known as quadruple. Mechanism is quickly accessible by removing two small screws; small flat steel screwdriver (which can be carried on a key ring) is furnished. Shipping weight, 13 ounces.

No. 6N8767 Price.....$2.80

Genuine Talbot Star Reel.

Made of nickel silver by skilled workmen. 60-yard size. It is quadruple and has a click and two screw off oil caps. Spool, 1⅝ in. long; side plates, 2 inches in diameter. A very well known make of reel which we are able to offer at a low price. Any fisherman buying this reel will be highly pleased with it. Weight, about 7½ ounces. Shipping wt., 12 oz.

No. 6N8766 Price.....$4.75



The New Heddon No. 45 Reel.

Tubular frame, take apart. Frame is one piece of seamless tubing threaded on the interior; has four bars instead of five. The top bar being set forward, gives ample room for thumbing the line and removing back lashes. Gear is one piece of hard drawn brass rod; pinions of Stubbs steel, spiral steel gear. Sliding click, double handle, fitted with thumb rest. Two oil caps. Will hold 140 yards of No. 5 Kingfisher line. Shpg. wt., 13 oz.

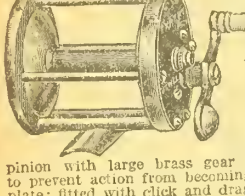
No. 6N8768 Price.....$8.10

Shakespeare Standard Professional Reel.

Combines the merits of Shakespeare Standard and Professional designs. Nickel silver frame takedown pattern, with hard rubber head and tail discs, metal bound. 80-yard size. Known as quadruple. Spool, 1⅞ inches wide. Has two adjustable screw off oil caps set with agates. Weight, 7 ounces. Shipping wt., 10 ounces.

No. 6N8778 Price.....$6.75

Expert Jeweled Reel.

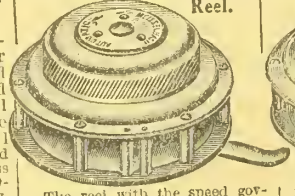


Wide spool pattern. Rubber plates, encased with nickel plated bands, jeweled oil caps, white bone handle; steel pinion with large brass gear wheel securely bridged to prevent action from becoming loose; new style cross plate; fitted with click and drag. Made in 60 and 80-yard sizes. Known as quadruple. Shipping wt., 11 oz.

No. 6N8775 60-yard size. Price.....$2.75

No. 6N8776 80-yard size. Price.....2.90

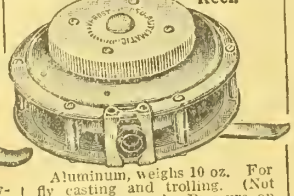
The Meisselbach Automatic Reel.



The reel with the speed governor. Safety winding spring allows spring to be wound up at any time whether the line is in or out. Will not overwind. The speed controlling feature of this reel marks a radical departure. Spools, 3 in. in diameter and ¾ in. wide. Made of nickel silver with aluminum spool. Holds 100 yards of No. 5 line. One winding of the spring will recover 65 feet of line. Wt., 15 oz. Shpg. wt., 1¼ lbs.

No. 6N8755 Price $4.48

Latest Model Kelso Automatic Reel.

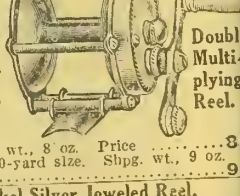


Aluminum, weighs 10 oz. For fly casting and trolling. (Not for bait casting.) Pressure on brake causes reel to take in the line. Handles 75 feet of line. Holds 100 yards of No. 6 or H line. Tension of mainspring is automatically thrown off, which relieves the wear and allows line to unwind. Diameter, 3 in.; width, ¾ in. Shpg. wt., 12 oz.

No. 6N8740 Plain.$3.60

No. 6N8741 Price, with sliding jewel line guide, as shown in illustration...$3.95

Double Multiplying Reel.



Raised pillar, screwed connections nickel plated, with two screw off oil caps and patent adjustable slide drag and back sliding click; polished bearings; wide spool. A very strong value at our price. Holds No. 5 line.

Ringed Fish Hooks. A genuine imported brand. The illustrations to the right represent as nearly as possible the actual sizes of Carlisle, Limerick, Kirby and Cincinnati Bass Hooks. Numbers 2, 2-0, 4-0 and 6-0 are a trifle wider from point to shank than illustrated. The Limerick has a straight shank. The Kirby, Carlisle and Cincinnati Bass have a side bend. The Carlisle has a trifle longer shank. The Limerick, Kirby and Cincinnati Bass have extra large eyes and the Carlisle regular eyes. The Cincinnati Bass is of a bright finish. In ordering give catalog number and size of hook wanted. We do not sell less than 100 hooks of a size.

Trout Flies. We have selected only such flies as we know from experience to be killers. Our flies are exceptional in beauty, quality and workmanship. We do not carry the cheaper quality trout flies.

A Grade, first quality, with Pennell turned eye which prevents the feathers and silk wrappings from becoming loose and whipped off. Hand filed point imported English sneck hook, full silk body with divided wings, and silk tied to first quality selected full length clear round gut. Shipping weight, per dozen, 2 ounces.
Price, per dozen..... 95c
B Grade, a good grade silk body fly, plain wings, well finished, tied to full length clear gut and good quality hook. Shipping weight, per dozen, about 2 ounces.
Price, per dozen..... 48c
NOTICE—When ordering give number of fly, also size of hooks wanted, and state whether A or B grade. We do not sell less than one-half dozen flies nor less than two flies of one kind and size of hook.

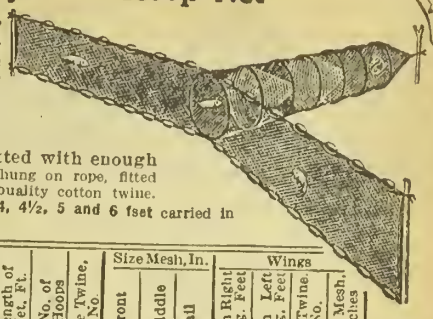
4 inches stretched.

Sizes marked * can be furnished in from 4 to ten days in any quantity aud in the same depths as our Gill Nets listed above. On the other sizes we require three to four weeks' time and we do not accept orders for less than 5 pounds of any size.

Superior Fyke or Hoop Net

For hoop nets without wings, see price list in center of page.



Our Fyke and Hoop Nets are made with ample amount of netting around the hoops, which takes the strain off the netting and prevents it from wearing out, as nets do which are not fitted with enough netting around hoops. The wings are hung on rope, fitted with floats and leads. Made of first quality cotton twine. Hung ready for use. **Sizes, 2, 2½, 3, 4, 4½, 5 and 6 feet carried in stock and shipped promptly.** Shipping weights, 2 feet, 10 pounds; 2½ feet, 12 pounds; 3 feet, 20 pounds; 4 feet, 25 pounds; 4½ feet, 30 pounds; 5 ft., 35 lbs.; 6 ft., 46 lbs. Cannot be sent by parcel post. Expect a delay of four to eight days.

Up a Freight Shipment and Get the Benefit of Low Transportation Charges.

Extras for Seines.

Large seines require rope heavier than ¼ inch, which is the regular rigging. We can furnish seines fitted with rope 5/16 inch diameter at 10 cents per yard extra; ⅜ inch diameter at 12 cents per yard extra. On the larger seines, over 300 feet, for muddy bottom fishing, we would recommend a single heavy bottom line, ¾ inch in diameter, without leads, which is of sufficient weight to sink the net and will not cut into the mud as the smaller lines are apt to do. With this bottom line there will be an extra charge of 15 cents per yard. Allow from four to eight 'days' time for us to make your seine.

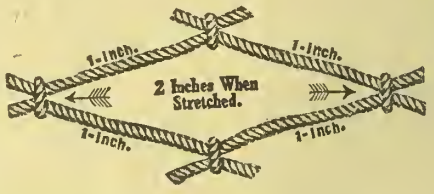
Fittings.

On seines 4 and 5 feet deep, 2½x3-inch floats are used, spaced 3 feet apart; on seines 6, 7, 8 and 9 feet deep, 2½x4-inch floats, spaced 3 feet apart; and on seines 10 and 12 feet deep, 3x4-inch floats, spaced 3 feet apart. All depths are fitted with No. 9 leads, spaced 18 inches apart, one under each float and one between.

Why You Should Buy Your Nets Of Us

We hang our seines on a basis of one-third in both length and depth, which means that our nets are hung with a sufficient fullness to allow a full one-third for slack or bag.

The illustration shows a 1-inch square mesh. All sizes of mesh given are square, so that a 1-inch square mesh measures 1 inch on each of the four sides or from knot to knot and 2 inches from point to point of mesh when stretched.



Netting hung in the customary diamond shape requires the following number of meshes to every foot, allowing one-third for slack:

1-inch netting	9 meshes to a foot
1½-inch netting	6 meshes to a foot
2-inch netting	4½ meshes to a foot
3-inch netting	3 meshes to a foot

A seine 6 feet deep, 1-inch mesh, will have 54 meshes in depth; 8 feet deep, 1½-inch mesh, will have 48 meshes in depth. Our meshes are absolutely true to size. Made of the celebrated Gold Medal ten-yarn twine, the yarn used being of an especially high quality cotton. To determine the size of twine, unravel the strands and count the number of threads. **When ordering seines be sure to state length, depth and size of mesh wanted.**

This applies to seines or less, whereas on se 100 feet in length and depth and deeper, we 3x4-inch floats, space apart. We use 5/16-in sisal net rope with a line and double right ar bottom lines for seine and less; for seines ove ¼-inch tarred sisal When heavier lines ar an additional charge is

Shipping Wei of Seines.

A seine 4 feet dee mesh, made of No. weighs (packed) about to the running yard; 4 ¾-inch mesh, No. 12 tw 12 ounces to the runn 6 feet deep, 1-inch mes twine, about 14 ounc running yard; 10 feet inch mesh, No. 12 tw 1¼ pounds to the run

Seines made of No. weigh about one-third seines made of No. Weights on other sizes tion.

Our straight and tapered seines are hung on a good grade of rope with a single line at top and double lines at bottom. These double lines have one rope right lay, the other rope left lay, which prevents the bottom lines from rolling up.

Superior Straight Drag Seines.

Price, per Running Yard.

The size of the rope used on seines 100 feet to 5 even longer, is ¼ inch in diameter, but we c seines with heavier rope, if desired, at addition stated at top of first column under "Extras for

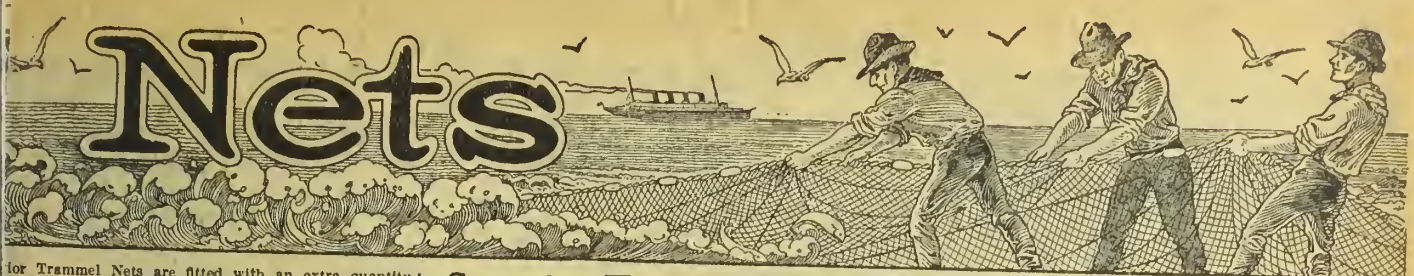
Nets



lor Trammel Nets are fitted with an extra quantity le netting. We allow 50 per cent more inside netting h than the depth of the net. For instance, in a feet deep the inside netting is 9 feet deep, hung , giving you 3 feet extra netting to pocket the fish. tside netting and inside netting are both hung on d basis in length, so that the netting for a 100- t is 150 yards stretched, hung into 100 yards. We number of mesh in depth of inside netting so you the exact depth you will get in your net.

Allow six to ten days' time for shipment.

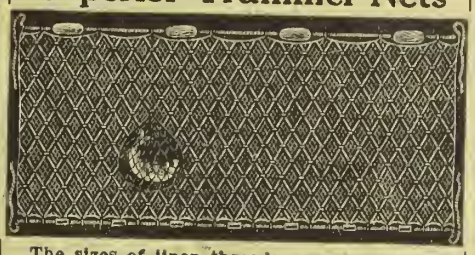
Superior Trammel Nets



The sizes of linen thread we use are as follows: 25/3 in ¾, 1 and 1¼-inch mesh; 18/3 in 1½ and 1¾-inch mesh; 16/3 in 2 and 2¼-inch mesh; 12/3 in 2½-inch mesh and larger. The outside netting or walling is made of No. 16 soft cotton seine twine. Weight, per yard, up to 4 feet deep, about 4 ounces; over 4 feet deep, about 8 ounces. Expect a delay of six to ten days.

We also supply the inside filling for old nets and if you will advise the size of your old net, we shall be glad to give you an estimate of weight and cost.

We do not ship C. O. D.

Our nets are fitted with ample amount of floats and leads for ordinary use, but should you want them fitted with double amount of leads (which is necessary for fishing in very strong current, and also with bottoms full of weeds, grass, etc.), there will be an extra charge of 7 cents a yard. The inside netting in all of our trammel nets is made of good quality linen thread and we use heavier thread in the larger sizes of mesh.

Allow six to ten days' time for shipment.

Banner Trammel Nets

er Trammel Nets are specially made for commercial fishermen. The inside double the depth of the net, so that a net 6 feet deep will have inside netting 12 hung measure. Both outside and inside netting are hung on one-half basis, so netting for a 100-yard net is 200 yards stretched, hung into 100 yards. As the inside netting is hung on one-half basis in length, it adds more in depth, so that it requires less number of mesh in depth than if hung on one-third basis. These nets are fitted with an extra quantity of leads and guaranteed to be made perfect in every detail. Always allow from six to ten days' time for shipment to reach you.

Allow six to ten days' time for shipment.

Regulation size round disc solid rubber puck. Shipping weight, 10 ounces.

No. 6N6047 Price, each.....22c

Strand's reinforced toboggans, made of rock elm and hard maple, natural wood finish. The middle and two outside slats are thicker than the other four. This adds greatly to the strength of the toboggan, and as it decreases the running surface on an iced slide, it will increase the speed and also make it a great deal easier to steer in the snow. Note the long, graceful bend, enabling it to take a bump without a jar and making it run easy in deep snow. Fitted with ½-inch cotton rope, fastened with leather loops.

6N6078¼ 5 feet long. Shpg. wt., 15 lbs. Price.$4.50

6N6079¼ 6 feet long. Shpg. wt., 17½ lbs. Price. 5.40

How to Measure for Skates.

State length of shoe in inches measured as per accompanying illustrations—men's and boys' shoes, as indicated, 1 to 2, and women's and children's 3 to 4. Do not order ekates by number. We often receive orders reading like the following: "Send me a pair of skates No. 9." We do not know whether it is for a child's No. 9 shoe, a man's No. 9 shoe or a 9-inch shoe. We cannot fill orders unless the length of the shoe is given in inches, measured as outlined. The lengths in which we list the various skates shown on this page do not mean lengths of runners but lengths of the top plates on which the shoe sets. By measuring in accordance with these instructions you will get a proper fit.

Ready to Wear Baseball Uniforms

MEN'S AND BOYS'

The Challenge Ready to Wear Uniforms, at our prices, are exceptional values. We purchase the material at the right time, in enormous quantities, make the uniforms up during the dull Winter months, and stock them, ready to ship when the season opens. All seams are double stitched. The shirts are made with military trimmed collars, trimmed elbows, double yokes. The pants are unpadded, with elastic bottoms and corded seams. Boston style caps with corded seams and trimmed visors to match suits. Web belts. Heavy ribbed stockings in colors to match the suits, with 3-inch stripe around calf. These uniforms are made of light gray color flannel and furnished trimmed either in navy blue, maroon or green. Sizes, 28 to 42 inches breast measure. **Give catalog number, state color desired, mention breast measure and give size of cap and stockings.**

No. 6N10479 Price, each.....18c

TENTS AND CANVAS GOODS

Fulton Brand Tents and Covers are made only from full weight, standard 29-inch duck, which means that 8-ounce duck will weigh 8 ounces to the yard 29 inches wide, and 10-ounce duck, 10 ounces to the yard 29 inches wide, etc. Fulton Brand Canvas Goods are sold exclusively by us, and by reason of their being made in our own factory and under our close supervision, we are enabled to rigidly maintain the quality.

By contracting for our duck in large quantities as we do, directly with large mills in the heart of the cotton growing country in the South, we are enabled—combined with our economical selling methods—to offer the remarkable values in canvas goods that have made the Fulton Brand so widely known.

Fulton Brand Tents possess many features of special merit. Two doors, one at each end, are furnished without additional charge on all tents, 16x24 feet or larger, if desired. If you order a Wall Tent, this size or larger, mention whether you want the extra door. All doors are provided with a large, full flap of the same weight of canvas as is used throughout the tent. Pure manila and sisal rope only are furnished. All guy ropes are provided with a hand worked sailor splice. On all tents 12x12 feet or larger, we provide two additional top guy ropes, one at each end. Our improved steel ring grommets are sewed into all tents at points of greatest tension. **Notice the height of wall and center given in tables below.**

Fulton Photographers' Tents.

Designed to meet every requirement of photographers. Made full size and of full weight material, with large size skylight amply protected from weather. Allow from five to ten days for making. Not shipped C. O. D.

The Photographers' Tent prices below include one skylight, manila guy ropes, poles and pins. The weights given below include poles, and may vary on account of the poles not always running exactly alike. Other sizes gladly quoted on request.

No. 6N10360½ State size wanted.

18 x35	5	11	233	95.51	116.35

Weight of Tents is given above in 8-ounce with poles; 10-ounce will weigh about one-quarter more than 8-ounce. The weight may vary slightly, as the poles do not always run alike.

We Carry in Stock all sizes of wall tents from 7x7 to 12x18 feet, and immediate shipment can be made. On all other sizes allow three to five days' time to make; in June and July allow from six to twelve days. If a stock tent is ordered with a fly, the order requires special handling. Allow four to eight days for making.

We do not ship special make tents C. O. D.

If Poles Are Not Wanted deduct 5 per cent of the price of 8-ounce tent. We do not ship made to order tents C. O. D.

Tent Fly.

A fly for a tent is an extra removable roof spread over the top of the tent and is staked down, leaving an air space between it and the tent. This air space adds coolness in Summer. The extra roof provides additional protection from cold and dampness. Buy a tent fly if the roof of your tent leaks. The cost of a fly is one-half the price of a wall tent of corresponding size and weight of duck. For example, a fly for a $20.00 wall tent would cost $10.00. Necessary stakes and ropes always included without extra charge. Allow three to six days for making. In ordering specify No. 6N10358½.

Extension Fly.

Covers not only the roof of the tent, but extends in front, forming a shade or awning. The cost of an extension fly is in the same proportion as the length of the extension is to the length of the regular fly. A 6-foot extension on a fly 12 feet long would increase the length of the fly one-half and would increase the cost a like amount; in other words, if the cost of a fly 12 feet long were $10.00, the cost of a 12-foot fly with a 6-foot extension would be $15.00. Allow three to six days for making. In ordering specify No. 6N10374½.

Fulton Refreshment Tents

Oblong Refreshment Tent, made of p white duck, as shown in illustration. P includes poles, pins and guy ropes, c plete, ready to set up. We furnish refreshment tents with double corner ropes made of high quality manila. illustration shows front open with ca drawn to the side; the front may be cl or stretched out as an awning, or take altogether, as it is fitted with snaps these changes.
